Re: December 2012 Financial Summary

Attached you will find the financial package for month ending December 31, 2012. Below you will find a brief summary by fund of the major events impacting the financial statements of the District.

General Fund

State sources of revenue remain higher than prior year, partially offset by lower local sources. Overall revenues are slightly higher when compared to prior year revenues. However, they are slightly behind anticipated revenues budgeted through December on a pro-rata basis. Overall expenses in the General Fund are slightly higher than prior year expenses, but remain below budgeted expenses anticipated through December on a pro-rata basis.

The increase in instructional expense over prior year is primarily driven by pay increases in fiscal years 2012 and 2013. Pay increases for fiscal year 2012 was paid retroactively in March 2012. As a result, the year-over-year comparison appears to be greater than the amount of pay increases paid in 2013. This discrepancy will balance out in March 2013. In addition, the increase in enrollment of charter schools in fiscal year 2013 has increase the number of dollars passed through the District to charter schools. Lastly, capital outlay expenditures for instructional purposes are higher than prior year due to the replacement of furniture and equipment in the schools.

Other expense increases of note include increased expenditures year-over-year in instructional related technology due to the replacement and purchase of computers and other technology within the schools. Increases in pupil transportation are driven by pay increases provided in March 2012 and increased premiums in fleet liability insurance.

Capital Projects

Overall revenues in Capital Projects are down slightly when compared to plan and prior year. Expenses for Capital Projects are down as compared to prior year, as well as the current year, offsetting the decrease in revenue. The decrease in facilities construction expenses is a result of the reduction of the number of active projects when compared to prior year. The increase in transfers out relates to the increased capital outlay expenditures within the general fund for equipment and furniture replacement in the schools.

Special Revenue

Federal direct sources of revenue are up slightly due to timing of grant receipts. Federal through state sources of revenue are down due the 9% holdback requested by the Federal government as a result the expected fiscal cliff at the end of calendar year 2012. Expenses have increased in food services as a result of pay increases provided in March 2012, as well as, a general increase in overall food costs.

If you have any questions concerning this report or have any suggestions for additional information you would like to see provided as part of this report, please, do not hesitate to contact me at any time.

Thank you!
