

Volunteer Public School Choice Collaborative Race to the Top

June 2010

Presenters were knowledgeable and prepared:

- All presenters were very prepared with their presentations.
- Created a warm risk free environment for sharing.
- Enjoyed listening to what others are doing in their schools.

- Most presenters were engaging and topics were interesting.
- Very comfortable setting – time went quickly – all presenters had something valuable to offer.

Adequate time provided for collaboration and networking:

- Pace was adequate.
- More time could have been provided.
- I would prefer to have a session to talk about administrative issues i.e. teacher assessments, budget reduction ideas, how to provide professional development scheduling.

- I was hoping for more time as administrators to network about school based issues.
- Maybe a round table time? Would've liked more time to talk with some of the presenters and get more in-depth information.

Information gained was valuable and replicable:

- I am excited to implement many of these ideas.
- Yes!!
- Some of the best practices are cost prohibitive. Maybe ask participants to focus on ideas that are not tied to expensive programs.

- Everyone/school had so many wonderful/positive things to present! Awesome and inspiring.
- It would have been nice to have more handouts – especially for writing items.

I would recommend this workshop to others:
