

Announcing Florida's 1st STEM Education Conference

Specifically designed for participation by business, education, workforce and economic development leaders

Addressing STEM talent development for Florida's future

We've heard from more than 400 STEM stakeholders that participated in the STEM Florida Business Roundtables and know where Florida stands with the release of the *State of STEM* report. Now it is time for Florida's leaders to move forward in developing a statewide strategy for STEM education. Hear the latest from state and national leaders in STEM, be inspired by award-winning programs and join us in determining how we can best channel our resources to fill the gaps and provide the outcomes needed for Florida's future!

STEM Education Conference
July 25–27, 2010
Buena Vista Palace Hotel & Spa
Lake Buena Vista, Florida

CALLING ALL STEM STAKEHOLDERS!

The STEM Education Conference will provide the forum for furthering the statewide efforts to address market relevant STEM talent development and retention.

Reserve your seat at the table - [REGISTER TODAY!](#)
Seating is limited to 200 registrants

[Agenda and Awards Applications](#)

are online at
www.STEMflorida.net

Florida's first-ever statewide STEM Education Conference will provide the forum for all Florida STEM stakeholders to combine their voices, insights and perspectives.

Business, education, economic and workforce development leaders: This is your opportunity to develop a plan for addressing Florida's critical need for market-relevant STEM talent development and retention.

But wait - there's MORE...

Know of a great STEM program already happening in Florida? Nominations are now being accepted through the website below for the "best practices" awards to be presented at the conference.

*We thank and acknowledge our
STEM Education Conference session sponsors:*
