Fast ForWord® by Scientific Learning

10 in a Row Scenarios

Accurate responses are essential for students to advance through the Fast ForWord exercises. In each scenario below, the participant responds correctly 83% of the time. However, only by **consistently** answering correctly does a participant advance.

- Scenario 1: The participant answers correctly 5 times, then incorrectly, and repeats the pattern. **The result: stays at the same level.**
- Scenario 2: Participant answer six incorrectly, then 24 correct in a row. **The result: moves steadily up to Level 11.**
- Scenario 3: Begins like Scenario 1, moving back and forth between first 2 levels; answers last 12 correctly. The **result: moves to Level 5.**

Scenario 1

hits	1	1	1	1	0	1	1	1	1	0	1	1	1	1	0	1	1	1	1	0	1	1	1	1	0
level	1		2		1		2		1		2		1		2		1		2		1		2		1

30 hits / 36 trials = 83% correct

Scenario 2

hits	0	0	0	0	0	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1
level	1	1	1	1	1	1	1		2		3		4		5		6		7		8		9		10	11

30 hits / 36 trials = 83% correct

Scenario 3

hits	1	1	1	0	1	1	1	0	1	1	1	0	1	1	1	0	1	1	1	0	1	1	1	1	1	1
level	1		2	1		2	1		2	1		2	1		2	1		2	1		2		3		4	5

30 hits / 36 trials = 83% correct
