

THE PERFORMANCE MANAGEMENT INSTITUTE

The Performance Management Institute provides classroom and web-based training to enhance the ability of charter school operators and authorizers, as well as others, to adopt and apply performance measurement practices to charter schooling and its oversight.

Performance Management puts the intention of **strategic planning** and the importance of daily activity to the test by examining results on a regular basis.

Don't miss out on this exciting opportunity to arm your organization with a sound Performance Management practice that will enable you to respond to performance mandates, accreditation requirements and the demands of stakeholders.

Come learn how to gather relevant data and transform it into relevant measures of performance, thereby making the jobs of everyone around you easier by aligning daily activities with overall organizational performance.

February 26-27th, 2009

Please RSVP by January 16, 2009, as space is limited! Don't miss your chance to attend this dynamic Institute!

This event is hosted by the Polk County School Board, Office of Magnet, Choice and Charter Schools. Contact Carla McMullen for additional information and to RSVP Carla.mcmullen@polk-fl.net

Building Charter School Quality is a project funded by the United States Department of Education Office of Innovation and Improvement. This National Activity project aims to improve student achievement by helping charter school operators and authorizers strengthen their performance management practices. The National Alliance for Public Charter Schools, the National Association of Charter School Authorizers, the Colorado League of Charter Schools and CREDO, an education and policy research group at Stanford University are partners in the project.
