

6Gx53-4.010 HEALTH SERVICES:

The School Health Services Manual includes additional rules and procedures related to student health issues and are incorporated herein as if fully set forth herein.

The Department of Health, School Health Services Manual is adopted by the School Board of Polk County. The School Board of Polk County shall collaborate with the Polk County Health Department to develop, implement, monitor and evaluate a District health services plan.

The District health services plan shall include the following:

1. "Handbook for School Health Clinic Aides and Health Contacts"
2. "Medication Administration Policy and Procedural Manual"
3. "Communicable Disease Policy and Procedure Blood Borne Pathogen Exposure Control Plan"

The Superintendent of Schools shall select a committee to meet on an annual basis to review and revise these policies as needed. School administrators will be responsible for updating school manuals and communicating information to all school staff.

Statutory Authority: Florida Statutes 1001.32, 1001.41, 1001.42, and 1001.43
