**Students who are not in compliance with immunization laws are required to be excluded from school.**  
(Immunizations given four days before a minimum interval or age will be counted as valid.)

- MMR** (one shot): Measles, mumps and rubella must have been given on or after the child's first birthday.
  - MMR** (two shots): The minimum interval between the 2 doses of MMR is 28 days.
  - POLIO** (3-5 doses): **Kindergarten:** If fourth dose of polio vaccine is administered prior to the fourth birthday, a fifth dose of polio vaccine is required for entry into kindergarten.  
**First through twelfth grade:** If third dose of polio was given on or after the fourth birthday, a fourth dose is not required.  
The final dose of the polio series should be administered on or after the fourth birthday regardless of the number of previous doses.
  - DTP/DTaP** (5 shots): If the fourth dose of DTP/DTaP was given on or after the fourth birthday, a fifth dose is not required. Students between ages 7 and 12 (before 7<sup>th</sup> grade) may be considered complete with three doses and evaluation by the Department of Health School Nurse.

  - Td or Tdap:** Students grades 10 through 12 must have either a Td or Tdap.
  - Hib:** Number of doses of Hib varies according to age. If child was over 15 months when first vaccine was given, one dose will be given.
  - Varicella** (one shot or signed proof of disease): Varicella must have been given on or after child's first birthday.
- ♦♦♦ Pre-K students must have started the series, and have a current immunization certificate.

**Certification of Immunization (DH 680):** The form DH 680 will no longer be pre-printed on BLUE paper. The form can now be printed on plain white paper as long as it is printed from the Florida State Health Online Tracking System (FL SHOTS). The DH 680 forms written by hand are on blue paper at this time, but that will change in the near future, when the supply of blue colored forms has been depleted.

FL SHOTS is Florida's free, online immunization registry which all schools and child care facilities are able to have access to. For more information on enrolling your school in FL SHOTS, visit [www.flshots.com](http://www.flshots.com) or call 1-877-888-SHOT.

FL SHOTS also has a Parent Record Retriever which allows parents to print the certified DH 680 from their home computer. Parents will only have access to their own child's records after the doctor's office provides them with a special PIN number. The form is legal and valid for admittance to schools and daycare facilities and may be printed on standard white paper.

**Temporary Medical Exemption (DOE code 2) must be filled in with a future expiration date.** If date has passed, or is not filled in, certificate is not valid, and student should not be in school. This applies to all Temporary Medical Exemptions, regardless of grade level. Schools are to track students who enter on Temporary Medical Exemption, and exclude those students when certificates expire if a new certificate has not been presented.

**Religious Exemptions** (form DH 681) are allowed. They must be obtained at a Health Department Clinic.
