

Often students want to stay on task but they are unable to do it alone. They don't want the teacher to constantly re-direct them and teachers shouldn't have to. Students need to, and want to, learn to monitor themselves. This strategy has been successful before and hopefully can help your student.

The MotivAider is an ingeniously simple device that was designed from scratch to enable people of all ages to stay focused and change their own behavior and habits quickly, easily and privately.
