

INTRODUCTION

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.
 If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.
 If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

Summary of revenue/expenditures available for new construction and remodeling projects only.

Expenditures

Expenditure for Maintenance, Repair and Renovation from 2-Mills and PECO

Annually, prior to the adoption of the district school budget, each school board must prepare a tentative district facilities work program that includes a schedule of major repair and renovation projects necessary to maintain the educational and ancillary facilities of the district.

Revenue

2 Mill Revenue Source

Schedule of Estimated Capital Outlay Revenue from each currently approved source which is estimated to be available for expenditures on the projects included in the tentative district facilities work program. All amounts are NET after considering carryover balances, interest earned, new COP's, 1011.14 and 1011.15 loans, etc. Districts cannot use 2-Mill funds for salaries except for those explicitly associated with maintenance/repair projects. (1011.71 (5), F.S.)

The COFTE Projected Total (95,467) for 2012 - 2013 must match the Official Forecasted COFTE Total (95,467) for 2012 - 2013 before this section can be completed. In the event that the COFTE Projected Total does not match the Official forecasted COFTE, then the Balanced Projected COFTE Table should be used to balance COFTE.

Infrastructure Tracking

Necessary offsite infrastructure requirements resulting from expansions or new schools. This section should include infrastructure information related to capacity project schedules and other project schedules (Section 4).

Road improvements for site access, water and sewer connections, intersection improvements, utility connections (electric, cable, etc.)in cooperation with local governments and developers. The challenge involves the issue of development having been allowed to take place without bringing utilities to the area of development such as central water and sewer.

Proposed location of planned facilities, whether those locations are consistent with the comprehensive plans of all affected local governments, and recommendations for infrastructure and other improvements to land adjacent to existing facilities. Provisions of 1013.33(12), (13) and (14) and 1013.36 must be addressed for new facilities planned within the 1st three years of the plan (Section 5).

Consistent with Comp Plan? Yes

Net New Classrooms

The number of classrooms, by grade level and type of construction, that were added during the last fiscal year.

List the net new classrooms added in the 2007 - 2008 fiscal year.					List the net new classrooms to be added in the 2008 - 2009 fiscal year.			
"Classrooms" is defined as capacity carrying classrooms that are added to increase capacity to enable the district to meet the Class Size Amendment.					Totals for fiscal year 2008 - 2009 should match totals in Section 15A.

Failed Standard Relocatable Tracking

Relocatable units currently reported by school, from FISH, and the number of relocatable units identified as 'Failed Standards'.

Nothing reported for this section.

Planning

Class Size Reduction Planning

Plans approved by the school board that reduce the need for permanent student stations such as acceptable school capacity levels, redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multitrack scheduling, grade level organization, block scheduling, or other alternatives.

The Polk County School Board has been and continues to be a leader in the awarding of charter status to applicants which meet the statutory requirements as well as being receptive to public-private partnerships. As an ongoing process, a utilization of schools is completed on a room by room basis with the results being shared with the Principal and the Senior Director having supervision responsibility for the school. This utilization will also include site visits to increase the utilization of the school(s) to the DOE utilization percentages. Inclusion of ESE students into the regular curriculum will continue to be implemented and should result in ESE rooms converting to regular classroom usage. The advent of school concurrency will hasten the rezoning of schools not only as new schools or additions come on line but also when additions to schools are added or on as needed basis depending on the life cycles of existing neighborhoods and the construction of new developments. The usage of year round schools is an option but is used infrequently and the use of double sessions is an emergency option only. The District continually reviews scheduling models to increase efficiency but State mandated programs as well as Federal mandated programs must be taken into account and do affect the usage of buildings. Changing demographics as well as programs needed to prepare students for successful passage of the FCAT as well as meeting the requirements of AYP put additional strain upon the facilities especially in areas the are out of the control of the District.

School Closure Planning

Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.

At this time there are no plans to close any current active school sites. Davenport School of the Arts will be relocated to a new site with plans to remodel and renovate the existing facilities to return the school to its former elementary status. Action by the City of Davenport City Commission regarding the need for a formal agreement regarding the continued closure of Suwannee Avenue will affect the decision of this property and could create a situation in which the School Board will close the school and convert the facilities to another ancillary usage.

Twenty-Year Infrastructure Planning

Proposed Location of Planned New, Remodeled, or New Additions to Facilities in 11 thru 20 out years (Section 28).

The District is currently evaluating all existing schools as to their viability under current use and construction. Plans will be forthcoming for the demolition, new construction, and remodeling of existing structures while monitoring future growth.

Plans for closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues in the 11 thru 20 out years (Section 29).

At this time there are no plans to close any schools but an evaluation process is taking place at each site to determine its cost effectiveness per the number of students and staff needed to operate the facility.
