

1st Annual Tobacco Round Up

The first annual Tobacco Round-Up conducted by the PCSB Wellness Team was a great success! In support of the Great American Smokeout on November 19th, we dropped in on 30 locations throughout Polk County to try and find current tobacco users who were willing to trade their tobacco for a bag of goodies.

In the end, 28 people gave us their tobacco! Of course, not all smokers are at a point where they are ready to quit, so we also collected the names of 35 people who expressed interest in attending smoking cessation classes after the holidays!
