

Men's Health Statistics

Health Facts:

Men die at higher rates than women from the top 10 causes of death and are the victims of over 92% of workplace deaths. (BLS)

In 1920, women lived, on average, one year longer than men. Now, men, on average, die almost six years earlier than women. (CDC)

Silent Health Crisis

There is a silent health crisis in America...it's that fact that, on average, American men live sicker and die younger than American women."

Dr. David Gremillion
Men's Health Network

Prevention:

Women are 100% more likely to visit the doctor for annual examinations and preventive services than men. (CDC 2001)
