

Updating Adobe Acrobat Reader

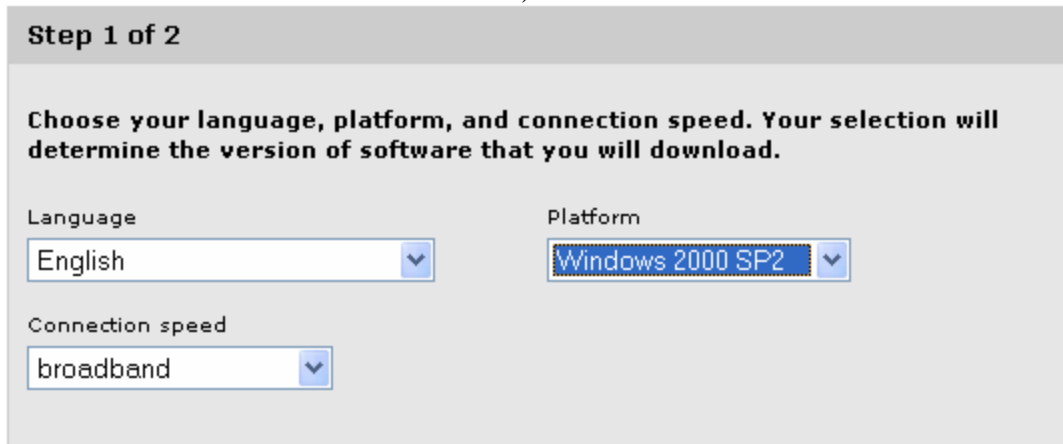

You must have administrative rights to your computer. If your network manager has set up your account with restricted rights, you will not be able to perform the tasks.

Uninstalling the old version

1. Go to the Start button, up to Settings, and click on Control Panel.
2. Double click on the Add/Remove Programs control panel.
3. From the list that appears, click once on Adobe Reader (could be version 5.0, 6.0, etc.)
4. Click the Change/Remove button. Follow the onscreen instructions to remove the software. Click Yes when prompts appear.
5. You may have to restart your computer. Do that if the computer asks you to.

Installing the new version

1. Click the link here: <http://www.adobe.com/products/acrobat/readstep2.html>
2. Select Broadband as the connection, and the Platform on your computer (either Windows XP or Windows 2000 SP2)

Step 1 of 2
