Progressive discipline shall be administered in the following steps: (1) verbal warning in a conference with the teacher. (A written confirmation of a verbal warning is not a written reprimand); (2) dated written reprimand following a conference; (3) suspension without pay for up to five days by the Superintendent and (4) termination. “Letters of Concern” are not a form of discipline.

4.5-3 Materials relating to work performance, discipline, suspension, or dismissal must be reduced to writing and signed by a person competent to know the facts or make the judgment. A copy of such materials to be added to an employee’s personnel file shall be provided to the employee. The employee’s signature on a copy of the materials to be filed shall be proof that such materials were given to the employee, with the understanding that such signature merely signifies receipt and does not necessarily indicate agreement with its contents. No anonymous letter or anonymous materials shall be placed in the personnel file. An employee has the right to answer in writing any such materials and the answer shall be attached to the file copy.

4.5-4 Except for items that are by law exempt, all material placed in the teacher's personnel file shall be available to the teacher at his/her request for inspection.

4.5-5 There shall be a single point of contact in the Human Resource Services Division for an employee or the Association to review the personnel file as defined in FL Statute. Those employees who are under a teacher contract but do not have 330 student contact minutes per day shall work the regular 7-3/4 hour day.

6.2-2 Teachers at the Area Technical Centers in special programs (such as: State Licensure Programs, Less Than 5 Days, etc) shall work no more than a 35 hour week with no more than 1950 minutes of student contact time per week and no less than 150 minutes of planning time per week. In certain situations teachers in these programs may not have a duty free lunch.

6.2-3 Arrangements for classroom visits made during the prescribed teaching day shall be made by the teacher with the approval of the principal/immediate supervisor. Visits to a teacher's classroom by persons not connected with the Polk county school system shall be conducted only with the teacher's prior approval. Such access to public school classrooms shall not be unreasonably denied. Evaluative visits by school district office personnel shall be made with a two (2) work day notification to the teacher and principal/immediate supervisor, except in case of emergency. Teacher approval is not required for visits by the Education Practices Commission or for special open house visitation planned by the faculty and administration.

6.2-4 Communication systems shall not be used for assessment purposes, nor shall they be used for monitoring classroom activities without the teacher's permission. School wide use of public address systems shall be kept to a minimum during student contact times. Morning and afternoon announcements shall be at predetermined times.

6.2-5 When school is not in session, a teacher may be given access to his/her classroom by arranging such access through the principal.

6.2-6 The principal or immediate supervisor shall have authority to grant a teacher's request for variation from the regular school day schedule when circumstances necessitate such a procedure. When granted, such variation shall not result in loss of pay or accumulated leave days to the teacher.

6.2-7 Teacher Resource Specialist Trainers (TRST) hired before July 1, 2005 who work a 10 or 11 month contract, for 7.75 hours daily with a 30 minute lunch inclusive, will not receive the TRST supplement (Appendix D) and will be designated as a TRST I. No TRST hired after July 1, 2005 will be eligible for the Level I designation. TRST I may elect to reclassify to the appropriate TRST II or TRST III position by notifying their supervisor in writing.

In order to comply with this mandate, teachers will work an eight (8) hour day with the additional time paid at their daily rate of pay. In the event that a teacher does not wish to work the eight (8) hour day, the principal shall have the authority to grant the request thus allowing the teacher to continue the traditional 7 ¾ hour day, as long as the additional hour of intensive reading instruction requirement can be met. All contractual rights including the amount of planning time as guaranteed in Article 6.3-1 will be honored.

6.3 Planning: All teachers are to be guaranteed 300 minutes of planning time a week. Planning time shall be used primarily for lesson/program planning, parent conferences, student conferences, and conferring with other faculty members. Recognizing that curriculum changes are inevitable throughout all areas of instruction, team/common planning may occur and is encouraged in order to meet the needs of the students. Teachers are responsible for the proper utilization of planning time.

6.3-1 Elementary school teachers shall have no less than three hundred (300) minutes per week of scheduled duty free planning time. This planning time shall include an uninterrupted, continuous block of time of no fewer than thirty (30) minutes per day. Elementary teachers shall stay with their students when the students are participating in regularly scheduled special classes only when there is no certified instructor available.

6.3-2 Middle school teachers shall have no less than three hundred (300) minutes per week of scheduled duty free planning time. This planning time shall include an uninterrupted, continuous block of time of no fewer than thirty (30) minutes per day. At least one hundred fifty (150) minutes of planning time will be during the student contact time. Middle school schedules should include time for teacher planning time for such concepts as team planning, back to back planning periods, parent conferences, student conferences, etc. In middle schools that elect to participate in a seven (7) or eight (8) period day, the normal teaching load will be six (6) out of seven (7) or seven (7) out of eight (8) periods. (Advisor/advisee instruction will count as a teaching period.) Teachers should not be involuntarily assigned a teaching schedule requiring more than three (3) preparations. In the event of such an assignment, the teacher may appeal the assignment. The appeal will be made to the school site curriculum committee and representatives of the affected department. If the issue is not resolved within five (5) working days it may be referred to the PEA president and the director of employee relations for further resolution. The entire appeal process shall not exceed fifteen (15) working days.

6.3-3 High school teachers shall have no fewer than three hundred (300) minutes per week of duty free planning time. A normal teaching load will be six (6) out of seven (7) periods. Teachers should not be involuntarily assigned a teaching schedule requiring more than three (3) preparations. In the event of such an assignment, the teacher may appeal the assignment. The appeal will be made to the school site curriculum committee and representatives of the affected department. If the issue is not resolved within five (5) working days it may be referred to the PEA president and the director of employee relations.

Special program teachers who have no more than 1950 minutes of student contact time per week shall have no less than 150 minutes of planning time per week.

6.3-5 Teachers are to make arrangements with the principal or immediate supervisor prior to leaving school grounds during this planning time.

6.3-6 The Board shall structure a schedule for students that dismisses all students 150 minutes early to provide teachers 150 minutes of planning time in addition to the three hundred (300) minutes per week described in sections 6.3 through 6.3-4. There shall be at least five (5) of these early dismissal days distributed throughout the school year as mutually agreed upon. The additional 150 minutes of planning time for up to one (1) of these early dismissal days may be designated for staff development. All remaining time shall be used by the employee for self-directed planning activities.

6.4 Non-instructional Duty: There shall be, insofar as possible, a fair and equitable distribution of non-instructional duties and responsibilities among all teachers and staff consistent with the law and School Board policies. No teacher will be required to work more than their contracted time. When a problem with planning or distribution of non-instructional duties and responsibilities becomes apparent, it shall be referred to the Safety, Maintenance and Non-Instructional Duties Committee.

6.4-1 Teachers shall have a duty free lunch period equivalent to that of the students. If the implementation arrangements, "e.g." re-assignment of paraeducators, changing of duty schedules, changing of teaching schedules of specialty teachers, etc. are not acceptable to a majority of the school faculty as determined by secret ballot vote, this provision shall not apply. Ballots will be counted by the principal/designee and teachers, to include PEA representation.

6.4-2 Except for regularly assigned duty, teachers shall not be responsible for students before or after regularly scheduled student contact hours.

6.5 In-service/faculty meetings: Valuable teacher training is accomplished through in-service programs. In-service time may be used as follows:

(a) in-service activity for school-based personnel
(b) faculty planning
(c) faculty meetings
(d) school self-study

Scheduled school in-service days must relate to legislative mandates, school improvement, accountability activities, effective schools, or SACS accreditation. When school based in-service takes place during the regular duty day, teachers not participating shall use the time for planning, parent conferences, or other school related duties. Grant writers must adhere to the salary schedule (Appendix E, or in accordance with Article 22.18) when making budgets for teacher pay schedules.

6.5-1 Faculty Meetings: The principal shall specify a day for regular faculty meetings. Except in extenuating circumstances, the faculty meeting should be limited to the designated day, and teachers shall be given twenty-four (24) hours notice. Such
meetings shall have an agenda, and shall be as brief and well planned as practical. A copy of minutes shall be kept and maintained in a designated, accessible place. Faculty meetings shall be conducted during the teacher duty day except in extenuating circumstances. Sales representatives will not be allowed access to the faculty prior to or during the faculty meeting.

6.6 Safe and Healthy Working Environment: The Superintendent shall be responsible for determining unsafe and hazardous conditions under which teachers shall not be required to work. In the event of a bomb threat or fire, teachers shall evacuate the building with their students and shall not be required to return to the building until the building has been determined safe to use according to the provisions of the School Board adopted Polk County Public Schools Disaster and Emergency Preparedness Plan. A copy of this and the school's safety plan will be included in the school’s Teacher Handbook and will be reviewed annually, before the start of classes, by the faculty and staff.

The Superintendent shall be responsible for determining that teachers are working in safe and non-health-threatening environments. To that end the Board shall:

6.6-1 The Board shall provide and require the use of necessary safety equipment to comply with the State Board of Education regulations concerning teachers assigned subject areas where the teacher is subjected to inordinate safety or health hazards. Provide each middle school and high school science teacher a copy of the most recent edition of the Polk County Schools Laboratory Safety Standards and Hygiene Plan.

6.6-2 Maintain heating and air conditioning equipment, where available, to provide a comfortable and healthy environment when school is in session except in emergency situations.

6.6-4 Provide custodial service to maintain classrooms and other learning areas in a clean and healthy condition. This determination shall be the responsibility of the principal or immediate supervisor. Bug spraying should be conducted after school hours. Teachers shall be informed at least two days in advance of such activity. (Bug spraying, painting, major maintenance projects, etc). This provision shall not apply to emergency situations.

The administration shall respond in writing as to the disposition of the action taken.

10.2-1 A system will be developed and implemented so that whenever a teacher notifies the office of a classroom emergency, such as a student fight, severe illness, or major student insubordination, a school official with authority is available at all times to attend to the classroom emergency as soon as possible. Within one month of Board approval, this system shall be included as part of each school’s Emergency Plan.

10.3 A teacher may use such force as necessary in protection from attack or to prevent injury to students and/or school personnel.
10.4 The Board and the Association agree that proper classroom decorum is essential to
the learning process. Teachers, in the performance of their duties, shall not be expected to
tolerate harassment, abusive language, upbraiding, insults or interference by a parent or
any other person.

10.4-1 When an offense, persistent misbehavior, or the disruptive effect of
misbehavior makes the continued presence of a student(s) in the classroom intolerable,
the student(s) may be referred by the teacher to the principal or his/her designee for
appropriate disciplinary action. In such case, an account of the problem or incident will
be submitted in writing by the teacher to the principal or his/her designee. The principal

changes.
ARTICLE XI - ACADEMIC FREEDOM

11.1 Teachers shall have all reasonable freedom within the limitations imposed by law, the State Board of Education Regulations, and the School Board policies and regulations, in the development and implementation of the curriculum, including the right to select useful and relevant materials and determine the class needs as they relate to the curriculum. ARTICLE XII - POLITICAL ACTIVITY

12.1 All teachers shall have freedom of political action to work for the party and candidates of their choice during off-duty hours, provided such action is within the laws of the United States of America and the state of Florida.

12.2 Political domination or coercion shall not be used to exact money or other things of value or required participation in political activity against the wishes of teachers under the threat that failure to do so shall affect their status as employees of the school system.

ARTICLE XIII - GENERAL EMPLOYMENT PRACTICES

13.1 As the Board is a fair and equal opportunity employer, marital status, race, creed, religion, sex, age, national origin or number of years teaching experience shall not be made a condition of employment. The Board and the Superintendent shall continue to implement and review their Affirmative Action Program designed to prohibit discriminatory practices, provide encouragement for applications from minority groups and women, and maintain the principle of employing a competent staff member to fill each vacancy. The Association will be advised of any proposed changes in the Affirmative Action Program and through the personnel office may make suggestions for improving the plan.

13.2 The Board may require a physical and/or psychiatric examination by a physician and/or psychiatrist licensed in Florida when, in its judgment, such an examination is relevant to teaching performance or employment status. The selection of the physician and/or psychiatrist shall be made by the teacher involved from a current list of three practicing physicians and/or psychiatrists named by the Board and the Board shall pay all costs incurred in the examination. Physical examination forms shall be available from the personnel office.

Such notice shall not be considered an admission of guilt nor shall such notice be admissible for any purpose in any proceeding, civil or
criminal, administrative or judicial, investigatory or adjudicatory. In addition, teachers shall self-report any conviction, finding of guilt, withholding of adjudication, commitment to a pretrial diversion program, or entering of a plea of guilty or Nolo Contendere for any criminal offense other than a minor traffic violation within 48 hours after the final judgment. When handling sealed and expunged records disclosed under this rule, school districts shall comply with the confidentiality provisions of Florida Statutes.

13.4 Any teacher employed to fill a temporary vacancy (more than fifty (50) days) must hold at least a Bachelor’s degree from a recognized institution and be working toward providing documentation to satisfy subject matter competency. Such teachers shall be placed at the appropriate step of the regular teachers’ salary schedule, shall receive written notice of the requirements to be met to continue District employment, and shall be considered a part of the bargaining unit.

13.5 Assignments for summer school or evening adult school shall be made with preference given to fully qualified teachers. If all applicants are fully qualified in the subject area then the choice will be based on the following: seniority, educational qualifications, efficiency, and capacity to meet the educational needs of the program. When assigning teachers to the Exceptional Student Education Summer Extended School Year (ESY) program, priority will be given to those teachers who served these students during the preceding school year. Summer school teachers shall be employed for no fewer than three (3) hours daily.

13.6 Any teacher willfully absent from duty without leave shall forfeit compensation for the time of such absence and be subject to discharge and forfeiture of tenure and other rights and privileges as provided by law. When an employee fails to obtain prior approval for absence from work or fails to notify his/her immediate supervisor of his/her need to be absent and is absent for three consecutive workdays, the employee shall be considered to have abandoned his/her position and resigned as an employee of the Board. Special consideration will be given in case of emergencies.

13.7 If a teacher fails to return to duty at the termination of a leave, his/her employment shall be subject to review and possible cancellation by the Superintendent or the Board.

13.8 Any teacher hired to take the place of a teacher on leave of absence shall be informed in writing, in person, by the principal that he/she has been hired only for the time until the teacher on leave returns. Said hired teacher shall sign the letter as a receipt.

13.9 When leave extends beyond a period of 18 months and a teacher returns, the teacher is required to attend New Employee Orientation and the Teacher Induction Program Seminar if they were on an Annual Contract with the District when leave was requested. Teachers with professional service contracts or continuing contracts at the time leave was requested will be required to attend New Employee Orientation upon their return to the District.

13.10 The Board will not contract or subcontract any teaching work for the purpose of laying off employees in the bargaining unit.

ARTICLE XIV – PROFESSIONAL QUALIFICATIONS AND ASSIGNMENTS

(In 2011, the Florida Legislature passed statutory changes eliminating the granting of new Professional Service Contracts and prohibiting the School Board from following the requirements outlined in Sections 14.1, 14.1-1, 14.1-2, and 14.1-3 of the contract below.)
These provisions are therefore placed in abeyance until all legal challenges have been resolved. All other Sections beginning with 14.2 remain in full force and effect.

14.1 Any teacher who meets the following requirements on or before September 1 of the fiscal year shall be issued a professional service contract:

14.1-1 Holds a regular or professional certificate as defined by State Board Regulations and as prescribed by Statute 1012.33. If all course work and all other requirements for a regular or professional certificate have been completed and an application for the certificate is filed with the Department of Education postmarked not later than midnight, September 1, and such regular or professional certificate is subsequently issued with an effective date of July 1 of that school fiscal year, the applicant shall be deemed to hold such certificate as of September 1 of the school fiscal year in which the certificate becomes effective.

14.1-2 Has rendered three (3) years of probationary service during a period of five successive years in the district. One (1) year shall be in the Professional Educator Competency Program where required as prescribed by Florida Statute 1012.56. The teacher must have been recommended by the Superintendent for such contract and reappointed by the school board based on successful performance of duties and demonstration of professional competence. Teachers not so recommended shall be given reasons in writing, if they so request. The Superintendent may recommend and the School Board may issue a professional service contract to a teacher after one full year of service in the district if a teacher had previously held a continuing contract or professional service contract in the state of Florida or within this district. Any employee who holds a continuing contract may, but is not required to, exchange such continuing contract for a professional service contract in the same district. An employee who has continuing contract status prior to July 1, 1984, shall be entitled to retain such contract and all rights arising therefore in accordance with existing laws, rules of the State Board of Education, or any laws repealed by this act, unless the employee voluntarily relinquishes his continuing contract.

14.1-3 Has successfully completed three (3) years out of five (5) successive years in Polk County in which said personnel has been transferred and/or displaced due to loss of unit and would have been recommended for rehiring if a position were available. Said teacher shall be recommended by the hiring principal for professional service contract.

14.2 A Professional Service Contract shall be renewed each year unless the Superintendent, after receiving the recommendations required by s.1012.34, charges the employee with unsatisfactory performance as determined under the provisions of s.1012.34.

14.3 The Board shall hire for full-time positions only teachers eligible to receive a certificate based on a Bachelor's degree or higher; or for non-degreed vocational teachers, a certificate based on the equivalent of a Bachelor's degree or higher.

14.4 Summer school, evening adult school and supplemental pay assignments shall be voluntary.

14.4-1 Open supplemental positions as shown in Appendix D must be advertised for five (5) working days.

Teachers interested in a supplemental position at their school/worksite will notify their principal/director of their interest on the intent to return letter for consideration of future vacancies.
Vacancies for supplemental positions must be advertised within the school where the vacancy occurs to all employees for five (5) working days.

If at the end of the five (5) day school/worksite posting, the position is not filled it will be advertised externally on the District’s web page (www.polk-fl.net) for employees and non-school employees.

All persons who receive supplemental pay will be evaluated yearly concerning their duties in that position. Such evaluation will in no way impact or become a part of the District employee’s regular duty evaluation.

Discipline of District employees related to supplemental positions will follow standard progressive discipline procedures.

Dismissal from an annual supplemental position during the school year or if a sport, during that sport season will be for just cause.

Removal of a District employee from a supplemental position could result in disciplinary action on the employee’s regular employment with the District.

14.4-2 Recognizing that the welfare and needs of students have always been the priority in optimizing supplemental programs (Appendix D), principals or program directors shall determine assignments considering seniority (defined as experience in the supplemental area or related experience), efficiency, and capacity to meet the needs of the program for all qualified applicants.

14.5 Extra period assignments are instructional assignments. The Board and Association agree that classroom assignments for extra periods must be made with the welfare and needs of the students as priorities. Realizing that principals are responsible for delegating assignments, these assignments shall be made with preference given to fully qualified teachers. If there are more applicants than positions available, the principal shall determine assignments based on seniority, efficiency, and capacity to meet the needs of the program (this includes the needs of the students.)

(As a note of explanation: A 1996 arbitration decision found that seniority carries a greater weight than efficiency or capacity, all things being equal.)

14.6 Where the student population reflects the need for bilingual teachers, the Superintendent shall attempt to find and recommend, and the Board shall employ such teachers who are bilingual and trained to assist students in English and the primary language spoken by the student provided the teacher is fully qualified for the position.

14.7 All teachers shall be given written notice of their tentative teaching assignment for the first semester of the following year at least two weeks prior to the end of the school year. A teacher may not be assigned into an out-of-field assignment unless the teacher voluntarily signs an agreement for the same. If there is a change in the tentative teaching assignment, the teacher shall be notified as soon as possible. Teachers shall be given written notice of a change in assignment for the second semester no later than the last student contact day of the first semester, except in cases of emergency.

14.8 In order to maintain employment, instructional staff required to hold teacher certification issued by the Florida Bureau of Educator Certification or the District as a term of employment will be required to be certified, qualified and highly qualified to teach core content courses or certified and qualified to teach non-core content courses. Whenever the term “fully qualified” is used in this collective bargaining agreement, it
describes the state of being certified, qualified, and/or highly qualified based upon the courses and students the teacher is assigned to teach in the master schedule.

14.8-1 Teachers new to the system who are assigned to teach core content courses will be given ninety (90) days from their date of hire or until April 1st to document fully qualified status as prescribed by the District Conditional Offer of Employment in order to be considered for reappointment, and failure to provide the necessary documentation shall be grounds for termination.

14.8-2 Teachers not new to the system may not be assigned to courses which will cause the teacher not to be fully qualified unless the teacher volunteers for the assignment and the principal has pre-approval from the Director of Human Capital Management, Endorsement, and NCLB Compliance. The duration of such assignments will be limited to one year. In order for the teacher to continue in the assignment beyond the year, he/she must pass the appropriate Subject Area Examination and add the subject area to his/her certificate. Teachers who are assigned according to the aforementioned provision must pass at least one Subject Area Examination and add the area to their certificate each year until all state and federal required areas are added. The teacher will have until April 1st of each year to satisfy this requirement in order to be considered for reappointment for the following school year in that position. The District will provide reimbursement for test registration fees upon successfully passing and for the addition to the educator’s teaching certificate (Title II funds).

14.8-3 In special and unusual circumstances, the Assistant Superintendent for Human Resource Services may grant extensions to these deadlines.

14.8-4 Any teacher who accepts an assignment for which he/she is not fully qualified must sign a written notice-acknowledgement (Agreement to Earn) that outlines all requirements to remain in that assignment and the notice-acknowledgement (Agreement to Earn) shall include the possible consequences of the teacher’s failure to timely meet those requirements.

14.8-5 A teacher, voluntarily assigned for one (1) year or less into an authorized out-of-field assignment will be required to earn six (6) semester hours or 120 in-service points toward certification in the out-of-field assignment during the twelve months following the date of initial assignment. Failure to do so would make the teacher ineligible to be placed in an out-of-field assignment in the future.

14.8-6 Teachers who volunteer to teach in an authorized out-of-field assignment must remain qualified as prescribed by the written notice-acknowledgement (Agreement to Earn) and/or English for Speakers of Other Languages (ESOL) Plan of Study. In special and unusual circumstances, the Assistant Superintendent for Human Resource Services may grant extensions to these deadlines. Failure to provide the necessary compliance documentation in a timely manner may result in the teacher’s displacement. Probationary or Annual Contract teachers who fail to provide the necessary compliance documentation in a timely manner may have their employment contract non-renewed following the provisions of Florida Statute or, could be recommended for termination for failure to comply with the terms of their specific requirements.
14.8-7 Teachers who are currently employed by the School Board and who obtain additional certification(s) will be given first consideration for placement prior to the hiring of new employees.

14.8-8 A Probationary Contract or an Annual Contract teacher who is assigned into an authorized out-of-field assignment will not be placed on the displaced list nor will his/her Probationary Contract or Annual Contract be renewed if he/she fails to provide the necessary documentation to demonstrate compliance with his/her notice-acknowledgement (Agreement to Earn) and/or ESOL Plan of Study.

14.8-9 The ESOL Plan of Study may be frozen and/or adjusted for a teacher in the event of a break in service, or a change in assignment which places the teacher in a category for which the certification/training requirement is less stringent. It is the teacher’s responsibility to notify the ESOL office of a qualifying event in order for the action to be initiated.

14.8-10 The ESOL Plan of Study may be frozen and/or adjusted for a teacher in the event of a break in service, or a change in assignment which places the teacher in a category for which the certification/training requirement is less stringent. It is the teacher’s responsibility to notify the ESOL office of a qualifying event in order for the action to be initiated.

14.9 A copy of all local school and District policies and regulations shall be given to each teacher new to Polk County Public Schools.

14.9-1 The Professional Education Competence (PEC) Program shall be maintained as adopted by the School Board according to Florida Statute 1012.56.

14.9-2 A teacher participating in the Professional Education Competence Program shall be a member of the bargaining unit with the same rights as any other first year teacher, and shall receive full pay, according to the District’s adopted salary schedule.

14.9-3 Evaluation/assessment for the beginning teacher shall be completed and records maintained in the District personnel file. The Professional Education Competence (PEC) Completion form, PEC Accomplished Practices Checklist, and Polk County Schools PEC Documentation Support Team Checklist/Timeline shall be maintained in the employee’s District personnel file. The portfolio and its components are maintained by the school. The mentoring log is maintained with the school’s Professional Development documentation. Upon completion of the program, the beginning teacher shall be given a copy of the PEC Annual Completion Form.

14.9-4 In the Professional Education Competence Program, service as a mentor shall be voluntary, except when documented as a part of the Academic Intervention Facilitator responsibility.

14.9-5 The mentoring teachers’ qualifications and responsibilities are to be clearly enumerated. Mentoring teachers shall be expected to provide on-going support to assigned mentees over the course of the year and assist with specific requests by a mentee. Limited examples of on-going support may include assisting with identifying and following school and District policies, obtaining necessary material and equipment to complete assignments, and assisting with tracking various timelines to successfully meet
required deadlines. Limited examples of specific requests may include identifying resources to assist with curriculum planning or self-diagnosed needs, or being available on contracted days to answer questions. Additionally, said mentoring teachers shall not be responsible for evaluation/assessment of any teacher.

14.9-6 Mentoring teachers must document completion of enumerated duties and professional development qualifications prior to receiving payment. The supplemental amount is listed in Appendix D.

14.9-7 Mentoring teachers may mentor up to six (6) new teachers each school year. Mentor teachers will receive a supplement for each new teacher they are assigned to mentor.

14.9-8 All first year Probationary Contract teachers in the PEC Program will be assigned a mentor. Additional mentoring teachers may be assigned by the administration to teachers deemed to be in need of assistance.

14.9-9 All teachers receiving mentoring services shall be anonymously surveyed annually. Such survey shall be for the purpose of measuring the effectiveness of the mentoring program. No information will be gathered that would identify either the mentee or the mentor.

14.10-1 Teacher Recertification – In order to assist teachers with state recertification requirements, the District offers many professional development opportunities that are free of charge. It is the responsibility of the teacher to register and attend an adequate number of trainings in a timely manner to have sufficient inservice points for recertification.

14.10-2 Employees may access their inservice record of points and register for classes through the online District Professional Development System Scheduler.

14.11-1 All professional development must include: Planning, Delivery, Follow-Up, and Evaluation on the Faculty level (individual), School Level, and District Level according to the Florida Professional Development Evaluation Protocol, Florida Statute 1012.98.

14.11-2 The Individual Professional Growth Plan (IPGP) is directly related to specific student performance data for those areas to which the teacher is assigned.

14.11-3 According to Florida Statute 1012.98 points may only be awarded upon evidence of follow-up activity completion.

ARTICLE XV – TEACHER EVALUATION

PREAMBLE

The parties acknowledge that the teacher evaluation procedures that follow have been agreed upon by the parties hereto with reluctance, and that such agreement is made because of the requirements and mandates of applicable Florida law. Further, the parties agree that should at any time the Florida law applicable to such evaluation procedures be changed by the Florida Legislature or overturned by a court decision to which the Polk County School Board is subject, then in that event the parties agree to promptly renew
collective bargaining negotiations for the purpose of modifying the procedures set forth herein. Until such bargaining is completed the parties agree to continue using the evidence based practices rubric for evaluation purposes; no student learning growth data will be used and no human capital decisions will be made using this system.

DEFINITIONS

State Assessment: Any standardized state determined assessment for a given subject.

District Assessment: A standardized District determined assessment for a given subject applied across the District in a given subject area.

Essential Performance Criteria (EPC): Performance indicators under each Domain.

Value Added State Model: Process developed by the state to measure student-learning growth.

Learning Target: State determined or District determined goal for measurement of student progress.

Teacher Evaluation System: A collaborative system between teachers and administrators that focuses on increasing student learning growth by improving the quality of instructional services. The overall term for the processes applied for the performance evaluation of a teacher. Entitled: ENHANCING STUDENT ACHIEVEMENT THROUGH TEACHER EVALUATION AND LEARNING (Appendix M).

Approved Observation Instrument: Only the approved observation instrument in Appendix E of the Teacher Evaluation System Manual incorporated as Appendix M of this contract may be used to document the observation portion of a teacher’s evaluation which is based on multiple observations (walk throughs, informal observation, and formal observation) undertaken by the teacher’s supervisor.

Overall Annual Performance Evaluation Rating (OAPER): Total score based on student learning growth data, situational context, results from multiple observations, and the teacher self-evaluation. The total score will determine the rating as per the performance chart.

Teacher of Record: A teacher who provides primary instruction and gives the grades for the assigned subjects.

Evaluator: School Principal/Supervisor, Assistant Principal, and/or Superintendent’s administrative designee trained and certified to conduct calibrated observations.

15.1 The Superintendent shall establish procedures for evaluating the performance of duties and responsibilities of all teachers. The evaluation forms and procedures to be used will comply with all requirements as set forth in Florida Statute 1012.34. The evaluation process will comply with the Collective Bargaining Agreement and follow the District’s
ENHANCING STUDENT ACHIEVEMENT THROUGH TEACHER EVALUATION AND LEARNING (Evaluation Manual) which is attached as Appendix M. Only the materials contained in the Evaluation Manual may be used for teacher evaluation. No one may develop additional supplemental materials for the evaluation of teachers without approval through the bargaining process.

15.1-1 As the teacher evaluation system has undergone substantial change, the parties recognize that continued adjustments may need to be made as data becomes available. The parties commit to returning to the bargaining table to address concerns from either party. It is the intent of the parties to monitor this new system to ensure it is a fair, valid, and reliable teacher evaluation system and to make changes, as needed, to achieve this goal.

15.1-2 Student learning growth data will be collected for each teacher as identified in the Data Source Determinant Table in 15.16-1 and processed to determine a teacher’s student learning growth rating as described in Section 15.16-2. For this purpose, we agree to use the Florida Department of Education’s (FDOE) Roster Verification Tool (RVT) to enable the teachers to review their rosters of assigned students for accuracy. FDOE provides two RVT review periods; one following Survey 2 FTE in the Fall, and the other following Survey 3 FTE in the Spring. During these RVT periods, teachers can recommend additions or deletions from the roster. To be implemented, these corrections must be agreed upon with the school administration.

15.1-3 Additionally, the FDOE provides a final review process of the roster. It is anticipated this final review process will occur sometime in August. During this final review, teachers will again be able to request corrections to the roster. Teachers will utilize the Roster Verification Decision Tree, included in the Evaluation Manual, to recommend the removal of students that do not meet the linking criteria. Once the teachers complete the final review and all corrections have been identified, the final roster will be submitted to FDOE. Once the final revised rosters are completed, the Information Systems and Technology department will run the learning growth calculation that will be used to determine the student learning growth portion of the teacher’s evaluation.

15.1-4 If the teacher is not satisfied that the final roster is correct, the issue may be appealed pursuant to Section 15.12 Evaluation Appeal Process through Steps I and II as a procedural violation only. It must be filed within 10 work days of the principal’s decision and the appeal process must be concluded within 30 work days. If the appeal is successful, the teacher’s learning growth calculation shall be revised.

15.2 Teachers will be evaluated annually according to the Evaluation Manual. This evaluation will be completed by a designated and certified evaluator. Evaluation data will not be used for making Human Capital decisions until all evaluations are completed, including any appeals; with the understanding Probationary Contract teachers may be released at the end of the year.

15.2-1 The evaluator shall be trained in the evaluation tool and shall be certified. The evaluator may be either the principal/immediate supervisor or an assistant principal
designated by the principal. If a teacher so requests, he/she shall be evaluated by his/her principal. Should no administrator meet the criteria or in rare and unusual circumstances, the Superintendent shall designate a certified administrative evaluator who meets the criteria to perform the evaluations. Evaluative visits by the Superintendent’s designee shall be made with prior notification of two (2) work days, to the teacher and principal/immediate supervisor, prior to any evaluative activity.

15.2-2 Any concern/deficiency noted by an administrator must be shared with the teacher in a timely manner. All observable EPC (Essential Performance Criteria) ratings will be documented throughout the year on the forms provided from walk throughs, informal observations, and formal observations. If observable or non-observable performance deficiencies are noted, the evaluator must provide the teacher with specific related feedback.

15.2-3 To promote prompt, professional conversation, there is an Instructional Assistance Conference form, Appendix L of this contract, and guidelines for the school administration to use in conducting Instructional Assistance Conferences with teachers. This Conference may be used to bring focus on instructional changes desired without requiring a teacher’s evaluation to be marked down or the development of a formal written plan of improvement. The Instructional Assistance Conference does not replace the formal written plan of improvement and is not disciplinary in nature. It is intended to facilitate professional conversations.

15.2-4 Videotaping shall not be used to record data for the basis of any teacher observation or evaluation. Videotaping, with the expressed written permission of the teacher, may be used for non-evaluative purposes, such as mentoring or for certification purposes.

15.2-5 The setting of TARGET (Teachers’ Action Research Goals and Educational Timeline) goals is not a part of the evaluation process. TARGET goals are aspirational goals, and neither the achievement nor the non-achievement of a goal shall affect a teacher’s rating on any EPC.

15.3 The process of evaluating teachers will be ongoing during the school year. Teachers will be fully informed of the criteria and procedures associated with the evaluation process as outlined in the Evaluation Manual. All procedures and timelines, as outlined in the Evaluation Manual, shall be followed. Teachers will be provided electronic access to the Evaluation Manual within their first 15 work days. All teachers new to the evaluation process shall be trained within the first 10 contract days of employment.

15.4 A written report of each evaluative observation conducted by the evaluator, including walk throughs, informal observations, and formal observations will be made and given to the teacher within five contract days. The formal observation will include a pre-conference and a post-conference for all Category I teachers, and a post-conference for all Category II teachers. A pre-conference will be held at the request of a Category II teacher.
15.5 During the final evaluation meeting (OAPER) the teacher and evaluator must have a full and complete discussion of the ratings and the evidence. Teachers may bring additional evidence to the meeting to support their opinion. In addition to the appeals process, teachers have the right to make a written response to the evaluation and have it put in their personnel files. Evaluations may occur in two stages. Stage One will consist of the completion of the EPCs, self-evaluation and student demographic impact factors prior to the end of the school year. Stage Two will consist of all student learning growth data and will occur during a designated time period. For the 2012-2013 school year, the Stage Two evaluation window will remain open for three weeks to enable ample time for the administration to meet with the teacher and finalize their 2012-2013 evaluation. It is anticipated the Stage Two window will open early in the first semester of 2013-2014. All Stage Two evaluations must be finalized by the last day of the designated three week review period. Special consideration to extend the window may be discussed and agreed upon by the District and PEA if extenuating circumstances occur. Mileage to the former school/worksite shall be reimbursed if teachers are required to travel to receive their final evaluation.

15.6 In the event a teacher is evaluated as not being effective in one or more of the EPCs, the evaluator will provide a recommendation for improvement based on a specific deficiency as defined by the appropriate EPC rating rubric.

15.7 If performance concerns exist the following steps shall be taken:

1. The evaluator shall hold a professional conversation with the teacher to identify specific areas of concern coupled with suggested actions to be taken to assist the teacher with the improvement of professional practice. Monitoring will be ongoing.

2. If the problem persists, the evaluator will conduct a focused observation in the area of concern using the approved observation instrument. Monitoring will be ongoing.

3. If, after the focused observation a teacher is still performing below the effective level in an identified EPC, the evaluator shall meet with the teacher to discuss the concerns and develop a plan for improvement.

15.7-1 Outcome of the Final Evaluation

a. All Category I and Category II Annual Contract teachers who receive a Highly Effective or Effective rating on the most current OAPER will be renewed if the teacher has not had Progressive Discipline beyond a Step 1 Written Confirmation of a Verbal Warning for the current school year.

b. Professional Service Contract Teachers: The provisions in Section 1012.34(4) Florida Statutes – Notification of Unsatisfactory Performance will be followed.

c. Category II teachers will follow Section 1012.34, Florida Statutes, concerning Overall Unsatisfactory Performance.
d. Under the requirements of Section 1012.335, Florida Statutes, an Annual Contract will not be awarded if a teacher receives two consecutive annual performance evaluation ratings of Unsatisfactory, two annual performance evaluation ratings of Unsatisfactory within a 3-year period, or three consecutive annual performance evaluation ratings of Needs Improvement or a combination of Needs Improvement and Unsatisfactory.

15.8 The immediate supervisor of the teacher will forward the evaluation report to appropriate personnel.

15.9 Personnel in positions other than classroom teachers, as listed in Article I will be assessed using the appropriate evaluation/procedure forms.

15.10 Any committee created to develop, review, or change evaluation form(s) called for in Article XV shall be advisory in nature to the District and Association bargaining teams. The committee shall include a representative from elementary, middle school, high school, and alternative education.

15.11 All procedures as outlined in the District’s Teacher Evaluation Manual will apply to staff of the Polk Virtual School with the following exceptions:

15.11-1 There will NOT be a formal observation using the approved observation instrument to gather evaluation data related to appropriate Domain and Essential Performance Criteria (EPC). Rather, in lieu of the observation, the teachers will provide evidence to the supervisor related to the following expectations:

- Communication between teacher and student to equal no less than one correspondence per week. Communication may be initiated by either the teacher or the student.
- Samples of student work per term with evidence of instructor feedback.
- Periodic evaluations between teacher and students as defined and documented through timely student progress checks.
- Phone log of teacher/student interaction as applicable.

Evidence may be provided in the format of checklists, log entries, student portfolio, etc.

While all EPCs in the Teacher Evaluation system are applicable to teachers of the Polk Virtual School, some of the specific sample indicators of performance may vary in nature from those identified in the Teacher Evaluation Manual. The supervisor and teacher will review the sample indicators and determine their applicability to the specific role of the teacher in the “virtual school” environment.

15.12 Evaluation Appeal Process – Employees may appeal using an expedited appeal procedure limited to 3 steps: Step 1, Step 2, and Arbitration. The Arbitration step will be an expedited process with no submission of briefs and the arbitrator will issue a written decision. Expedited Arbitration will include setting a panel of mutually agreed upon and
available arbitrators to hear multiple cases in a day. Serious procedural violations may result in the removal of an annual evaluation and the evaluation rating will default to the student achievement rating.

15.12-1 While the OAPER may be appealed, only overall ratings of Needs Improvement or Unsatisfactory, or when Performance Pay is implemented and the score on the evaluation precludes an employee from receiving Performance Pay, may be submitted for arbitration. If a rating is successfully appealed, the rating shall be corrected and the evaluation recalculated. Overall ratings that are Developing (in the first three years of employment) or Effective are only eligible to be processed through the first two steps of the appeal process. A teacher may appeal through the first two steps of the evaluation appeal any of the individual ratings governed by an EPC rubric Domain. Such appeal shall be based upon a procedural violation of the process, a misinterpretation of a system rubric.

a. **Step 1-A** - Notice of Appeal, no later than the 175th day of student contact, the employee must file in writing with their principal and copy the principal’s supervisor that a concern exists. The parties will meet to discuss the concerns within a timeframe mutually agreed upon between PEA and the District or no later than five (5) work days (day 185) after the last student contact day should no schedule be agreed upon. A decision will be issued in writing within two (2) work days.

b. **Step 1-B** – If the student learning growth data is not available in order to have the full and complete discussion of the OAPER by the 165th day as required in 15.5 above, the teacher shall submit a written notice of a concern to their evaluator and the principal’s supervisor within a timeframe mutually agreed upon between PEA and the District or no later than five (5) work days (day 185) after the last student contact day should no schedule be agreed upon. A decision will be issued in writing within two (2) work days.

c. **Step 2** - If the employee is not satisfied with the outcome of the discussion, the employee may schedule a meeting with the Superintendent or his/her designee. The parties will meet to discuss the concerns within a timeframe mutually agreed upon between PEA and the District or within five (5) work days. A decision will be issued in writing within two (2) work days.

d. **Expedited Arbitration** - If the employee is not satisfied with the outcome of the previous step they may, within a timeframe mutually agreed upon between PEA and the District, or within five (5) work days (day 199) or ten (10) contract days following the completion of the OAPER, whichever is later, request Expedited Arbitration as an option to resolve their evaluation appeal. The District’s and the Association’s intent is to mutually pre-select a panel of arbitrators and contact them to establish a potential calendar of arbitration dates into which employees with appeals may be scheduled. Further, the intent is to keep individual hearings to approximately four (4) hours maximum with the arbitrator requested to submit a decision within two (2) work days. Expedited Arbitration will take place as timely as possible. Dates will be agreed upon by the District and Association.
e. Miscellaneous Provisions:

1. The Board and the appellant shall not be permitted to assert in such arbitration proceeding, any ground or rely on any evidence not previously disclosed to the other party. Both parties agree that the award of the arbitrator shall be final and binding.

2. The Board and the Association shall share equally the fees and expenses of the arbitrator when the appeal is processed by the Association. Neither the bargaining agent nor the Board shall be responsible for the cost of an arbitration by a member of the bargaining unit when the appeal is not processed by the Association.

3. No reprisals of any kind shall be taken against any party participating in the appeal procedure.

4. Notwithstanding the expiration of this agreement, any appeal arising while the agreement was in effect may be processed through the appeal procedure until resolution.

5. Any teacher for whom an appeal is sustained shall be reimbursed in accordance with the award of the arbitrator.

6. Each party shall bear the full cost of its representation at all steps of the appeal procedure.

7. A teacher shall have the right to have an Association member representative present when an appeal is being discussed. In a case where no Association member representative is present to attend the informal procedure, the discussion may be postponed and the Association staff will have the right to appoint an Association member to attend the informal session.

15.12-2 If the number of appeals is larger than the number of available times to hold appeals the District and the Association will meet to discuss extensions of the timelines.

15.12-3 If an appeal is filed, no human capital decisions will be made based upon that evaluation until the appeal process has been completed.

15.13 Teacher Evaluation Advisory Committee (TEAC) Process – The committee will meet at least twice annually and make recommendations to the Superintendent or as determined through collective bargaining processes and will make recommendations for system changes by July 1 of each year. The TEAC will complete any recommendations for change for the 2013-2014 school year by August 15, 2013.

15.14 Certain adjustments in system processes may need to be made due to unknown factors related to the stability and reliability of student learning growth data. The Teacher Evaluation Advisory Committee may make related recommendations pertaining to system processes if that occurs. Any changes in the system processes during any year will be submitted to the FDOE for review and approval, as appropriate.

15.15 In order to ensure the quality of the implementation of the Teacher Evaluation System, a mid-year survey of teachers and evaluators will be written by the Evaluation
Committee and administered to teachers and evaluators. The results of the survey will be compiled and reported to the Evaluation Committee. The Evaluation Committee will review the compiled results of the survey and take appropriate action as needed.

15.16 An Improvement Model for 2012-2013 teacher evaluations will consist of three weighted observation processes: Walkthroughs, Informal and Formal. When calculating a final rating for each EPC, completed Walkthrough Observations will account for 25%, completed Informal Observations will account for 25%, and completed Formal Observations will account for 50%. Further, weighting will be established for all observations which place less emphasis on observations conducted nearer the beginning of the school year and progresses with greater weight given to those conducted nearer the final rating. Weighting for Walkthrough Observations will reflect specific time periods progressing from 3% in the first time period, 5% in the second time period, 7% in the third time period, and 10% in the last time period. Similar progressive weighting will be established where multiple Informal or Formal Observations are completed. The formula will generate the final EPC ratings. The final EPC points calculated may not be decreased (rounded down) and may only be increased (rounded up) by the evaluator if a rationale supported by evidence is documented in Journey.

15.16-1 For the 2012-2013 school year only, student learning growth ratings for all teachers will be calculated from either student learning growth data provided by the Florida Department of Education (FDOE) based on students who take the Florida Comprehensive Assessment Test (FCAT) or proficiency and expectation data based on students who take an FDOE end of course exam (EOC). All student learning growth data will be calculated according to the steps below based on the teachers’ student roster as determined by the final roster verification as described in Section 15.1-2.

ARTICLE XVI - TEACHER DISMISSAL PROCEDURE

16.1 The following procedure will be used to help continuing contract teachers correct deficiencies prior to the implementation of the formal NEAT Procedure.

16.1-1 NOTICE - written notice to the individual that deficiencies exist which, if not corrected, could lead to the implementation of the formal NEAT Procedure.

16.1-2 EXPLANATION - Full and complete explanation of deficiencies and suggested corrections.

16.1-3 ASSISTANCE - Administrative and supervisory assistance offered and provided.

16.1-4 TIME - Reasonable time provided for correction of deficiencies.

16.2 DEFINITION OF INCOMPETENCY - Incompetence is defined as the inability or lack of fitness to discharge the required duties as a result of inefficiency or incapacity.
16.3 The formal **NEAT PROCEDURE** will be initiated only after consultation and suggestions for improvement by the immediate supervisor have failed to help the teacher improve.

16.3-1 **NOTICE AND EXPLANATION:** The principal will inform the teacher in writing that the evaluation and assistance procedure is being initiated. This letter will include the listing of the area or areas of weakness, which, if not improved, may result in dismissal. The immediate supervisor will send copies of this correspondence to the Superintendent, area assistant Superintendent, chairman of the Board, and the Association.

16.3-2 **ASSISTANCE BY ADMINISTRATOR** and explanation:

A. The Superintendent will assign an administrator with knowledge in the subject area to develop a planned program of improvement for the teacher. This should be done as soon as practical after receiving the letter from the immediate supervisor.

B. The assigned administrator, in cooperation with the immediate supervisor and the teacher, will begin to develop a planned program for improvement as soon as practical after being notified of the assignment.

1) The administrator shall observe the teacher in the classroom not fewer than 55 consecutive minutes or one full class period prior to the development of a planned program.

2) The administrator shall discuss the observation and the program for improvement with the teacher at the time it is presented to the teacher. The administrator and the teacher shall sign the report. Copies of this observation report and the plan for improvement shall also be submitted to the principal, the Superintendent, and area assistant Superintendent.

3) The administrator shall make a second classroom observation within 30 workdays after the planned program was presented to the teacher. The report of this observation, including noted improvement in the areas of weakness listed by the principal, will be discussed with the teacher. The administrator and the teacher will sign the report. Copies of this report will be submitted to the teacher, principal, area assistant Superintendent, and Superintendent.

16.3-3 **ASSISTANCE BY EXPERTS:** The Superintendent shall also appoint three experts, who shall be experienced teachers in the same field as the teacher being evaluated, to observe the teacher and make suggestions for improvement. The three experts shall conduct their investigation within 14 workdays after their appointment and without contact with one another.

(A) Each expert will observe the teacher in the performance of his/her teaching duties for not less than two (2) class teaching periods or at least 90 minutes.

(B) Each expert shall submit a written report of his/her individual observations with recommendations for improvement to the teacher with copies of the report to the administrator and the immediate supervisor.

(C) Each expert shall conduct a second observation of the teacher in the performance of his/her teaching duties of at least two (2) periods or 90 minutes, and between 25 and 35 workdays after the first observation. The expert shall make a final
written report of his/her observations, noting improvement or lack of improvement. Copies of this report will go to the teacher, immediate supervisor, and the administrator.

(D) After the experts have made their second observation, the administrator will make a third observation and report as to the teacher's improvement. The administrator will discuss this observation report with the teacher and the principal. This report will be signed by the administrator, teacher, and principal. Copies will be submitted to the teacher, principal, Area Assistant Superintendent and Superintendent.

(E) All observation reports shall become a part of the teacher's personnel file.

(F) Experts, serving as observers, shall be given adequate release time from their regular duties to conduct the observations of the teacher in the performance of his/her teaching duties.

16.3-4 TIME FOR DECISION: As soon as possible after sixty (60) workdays from the day the planned program was discussed with the teacher, but not later than ninety (90) workdays, a decision will be made.

(A) The immediate supervisor shall meet with the teacher and administrator to review and discuss all the observations and evaluations.

(B) The teacher may request anyone of his/her choice to be present at this meeting.

(C) Within fourteen (14) days following this meeting, the immediate supervisor shall make his/her written recommendations as to the competency or incompetence of the teacher. The teacher shall sign this recommendation and retain a copy. Copies of this recommendation shall be sent to the area assistant Superintendent, administrator, Superintendent and the Association.

16.4 PROFESSIONAL SERVICE CONTRACT TEACHERS

16.4-1 A teacher holding a Professional Service Contract who is not performing his or her duties in a satisfactory manner based on the teacher's assessment instrument shall be notified by their evaluator in writing of such determination. The notice must describe such unsatisfactory performance and include the notice of the procedural requirements as listed in § 1012.34 of Florida Statutes.

16.4-2 Upon delivery of a notice of unsatisfactory performance, the evaluator must confer with the employee, make recommendations with respect to specific areas of unsatisfactory performance in writing, and provide assistance in helping to correct deficiencies within a prescribed period of time.

16.4-3 The employee shall be placed on performance probation and governed by the provision of Florida Statute § 1012.34 for 90 calendar days from the receipt of the notice of unsatisfactory performance to demonstrate corrective action. School holidays and school vacation periods are not counted when calculating the 90 calendar day period. During the 90 calendar days, the employee must be observed a minimum of three times and apprised of progress achieved in writing and must be provided assistance and in-service training opportunities to help correct the noted performance deficiencies.

16.4-4 Within 14 days after the close of the 90 calendar days, the evaluator must assess whether the performance deficiencies have been corrected and forward a recommendation to the Superintendent. Within 14 days after receiving the evaluator's
recommendation, the Superintendent must notify the employee in writing whether the performance deficiencies have been satisfactorily corrected and whether the Superintendent will recommend that the school board continue or terminate his or her employment contract. If the employee wishes to contest the Superintendent's recommendation, the employee must, within 15 days after receipt of the Superintendent's recommendation, submit a written request for a hearing as provided in § 1012.34 of Florida Statutes.

**16.5 MISCELLANEOUS PROVISIONS**

16.5-1 When illness or other incapacity of the teacher or observer prevents the completion of the observation on schedule, the time limits shall be extended to such time as the teacher or observer can be present for the observation.

16.5-2 This procedure does not prohibit immediate suspension and subsequent dismissal for just cause as outlined in Florida Statutes § 1012.79 or the use of the Florida Education Practices Commission procedures.

16.5-3 The immediate supervisor may drop this evaluative procedure at the conclusion of any step in the procedure if he/she determines that it is no longer necessary. The teacher will be notified in writing of this decision and any further recommendations.

16.5-4 This procedure shall not be utilized in cases of physical or emotional incapacity to discharge the required duties of a teacher.

**ARTICLE XVII – TRANSFERS AND CHANGES IN ASSIGNMENT**

17.1 A transfer is a change in teaching position from one work location to another, excluding countywide assignments. A transfer is also any change which would cause a teacher to teach any part of the day at a different school from his/her initial school assignment, excluding countywide assignments. A change of assignment is from one subject area or department to another, or from one grade to another, within the same work location.

17.2 Principals shall keep their faculties informed as to vacant positions in their schools by posting such vacancies at the teacher sign-in location. Teachers who would like to change from grade and/or subject assignment within a school shall file a written statement of such desire with the principal. The principal shall consider all such requests and make a decision as to the change based on the teacher's qualification, certification, and educational program of the school. The principal will give written notification of his/her decision to each teacher who has filed a written request. The change in assignment will be subject to approval by the District Certification/NCLB Compliance Department.

17.3 All changes in assignment should be voluntary; however, the principal may make changes in teacher assignments at his/her own discretion when he/she deems it to be in the best interest of students, faculty, and educational program of the school. Such assignment changes may only be to areas for which the teacher is fully qualified and may not cause a teacher to work out-of-field. Principals shall strive to minimize the number of core academic subject area assignments. When such changes are made the reason(s) for the assignment shall be given in writing, if requested. Providing a reason will in no way limit the principal's discretion in making such assignments. Such reassignments shall not be used as a punitive measure. Any teacher being involuntarily reassigned shall not be deprived of his/her contractual salary for the remainder of the contract year.
17.3-1 Should there be a reduction/loss in funding for a grant program, the teacher in such a grant funded position will be able to remain at the school/worksite at which he/she is assigned in a position for which he/she is fully qualified. If there are no vacant positions available, the school shall follow the procedure for “Loss of Units” in 17.6-1. This process shall retain the grant funded teacher as a part of the staff for any position for which the teacher is fully qualified.

17.4-1 Request for Transfer: Unless the teacher and both principals agree, no transfers shall be allowed during a period spanning from 14 calendar days before the first teacher contract day until after the 20th teacher contract day. A transfer will not be considered unless the teacher is fully qualified for such vacancy. All transfers shall be initiated by the receiving principal, with copies to the releasing principal or immediate supervisor and the Human Resource Services Division. The principal, when making his/her decision, shall consider each teacher requesting transfer as to his/her experience, general background and preparation, competence and commuting distance (Energy Transfer). The transfer of the teacher will be subject to Board approval.

17.4-2 Transfer During School Year: Teachers may request to be transferred when there are vacancies for which the teacher is fully qualified. Should a teacher be offered and accept a position during the school year, then the releasing principal must release the teacher from their school within twenty teacher contract days after being contacted by the receiving principal.

17.4-3 Request for Transfer Between School Years: A teacher's request for transfer from one school to another shall be made on a form readily available on the District’s website and located in the teacher collective bargaining agreement Appendix B. The transfer request (i.e. voluntary, energy) will be submitted to Human Resource Services. The Human Resource Services Division will prepare a master list of all teachers seeking transfers and distribute this list with the teachers’ preferences to all principals and the Association for their review and consideration. Placement on the list does not guarantee a transfer. It is the responsibility of the teacher to notify the principals where vacancies exist in order to be considered for the vacancy. The transfer will be subject to approval by the District Certification/NCLB Compliance Department.

17.5 A current list of vacant positions, including Polk Virtual School, will be maintained for all teachers to view on the District’s website (www.polk-fl.net). All vacancies will be advertised for a minimum of five workdays, except for the ten (10) calendar days prior to the first work day in order to meet the mandate for fully staffed schools. The website will indicate the subject area or grade level of the vacancy, the date the vacancy will occur, and the worksite at which the vacancy exists. A vacancy shall be deemed to exist when a full-time employee is sought to fill a full-time position, after worksite reassignments have been completed, if applicable.

17.5-1 Candidates interviewed for positions will be notified in writing when the position has been filled.

17.6-1 Involuntary Transfer: The Board and the Association recognize that it may be necessary to transfer a teacher or teachers involuntarily. Such transfers will only be made for one or more of the following reasons:
1) Loss of units
2) Providing for a racially balanced school staff
3) Dividing a school faculty to form a new school
4) Phasing out a program or grade level
5) Changing a program
6) Closing a school  
7) Providing for a comparability of schools for Federal program  
8) Placing a teacher who has been teaching out of field of certification into his/her field of certification  
9) Comply with a court order  
10) Redistricting of schools  
11) Comply with state and federal legislation  

17.6-2 In unusual and special circumstances the Superintendent may recommend to the Board that a teacher be transferred from one position to another specific position for good and sufficient reasons. Any teacher being transferred under this section may not be placed into an out-of-field assignment or a position for which the teacher is not fully qualified and the teacher may receive written reasons for the transfer, if so requested. Such transfers shall not become effective until approved by the Board. 

17.6-3 Teachers placed on the involuntary transfer list are considered displaced and, it is their responsibility to provide the Human Resource Services Division with a current/temporary address and phone number. Continuing Contract and Professional Service Contract teachers will be guaranteed placement. Annual or Probationary Contract teachers will be guaranteed placement only during the term of their contract. If there are not enough positions for placement, the provisions of Article XIX Layoff shall be followed. 

17.6-4 When transfers become necessary, no new teacher will be placed to fill positions for which displaced teachers are fully qualified until the teachers have been offered these teaching positions. 

17.6-5 Involuntary transfers that are necessary because of complying with a court order or moving teachers into a position for which they are fully qualified will be done by the Board after a recommendation by the Superintendent. Any transfer (involuntary or voluntary) for the purpose of compliance with a legal mandate, or for the purpose of the racial balancing of a faculty to comply with court orders will take precedence over seniority when determining teachers to be transferred. 

17.6-6 When transfers become necessary as a result of reasons 1 thru 11 in 17.6-1, the Superintendent or the designee shall notify the Association of the staffing allocation changes planned for each affected school. Human Resource Services shall provide the principal of each affected school a list of the school’s teachers. The list will include each teacher’s seniority date and list all certifications on file for which the teacher is fully qualified. Each teacher shall be provided his/her personal information. Before involuntary transfers are made, the principal will announce the position changes planned for the school to the entire staff. Volunteers for involuntary transfer shall be requested. Within the timeline provided by Human Resource Services, the principal shall meet with departments and/or individuals to discuss the impact of the required changes. A list of potential openings shall be maintained and available electronically for the teachers to review on the District’s website [www.polk-fl.net](http://www.polk-fl.net). Teachers will be provided at least 24 hours to volunteer in order to allow review. If there are more volunteers than needed to reduce the units in that school, the volunteering teacher(s) with the most seniority in the District (as defined in 17.8) shall be submitted for placement on the Districtwide displaced list. 

17.6-7 If there are not enough volunteers for displacement, then involuntary transfers shall be made based upon seniority as defined in 17.8. All teachers remaining at the school must be approved for their assignments by the Human Resource Services Certification/NCLB Department and shall be fully qualified, or if not fully qualified, may
be considered for an authorized out-of-field assignment. A list of teachers being involuntarily transferred shall be submitted to the District and be placed on the Districtwide displaced list according to their seniority and contract status.

17.6-8 When a group of teachers is involuntarily transferred as a result of reasons 1 thru 11 in 17.6-1, the Human Resource Services Division will make available to each transferring teacher and the Association a current list of vacancies. Teachers may apply and will be considered for any position for which they are fully qualified. If these teachers are not chosen for the position for which they applied, then the Superintendent will place them in a position for which they are fully qualified.

17.7 Any Continuing Contract/Professional Service Contract teacher placed on the displaced list shall be assigned to a position for which he/she is fully qualified by the Assistant Superintendent for Human Resource Services. Refusal by the teacher to accept such assignment shall release the Board from any further obligation to that teacher.

17.7-1 The Superintendent shall submit the contract renewal recommendations for employment to the Board for action at least two weeks prior to the end of the school year. Any Annual or Probationary Contract teacher not rehired may appeal this decision through the two levels of (1) Principal’s supervisor, (2) Superintendent or designee. Any Annual or Probationary Contract teacher whose position is eliminated, who would have been recommended for reappointment by his/her immediate supervisor, if an opening existed, shall be placed on a “Permitted Re-hire” list.

17.7-2 Existing information regarding non-reappointment and displacement shall be provided electronically to the Association including the CC/PSC Displacement List, the Permitted Re-hire List, and the current vacancy list.

17.7-3 Principals/immediate supervisors shall notify the Business Services Division of vacancies immediately after they occur.

17.7-4 In the event a vacancy occurs within a school from which an Annual Contract teacher has been displaced and after CC and PSC teachers in the District have been assigned and if the Annual Contract teacher is fully qualified, he/she shall be appointed to fill that vacancy unless the teacher has been placed in another position.

17.7-5 Prior to the beginning of the school year teachers in out-of-field assignments will be given first consideration for in-field vacancies as they occur. It is the responsibility of the teacher to make application for any such vacancies as listed on the District’s website (www.polk-fl.net).

17.7-6 The Permitted Re-hire list shall be distributed to all principals and persons thereon will be given first consideration for appointment to open positions for which they are fully qualified before new hires. The Human Resource Services Division will have ongoing contact with principals with open positions to encourage that the employees on this list be interviewed with the goal of re-hiring these employees as quickly as possible. The Human Resource Services Division will regularly provide the Association with updates regarding the progress of assisting the employees on this list. A final employee status update will be provided the Association regarding those employees who were rehired, those who were offered no position, those who were offered a position and chose not to return, and those who dropped out of the process for any reason.

43
17.8 Seniority is defined as continuous service, which begins with the effective date of employment as a teacher in the District. If the employment dates as documented on the School Board’s agenda are the same for more than one teacher, and it becomes necessary to determine the order of seniority among said teachers, then the date/time that each was nominated as a teacher candidate as documented on the automated recruitment and hiring system candidate report will be used to determine seniority. Approved leaves of absence will not be considered as a break in seniority.

ARTICLE XVIII – PROMOTIONS AND VACANCIES

18.1 It is recognized that the law charges the Superintendent with the full responsibility for recommending personnel for promotion, transfer and reassignment.

18.2 The Board and the Superintendent shall continue to implement and review their plan of affirmative action for recruitment, selection, promotion, and retention of minority and women employees of the school system. The Association will be advised of any proposed changes in the affirmative action program and through the personnel office may make suggestions for improving the plan.

18.3 It is agreed that the Superintendent should find and the Board will employ the best-qualified persons for all positions by giving full consideration to all qualified persons.

18.4 Promotion is defined as a change in job designation from a teacher to a coordinative, administrative or supervisory position.

18.5 The Board and the Association agree on the following procedures for promotions:

18.5-1 All teachers who wish to be considered for an advertised promotional vacancy shall notify the Superintendent or his/her designee in writing indicating the position in which they are interested and their educational qualifications.

18.5-2 Teachers who wish to be considered for a school-based administrative position must apply for the related applicant pool. Applicant pools will be open twice per year. Interested persons must submit a written application, resume and letters of reference and must participate in screening activities to determine placement in the applicant pool in accordance with the procedures for screening and selection outlined in the District Human Resource Management Development Plan.

18.5-3 The Superintendent's Affirmative Action selection committee will review and consider all applications in the qualified pool of applicants and then select the applicants to be interviewed by the committee. The Superintendent or his/her designee shall notify the candidates as to time and place of the interview with the committee. Those candidates not selected by the committee for an interview shall also be notified. Upon completion of the interviews, the committee will make their recommendations to the Superintendent after consideration of all applicants.

18.5-4 The Superintendent shall make recommendation(s) to the Board for promotional appointment(s) after the advice and recommendation(s) of the Superintendent's Affirmative Action selection committee and the principal or supervisor of that position. Those not recommended for the position by the Superintendent shall be so notified prior to the recommendation being made public except in case of emergency.
If the Board rejects the Superintendent's nomination(s), the Superintendent shall make additional recommendations based on the above procedures.

18.5-5 Preference will be given to qualified teachers in the Polk County school system, but this does not preclude qualified persons from outside the system from being considered and recommended.

18.6 Except for emergency temporary appointments, the following procedure shall be used when advertising vacancies in coordinator, administrative or supervisory positions.

18.6-1 No advertisement of vacancies need be made when said positions are filled by lateral transfers or demotional transfers or if an administrative/ supervisory position is upgraded and the person presently serving in the position is qualified and would be recommended to fill the position. The upgraded position will be advertised if the person in the position is not qualified and/or would not be recommended for the position. The last position open after lateral transfers have been made shall be defined as a promotional vacancy.

18.6-2 When a promotional vacancy or newly created position occurs, the Superintendent or his/her designee will publicize the vacancy and the qualifications on the District’s website at least five (5) business days* before making a recommendation to the School Board. A promotional transfer is defined as a transfer involving a change in job designation and an increase in salary.

*Business day - When the school district is open for business. Excludes holidays, weekends, and shut down periods.

18.6-3 The Superintendent shall supply the Association with a current list of all administrative vacancies upon request.

ARTICLE XIX – LAYOFF

19.1 Currently Florida Statute 1012.33 requires that within a program area facing reduction, the employee who has the lowest performance evaluation is to be the first to be released. The following process shall be piloted during the 2013-2014 school year to determine the employee with the lowest performance rating if a layoff is declared. Should the prohibition against our previous seniority based system be removed, the Board and the Association agree to return immediately to this previous system. The Board and the Association agree to review this new system in bargaining during the 2013-2014 school year.

19.1-1 A reduction in force (RIF) may be declared by the Board when it needs to reduce the number of teachers districtwide because it does not have enough positions for teachers based upon their areas of certification. Prior to declaring a RIF the District will review all open positions to determine if assigning teachers into vacant positions may negate the need for a RIF.

19.1-2 Prior to declaring a RIF the Superintendent or designee shall have a meeting with the Association to review the reason for the layoff and review any possible options which could alleviate the necessity for a RIF.
The Association shall be provided a final list of employees identified for layoff including their SAP#, current assignment, certifications on record, and the total points received on their current Overall Annual Performance Evaluation Rating (OAPER) noting any additional tie breaker used to determine the potential layoff order. The Association will be provided an opportunity to review the list and request clarification prior to any employee being notified.

Selection of employees for RIF shall be based on their areas of certification being in an area identified for RIF.

Should the District prepare to declare a RIF, the District shall first choose among those employees with Probationary Contracts or with no OAPER or an incomplete OAPER following the criteria below.

The Superintendent or designee will provide the Association a list of all teachers on Probationary Contracts or who have no OAPER or an incomplete OAPER because EPC(s) ratings or the Student Performance rating has not been completed. The list will include each teacher’s current assignment and a list of each teacher’s areas of certification currently on file with the District.

Teachers with Probationary Contracts or with no OAPER or an incomplete OAPER and with a corrective action plan will be released first. When no employee on a corrective action plan remains in an appropriate area of certification, then selection will be made among those teachers in this group who have no OAPER.

Should the District’s RIF necessitate identifying additional employees for layoff, the selection will fall to those teachers in this group with an incomplete OAPER. These employees will be chosen for RIF based upon the fewest number of points earned. In case of a tie, the selection will be made by drawing lots.

Should the District’s RIF necessitate identifying additional employees for layoff, the selection will fall to those Probationary Contract teachers in this group, if any. These employees will be chosen for RIF based upon the fewest number of points earned for their annual evaluation. In case of a tie, the selection will be made by drawing lots.

Should the District’s RIF necessitate identifying additional employees for layoff, the District shall choose among those Annual Contract employees with a completed OAPER according to the following criteria. The District will identify all Annual Contract teachers Districtwide assigned to teach the course codes needing further reduction and identify their areas of certification currently on file. As required by Florida Statute 1012.33, the completed evaluations will be reviewed and the total points earned on the last evaluation for each employee will be identified. The District will identify the required number of employees for RIF based upon those Annual Contract employees who have earned the fewest points on their current OAPER. Should two or more Annual Contract employees tie, the points earned on the previous year’s OAPER shall be used in like manner to determine the potential layoff order. Should previous OAPERs be insufficient to break a tie, the selection will be made by drawing lots. The Association
shall receive an initial list of potential Annual Contract employees to be laid off including their SAP#, current assignment, certifications on record, and the total points received on their current OAPER noting any additional tie breaker used to determine the potential layoff order. If there is a Probationary Contract teacher in a position for which the employee would be fully qualified, the Annual Contract teacher will be assigned into the position and the Probationary Contract employee will be reviewed under 19.2 for potential layoff.

19.3-1 Each employee identified in 19.3 for potential layoff will have their OAPER score compared with all other OAPER scores for Annual Contract teachers assigned to positions for which the employee is highly qualified. The Annual Contract employee with the lowest OAPER score will be identified for potential layoff. The process will be repeated until the employees with the lowest OAPER scores have been identified. Should a tie score be identified throughout this process, the procedure in 19.3 to determine layoff order shall be followed.

19.4 Should the District’s RIF necessitate identifying additional employees for layoff, the District shall choose among those remaining employees according to the following criteria. The District will identify all teachers Districtwide assigned to teach the course codes needing further reduction and identify their areas of certification currently on file. The District shall first select from among the Professional Service Contract (PSC) teachers, and, if not enough PSC teachers are available, Continuing Contract (CC) teachers. As required by Florida Statute 1012.33, the completed evaluations will be reviewed and the total points earned on the last evaluation for each employee will be identified. The District will identify the required number of employees for RIF from among the PSC teachers based upon those employees who have earned the fewest points on their current OAPER. Should two or more employees tie, the points earned on the previous year’s OAPER shall be used in like manner to determine the potential layoff order. Should previous OAPERs be insufficient to break a tie, the selection will be made by drawing lots. The Association shall receive an initial list of potential employees to be laid off including their SAP#, current assignment, certifications on record, and the total points received on their current OAPER noting any additional tie breaker used to determine the potential layoff order. The same process will be used if it is necessary to identify any CC teacher for a RIF. If there is an Annual Contract or Probationary Contract teacher in a position for which the employee would be fully qualified, the PSC or CC teacher will be assigned into the position and the Annual Contract or Probationary Contract employee will be reviewed under 19.3 for potential layoff.

19.4-1 Each employee identified in 19.4 for potential layoff will have their OAPER score compared with all other OAPER scores for teachers assigned to positions for which the employee is highly qualified. The employee with the lowest OAPER score will be identified for potential layoff. The process will be repeated until the employees with the lowest OAPER scores have been identified. Should a tie score be identified throughout this process, the procedure in 19.3 to determine Layoff order shall be followed.

19.5 A teacher whose job is being eliminated as part of a reduction in force shall be notified in writing concurrent with declaration by the District of impending layoff.
19.6 No new teachers shall be hired to fill positions for which teachers on layoff are certified and qualified until laid off teachers have been offered teaching positions for which they are certified and/or qualified.

19.7 Any teacher who has been laid off shall be recalled in inverse order (most senior), within the term of his/her contract, to the first vacancy in the District for which said teacher is qualified and/or certified to teach. Any Annual Contract teacher on layoff will be maintained on the recall list until a period of one year has elapsed.

19.8 Within fifteen (15) days of the receipt of a certified letter of recall, a teacher shall notify the Human Resource Services Division in writing as to whether he/she will accept reemployment. Failure to respond to the letter of recall within the time required terminates the teacher's right of recall.

19.9 Any teacher who would have qualified for regular retirement during the reduction year shall be permitted to teach that year so as to acquire needed service for regular retirement. After that year of teaching, he/she shall be subject to all procedures of personnel reduction.

19.10 Upon reemployment of the teacher, all rights related to salary, fringe benefits and seniority shall be restored.

19.11 Laid-off teachers may pay, on a monthly basis, the premiums for group life and hospitalization for a period up to one year. This benefit may be extended as defined by COBRA (Consolidated Omnibus Budget Reconciliation Act) legislation.

ARTICLE XX – PAID LEAVES

20.1 Sick Leave. Teachers who are employed on a full time basis and who are unable to perform their duties because of their own illness, or because of the illness or death of father, mother, brother, sister, husband, wife, child or other close relative or member of their own household, shall be entitled to sick leave. Sick leave shall be credited as follows:

Each member of the instructional staff employed on a full-time basis shall be entitled to four (4) days of sick leave as of the first day of employment of each contract year and shall thereafter earn one (1) day of sick leave for each month of employment, which shall be credited to the member at the end of that month and which shall not be used prior to the time it is earned and credited to the member. However, the member shall be entitled to earn no more than one (1) day of sick leave times the number of months of employment during the year of employment. The maximum number of sick leave days that can be earned is twelve (12). Such leave shall be taken only when necessary because of sickness as herein prescribed. Such sick leave shall be cumulative from year to year. There shall be no limit on the number of days of sick leave a member of the instructional staff may accrue, except that at least one-half of this cumulative leave must be established within the District granting such leave.
20.1-1 In the instance of an employee who has been the subject of disciplinary action for absenteeism, the Superintendent may require a certificate of illness from a licensed physician or mid-level practitioner for any illness-related teacher absence.

20.1-2 Sick leave for teachers working beyond regular 196-day contract, including summer school teachers, will be calculated to the nearest 1/2 day using a 19.6 divisor.

20.1-3 Each teacher will be given written notice of his/her accrued sick leave with each paycheck.

20.1-4 A teacher shall have the right to use sick leave in one-half (1/2) day units.

20.1-5 The Polk School Employee's Sick Leave Bank shall be maintained in accordance with the provisions established by the Sick Leave Bank Committee. The Association shall appoint members to the Sick Leave Bank Committee in proportion to the percentage of its members in the Bank.

20.2 Personal Leave Chargeable to Sick Leave. Teachers shall be permitted to be absent six (6) days each school year for personal reasons and these days shall be charged against accrued sick leave when used. This leave shall be non-cumulative. A teacher planning to use a personal leave day or days shall notify his/her principal or immediate supervisor at least one day (24 hours) in advance. The teacher shall not be required to give reasons for such leave except on such days as specified in this article. Sick leave used for personal reasons may not be used during the first five (5) days or the last five (5) days in which the students are in attendance, or immediately before or after the scheduled holidays of Labor Day, Thanksgiving, Winter Break, Spring Break, Memorial Day, preceding or following recognized holidays provided students are in attendance, or on a Staff Development Day as designated in the District Calendar, except in case of emergency. The teacher shall be required to give reasons when claiming an emergency. Teachers shall not be required to use personal leave chargeable to sick leave to attend a conference when their attendance is required by the administration.

22.27 Both the Polk Education Association and the School Board desire to bargain step increases and additional raises for the 2010 – 2011 school year should funding be available. The District will establish the cost of step increases when projecting the budget so that the information may be considered during the adoption process. The parties agree to hold a preliminary discussion in September 2010 to assess the available funds committed by the Florida Legislature and the Federal Government to the District, the most current revenue estimates for tax levies, and the impact of any unfunded or underfunded mandates from other government agencies. The parties agree to meet and review the available funding data in detail following the release of the 3rd Calculation from Florida’s Department of Education. Schools designated as having two (2) or more consecutive grades of “D,” or a designation of “F” Priority, will not be required to receive displaced teachers.

It is important to note that though the first year is designated as a planning year that does not mean that interventions will not be implemented prior to the completion of the first year. Such interventions will be in keeping with the terms of the Collective Bargaining Agreement.

During this planning year, the District and school will complete a rigorous evaluation of the existing leadership team, coaches, staff, curriculum, support/interventions and resource allocation. The Superintendent or Deputy Superintendent will meet at least monthly with the PEA President and share the results of the evaluation and the developing plan for turning around the students’ performance and the school grade. Before any documentation or template is submitted to the Florida Department of Education (FDOE) regarding the District’s Turnaround Plan, it will be shared with the PEA President who will be provided an opportunity for input with regard to contractual and legal concerns.

As part of a regularly held faculty meeting, the principal will, on a monthly basis, update the staff regarding the planning process and opportunities will be given for staff to share feedback. It is also agreed that it is in the best interest of both the students, staff, District and Association that the staff also be kept fully informed of the documentation or templates being submitted to FDOE.

The District shall ensure that the Teacher Evaluation System outlined in Article XV and Appendix M is implemented with fidelity each year following the school receiving two

27.6-2 Subsequent Years For subsequent years (after the initial first year), until such time as the school meets the District’s exit criteria for schools having two (2) or more consecutive grades of “D,” or an “F” Priority School:

Teachers with an overall Effective or Highly Effective evaluation for the previous year may apply, transfer, or be assigned to schools having two (2) or more consecutive grades of “D,” or an “F” Priority School.

Those teachers with less than an overall Effective evaluation for the previous year who have been given notice of performance concerns and ample opportunity to improve, as per Teacher CBA Article 15 and Appendix M (Teacher Evaluation System Manual) may volunteer to be displaced, be involuntarily transferred or terminated according to the appropriate provisions of the Collective Bargaining Agreement.

27.6-3 Early Return Any school with two (2) or more consecutive “D” grades, or a grade of “F” Priority, will be identified as an Early Return School that will return up to four (4) days prior to the first contracted workday of school year 2014-2015. Should there be insufficient funds available to finance all Early Return Schools, “F” schools shall have first priority.

The traditional pre-planning week continues as contractually outlined. All teachers throughout the District shall receive a reminder notification of this contract provision with their May paychecks explaining conditions that require returning early, the number of days and dates, and the methods by which affected teachers at Early Return Schools will be notified.

27.7-3 Annual review and submission of potential waivers:

10. Should either party request a transcript of the proceedings at Step IV, then the party shall bear the full costs of the transcript. If each party requests a transcript, the cost of the two transcripts will be divided equally between the parties.

11. Each party shall bear the full cost of its representation at all steps of the grievance procedure.

12. A teacher shall have the right to have an Association member representative present when a grievance is being discussed. In a case where no Association member representative is present to attend the informal procedure, the discussion may be postponed and the Association staff will have the right to appoint an Association member to attend the informal session.

13. The grievant may, after the informal procedure, present the grievance in writing to the Association who will provide an opportunity for a meeting with the grievant to decide the merits of the case within five (5) days after receipt of the grievance by the Association.

**ARTICLE XXIX – MAINTENANCE OF STANDARDS**

29.1 Should any provision of this agreement be declared illegal by a court of competent jurisdiction, or as a result of state or federal legislation, or as a result of changes in Florida State Board of Education Administrative Rules, said provision shall be automatically modified by mutual agreement of the parties to the extent that it violates the law. The remaining provisions shall remain in full force and effect for the duration of this agreement, if not affected by the deleted provision.

29.2 No teacher employed within the bargaining unit shall, as a result of omission through oversight in the negotiation of this agreement, suffer a reduction in pay, loss of economic fringe benefits, or loss of experience credit previously granted.

29.3 This agreement shall supersede any rules, regulations, or practices of the Board, which shall be contrary to or inconsistent with the terms of this agreement.
ARTICLE XXX – NO STRIKE

The Association shall not authorize, sanction, condone, engage in or acquiesce in any strike as defined in Florida Statutes 447.203 (6), 447.501 (2) (e), and 447.505. "Strike" means the concerted failure to report for duty, the concerted absence of employees from their positions, the concerted stoppage of work, the concerted submission of resignations, the concerted abstinence in whole or in part by any group of employees from the full and faithful performance of the duties of employment with a public employer for the purpose of inducing, influencing, condoning or coercing a change in the terms and conditions of employment or participating in a deliberate and concerted course of conduct which adversely affects the services of the public employer, the concerted failure to report for work after the expiration of collective bargaining agreement, and picketing in furtherance of a work stoppage.

ARTICLE XXXI – BOARD'S RIGHTS

The Board has the right to determine the purpose of its constituent agencies, set standards of service to be offered to the public, and exercise control and discretion over its organization and operations.

The Board may direct its employees, take disciplinary action for just cause, and relieve its employees from duty because of lack of work, or other legitimate reasons, provided, however, that the exercise of such rights shall not preclude employees or their Association from raising grievances, should decisions on the above matters have the practical consequences of violating the terms and conditions of any collective bargaining agreement in force.

ARTICLE XXXII – CHARTER SCHOOLS

A. Notification to Polk Education Association

1. When the Polk County School Board receives an application for a charter school, the PEA will: Receive a copy of the application within ten (10) working days, or a mutually agreed upon extended time frame, and notify the Polk County School Board’s bargaining agent of any possible impact of the proposed charter school on wages, hours, and the terms and conditions of employment of the bargaining unit members it represents.

B. Voting Procedures for Conversion of an Existing School

1. Pursuant to Florida Statute 1002.33(3)(b), an application to convert an existing public school to a charter school must demonstrate the support of at least 50 percent of the teachers employed at the school. To the extent allowed by law, balloting to demonstrate such support shall be done by secret ballot, provide for adequate notification (no less than 24 hours) to all eligible teachers, provide a process which is clearly explained prior to the actual vote, and provide for votes to be counted by an impartial committee whose make-up shall be disclosed to the School Board as part of the application review process.

2. Pursuant to Florida Statute 1002.33(3)(b), an application to convert an existing public school to a charter school must also demonstrate the support of at least 50 percent of the parents voting whose children are enrolled at the school, provided that a majority of the parents eligible to vote participate in the ballot process. To
the extent allowed by law, balloting to demonstrate such support shall be done by secret ballot, provide for adequate notification of all eligible parents, provide a process which is clearly explained prior to the actual vote, and provide for votes to be counted by an impartial committee whose make-up shall be disclosed to the School Board as part of the application review process.
TEACHER ARTICLE XXXIII - CONTRACT TERM

The terms and conditions of this contract shall become effective as of July 1, 2013. Any and all grievances, which may be filed during the term of this contract, will be settled on the basis of the procedure and remedies as set forth in this Collective Bargaining Agreement.

In the event that the legislature imposes action affecting a section(s) of this agreement between the Board and the Association, the Board and the Association shall meet in negotiations to resolve any conflicts created by such imposed acts.

This Collective Bargaining Agreement shall remain in full force and effect through June 30, 2016 unless agreement is reached before that date. The parties agree that negotiations will continue on an ongoing basis in a collaborative, interest based approach to resolve problems, with salaries negotiated as agreed upon.

This Agreement shall not be extended orally.

APPENDIX G – GROUND RULES

1. Bargaining proposals, amendments or counter proposals pertaining to the Agreement which the Association or the Board desire to be negotiated shall be submitted in writing by each party.

2. The Superintendent or his representative, and the bargaining agent, or its representative, shall meet at reasonable times for the purpose of negotiating and seeking agreement. All sessions shall commence at the agreed upon time.

3. The most recent Collective Bargaining Agreement, as amended, will be used by both parties as a point of reference for deletions, amendments and all other changes.

4. Throughout negotiations, all tentative agreements shall be signed by a representative designated by each party. By mutual agreement a tentative agreement may be reopened for negotiation.

5. Only members of the respective teams are allowed to speak during the sessions. An exception shall occur only when the Board and/or the Association informs the other party prior to the meeting in which their consultant shall speak. The expense of such consultants shall be borne by the party requesting them.

6. Questions from observers shall be allowed only at the end of each session. Neither party will tolerate any harassment from observers during sessions.

7. Bargaining meetings shall be scheduled as frequently as necessary to expedite arriving at total agreement on items under consideration. The representatives of both parties shall conduct negotiations professionally and in good faith. Both parties agree to submit to mediation prior to declaring impasse.

10. When the negotiating teams reach tentative agreement on all items under negotiations, the proposed and tentative agreement shall be written and submitted to the Board and the Association for ratification with a favorable recommendation from the negotiating teams. Upon receipt of notice of ratification by the Association, the Board shall take action on ratification at their next meeting. If both parties ratify the agreement, then the parties shall sign two (2) copies of the final decision (one copy for the Board and one copy for the Association). If either party shall refuse to ratify the agreement reached by the negotiating teams, the party shall make a written statement to the other party as to their reasons. Said notification shall result in prompt resumption of negotiations, which lead to settlement or impasse procedures.

12. All three teams will meet together to discuss salary and insurance issues.

APPENDIX J

COMMITTEE TO ADDRESS SECONDARY ISSUES AND CONCERNS

The reduction in the State’s per pupil funding has caused the District to require secondary teachers to be assigned to regularly teach six out of seven periods in high schools and seven out of eight periods in middle schools. This change in schedules created an additional work load for secondary teachers. The change in the schedule along with implementation of other additional requirements in the secondary schools has caused some concerns and issues to be raised both by teachers and District administrators. The School Board and the Association desire to improve the work life of teachers. We have an express commitment to address these issues and agree to identify and implement practical and workable solutions through the following process:

- Establish an ad hoc subcommittee consisting of sixteen people representative across both the high school and middle school spectrum. Eight members will be appointed by the PEA President and eight will be appointed by the Superintendent. This step will be completed by March 1st. The subcommittee shall be tasked with using data to bring focus for identifying and quantifying the concerns and issues of secondary teachers created by teaching the additional period and the implementation of other additional requirements. Committee members should seek practical and workable solutions which provide a better work life for teachers and better serve students.

- The District and the Association agree to jointly hold at least two “town hall” style meetings to solicit input from secondary teachers by March 1, 2010. This initial information will be shared with the subcommittee members and the subcommittee will then develop a plan to collect additional data through surveys, direct solicitations from constituents, and/or requesting additional “town hall” style meetings be held.

- The subcommittee will hold at least two meetings by April 15, 2010 to determine its scope of work and create a timeline for completion to be shared with the bargaining teams. The subcommittee should plan to complete its work no later than August 1, 2010.

- As issues and concerns are identified, the subcommittee will look for flexibility within various requirements and seek alternative ways of meeting the needs of students that will create a change to alleviate the issue or concern. As practical and workable solutions are identified, they will be submitted jointly to the Superintendent and the PEA President for review and determination as to the appropriate subsequent action. One such action could be submission to the bargaining teams as the basis to reach further tentative agreements. If no solution is identified or agreed upon by the subcommittee, the issue or concern will also be forwarded to the Superintendent and the PEA President for further discussion. The Superintendent and the President will meet prior to the start of the 2010-2011 school year to review the work of the subcommittee and determine whether additional work remains to be completed.

The Board and the Association both desire to continue improving the culture of cooperation at both the District level and the school level. Both the Board and the Association are committed that any problems or concerns will be identified and that workable solutions that improve the work life of teachers will be identified and implemented.

Preface
The Florida Legislature has enacted statutes in order to bring about the development of a teacher evaluation system that is focused on increasing student learning growth by improving the quality of instructional services. The integration of processes for school improvement, teacher evaluation, professional learning experiences, and data as evidence of student learning is more important than ever before. Emphasis is now being placed on collecting data pertaining to growth in student learning and data derived from demonstrated attributes and strategies related to evidence-based instructional practices. This focus has become more evident with development and adoption of the Florida Educator Accomplished Practices (2010), Florida’s participation in the federal Race to the Top (RTTT) Grant, and the passage of the Student Success Act in March of 2011 by the Florida Legislature.

Focused communication between teachers and administrators that places an emphasis on student learning growth and the teacher’s role in applying interventions based on his/her participation in professional learning activities that are directly related to contemporary research linking high probability strategies to student learning will be required. In order to meet these expectations, the Polk County School District has reviewed its existing teacher evaluation system and made changes consistent with this mental model and statutory requirements. This review was conducted by the Teacher Evaluation Advisory Committee that worked collaboratively to develop a system that will best meet the diverse needs of the teachers and support District Strategic Plan Goals within the parameters of Florida law. After a review of the existing evaluation system in relation to the expectations described in legislation, a system has been developed that measures teacher performance in relation to student achievement and the application of evidence-based, practices. This revised system will be implemented to ensure fairness, validity, and reliability within the limitations of resource infrastructure that currently exists. This system places emphasis on teacher professional learning as it relates to student learning. System components include processes for:

- Providing a closer linkage between teacher evaluation, student learning and school improvement
- Collecting student achievement and other data relevant to teacher effectiveness
- Creating a system that is based on what we learn from contemporary research about effective teaching strategies
- Planning for professional learning for all teachers

This document was prepared to inform all educators in Polk County about the expectations, processes, procedures, and forms that will be used in the district’s teacher evaluation system.
Teacher Evaluation Philosophy

The primary purposes of teacher evaluation system processes are quality assurance (increasing student learning growth) and professional learning (improving the quality of instruction). Teacher evaluation should be a positive and ongoing process requiring considerable time, effort, and openness of both teachers and their administrators. The process should focus on student achievement by helping teachers become more effective in the application of high probability instructional strategies derived from contemporary educational research.

Positive outcomes from teacher evaluation processes are highly dependent upon building an environment characterized by open, honest, and respectful communication among teachers and administrators, both of whom are responsible for establishing this rapport. When concerns arise, they must be expressed with an appropriate rationale and suggestions for improvement. It is essential that both teachers and administrators (operating from the perception of building collaborative relationships) view performance evaluation as a supportive process that will result in enhanced student growth and improved professional learning, performance, and morale.

Teacher evaluation is best viewed as a highly individualized experience - a personal journey, in which educators view themselves as professionals committed to continuous improvement. The district’s teacher evaluation system was revised to be congruent with contemporary research on teacher effectiveness and redesigned to ensure that processes are consistent with expectations delineated by Florida statutes. This evaluation system addresses five key factors in multiple processes:

- The teacher
- The administrator
- Student performance data
- Timely and actionable feedback
- Organizational context

All are equally important toward implementing an evaluation system that meets the needs of all teachers in the classroom.

It should be noted that effective performance in a given job role is based on three significant variables, the individual’s competencies, the demands of the job and their related expectations, and the organizational climate and environment in which the individual works. Effective job performance results when these three variables come together in a synergistic fashion. In order for the individual to achieve optimal performance in the job, the organization must provide the support necessary to realize the successful application of one’s competencies, against the backdrop of the real life demands of the job. It is the appropriate alignment of these variables, personal competencies, organizational support and realistic job expectations that will enable us to realize enhanced learning and success for our students. It is essential that decisions made related to pay, promotion, placement and employment status be based on a valid and reliable system that is closely monitored and adjusted toward that end throughout its implementation.
Conceptual Framework

In order to enhance the quality and equity of the district’s teacher evaluation system and to bring the district closer to complying with requirements delineated in the Student Success Act of 2011 that amends several Florida Statutes (significant among them is 1012.34) and to meet additional related expectations pertaining to the Florida RTTT Memo of Understanding (MOU), a differentiated annual performance evaluation process has been developed for teachers. Teachers are clustered into two broad categories, FCAT subject/grade level teachers and Non-FCAT subject/grade level teachers. By Florida Statute, the student performance component of these differentiated procedures will become effective August 15, 2011. Detailed information concerning the student performance component of these differentiated evaluation procedures that will be applied is described on pages 9 – 12 of this manual.

2011 – 2012 (ONLY): All Classroom Teachers

All classroom teachers’ Overall Annual Performance Evaluation Rating is based on “points earned” related to the following elements:

**Student Achievement Indicators** based on three years of trend data from state assessment processes are applied related to Reading or Math as appropriate to the teacher’s assignment. This data will come from the adopted and published Florida student growth model process as derived in the form of “trend data” based on 2011-2012, 2012-2013 and 2013-2014 FCAT and other state student assessment processes. Tables and related point values have been developed and will be applied to the teacher’s Annual Overall Performance Evaluation rating using the student growth data provided by the FDOE. It is the expectation of the FDOE that the district will apply tables to be developed by the Florida State Board of Education when they are available. This element determines **50.3 % of the teacher’s Overall Annual Performance Evaluation Rating**. Teachers will be rated and awarded points individually.

**Demonstration of evidence-based teaching practices and behaviors** (linked directly to the Florida Educator Accomplished Practices) in the form of described rubrics for EPC Indicators and rated by the school administrator are combined with points awarded based on the teacher’s **situational context** as determined by specified student demographic impact factors related to teaching in a classroom heavily impacted by these factors. These points and related variables make up **48% of a teacher’s Overall Annual Performance Evaluation Rating**. Teachers are rated and awarded points individually.

A **Self-Evaluation process pertaining to the evidence-based teaching practices and behaviors** (linked directly to the Florida Educator Accomplished Practices) is completed by the classroom teacher. Each teacher analyzes the EPCs and related rubrics. After reflecting on his/her practices as delineated in the rubric descriptions, the teacher rates him/herself accordingly for each EPC. The rubric points are totaled. The Self-Evaluation Table on page 20 that identifies ranges of point totals determines the total point value for the teacher for this element. Points from the table make up **1.7% of a teacher’s Overall Annual Performance Evaluation Rating**. Teachers rate themselves individually.
2012 – 2013 All Classroom Teachers

FCAT/State Assessment Teachers

The FCAT/State Assessment teacher’s Overall Annual Performance Evaluation Rating is based on “points earned” related to the following elements:

Student Achievement Indicators based on data from state assessment processes are applied related to Reading, or Math, or End of Course (EOC) exams as appropriate to the teacher’s assignment. Specific lists of teachers will be provided by the FDOE. As the state adds more subjects/grades to the state-wide assessment process, impacted teachers will be added to the lists. This data will come from the adopted and published Florida student growth model process as derived in the form of “trend data” based on 2011-2012, 2012-2013, and 2013-2014 FCAT and other state student assessment processes. Tables and related point values have been developed and will be applied to the teacher’s Annual Overall Performance Evaluation rating using the student growth data provided by the FDOE. It is the expectation of the FDOE that the district will apply tables to be developed by the Florida State Board of Education when they are available. This element determines 50.3 % of the teacher’s Overall Annual Performance Evaluation Rating. Teachers will be rated and awarded points individually.

Demonstration of evidence-based teaching practices and behaviors (linked directly to the Florida Educator Accomplished Practices) in the form of described rubrics for EPC Indicators and rated by the school administrator are combined with points awarded based on the teacher’s situational context as determined by specified student demographic impact factors related to teaching in a classroom heavily impacted by these factors. These points and related variables make up 48% of a teacher’s Overall Annual Performance Evaluation Rating. Teachers are rated and awarded points individually.

A Self-Evaluation process pertaining to the evidence-based teaching practices and behaviors (linked directly to the Florida Educator Accomplished Practices) is completed by the classroom teacher. Each teacher analyzes the EPCs and related rubrics. After reflecting on his/her practices as delineated in the rubric descriptions, the teacher rates him/herself accordingly for each EPC. The rubric points are totaled. The Self-Evaluation Table on page 20 that identifies ranges of point totals determines the total point value for the teacher for this element. Points from the table make up 1.7% of a teacher’s Overall Annual Performance Evaluation Rating. Teachers rate themselves individually.
All Non-FCAT Teachers - Type A

A Non-FCAT A teacher’s Overall Annual Performance Evaluation Rating is based on “Points Earned” related to the following components:

The following procedures will be applied for Non-FCAT A teachers whose students participate in state assessment processes and for whom no district processes have been developed and implemented:

1a. Student performance is derived as a learning gain when students that are matched to the teacher show a learning gain in Reading or Math or EOC exams as derived from state assessment processes based on three years of “trend data” from 2012-2013, 2013-2014 and 2014-2015 as available will be applied for use in the teacher evaluation process.

The following procedures will be applied for Non-FCAT A teachers whose students do not participate in state assessment processes and for whom no district assessment processes have been developed and implemented:

1b. The teacher will receive school wide or district wide data as appropriate to their school and teaching assignment. (see page 11)

The following procedures will be applied for alternative schools that deliver dropout prevention and academic intervention services and receive a school improvement rating in lieu of a school grade. Department of Juvenile Justice (DJJ) schools are not included as alternative schools and do not receive a school grade or a school improvement rating.

1c. The teacher will receive the district wide learning gains score for reading or math, which ever is higher. This will be applied to the teachers at these schools for the student learning growth portion of the teacher evaluation.
This variable determines 50.3% of the teacher’s Overall Annual Performance Evaluation Rating. Teachers are awarded points individually. A point values table related to learning gains derived from using data from state assessment processes pertaining to the students that the teacher teaches.

Demonstration of evidence-based teaching practices and behaviors directly linked to the Florida Educator Accomplished Practices are rated by the school administrator and combined with the teacher’s situational context points as determined by specified student demographic impact factors related to teaching in a classroom heavily impacted by these factors. Teachers are rated and awarded points individually and make up 48% of a teacher’s Overall Annual Performance Evaluation Rating.

A Self-Evaluation process pertaining to the evidence-based teaching practices and behaviors directly linked to the Florida Educator Accomplished Practices is completed by the classroom teacher. Each teacher analyzes the EPCs and related rubrics. After reflecting on his/her practices as delineated in the rubric descriptions, the teacher rates him/herself accordingly for each EPC. The rubric points are totaled. The Self-Evaluation Table on page 20 identifies ranges of point totals determining the total point value for the teacher for this element. Points from the table make up 1.7% of a teacher’s Overall Annual Performance Evaluation Rating. Teachers rate themselves individually.

Note: The processes for Non-FCAT Teachers- Type A will be phased out starting in 2012-2013 and continuing as district end-of-course assessments are developed and implemented.

Non-FCAT Teachers- Type B (Not Applicable 2012 – 2013)

Determine a teacher’s Annual Overall Performance Evaluation Rating based on “Points Earned” related to the following components:

The following procedures will be applied for Non-FCAT Subject/Grade Level Teachers whose students do not participate in state assessment processes and for whom district determined, administered, scored and reported assessment processes have been developed and implemented:

Student growth and/or achievement End-of-Course (EOC) data focused on learning gains in the content area being taught as derived from district-determined assessment processes based on three years of “trend data” from 2012-2013, 2013-2014 and 2014-2015 as available will be applied for use in the teacher evaluation process. District determined, administered, scored and reported student assessments will be developed and implemented through the application of a phase-in process initiated in 2012-2013 and continuing through June 30, 2015. Assessment content “rules” and pre-/post-student assessment calendars will be applied as described in Non-FCAT- Type A, 1b on pages 11 -12.

This variable determines 50.3% of the teacher’s Overall Annual Performance Evaluation Rating. Teachers will be awarded points individually. A point values table related to learning gains derived from using growth and/or achievement data from district determined, administered, scored, and reported student assessments pertaining to the students that the teacher teaches has been developed and will be applied starting August 15, 2012.

Demonstration of evidence-based teaching practices and behaviors (linked directly to the Florida Educator Accomplished Practices) in the form of described rubrics for EPC Indicators and rated by the school administrator are combined with points awarded based on the teacher’s situational context as
determined by specified student demographic impact factors related to teaching in a classroom heavily impacted by these factors. Teachers are rated and awarded points individually. These points and related variables make up 48% of a teacher’s Overall Annual Performance Evaluation Rating.

A Self-Evaluation process pertaining to the evidence-based teaching practices and behaviors (linked directly to the Florida Educator Accomplished Practices) is completed by the classroom teacher. Each teacher analyzes the EPCs and related rubrics. After reflecting on his/her practices as delineated in the rubric descriptions, the teacher rates him/herself accordingly for each EPC. The rubric points are totaled. The Self-Evaluation Table on page 20 that identifies ranges of point totals determines the total point value for the teacher for this element. Points from the table make up 1.7% of a teacher’s Overall Annual Performance Evaluation Rating. Teachers rate themselves individually.

**Planned Use of Student Performance Assessment Data**

Student performance data, derived from state, district, or teacher student assessment processes, will be used to determine the point values assigned to the teacher for use in determining the Student Achievement EPC rating and the Overall Annual Performance Evaluation rating. The Student Success Act of 2011 contains a provision that teacher’s Annual Performance Rating may be amended within 90 days of the original evaluation. For example, the current year’s student assessment data might not be available by the 165th day of student contact, the deadline for completing a teacher’s Overall Annual Performance Evaluation. The amendment process is being required by FDOE to be used in Polk. It is the state’s expectation that three years of valid and reliable “trend data” be applied, including FCAT data which will not be provided until after teachers complete their work year, (when available and appropriate) for use as determined by the district. For each year the oldest of the three cumulative years will be dropped and the most recent available year’s data will be added. The sections that follow describe the manner in which this issue will be addressed and the specified timeline for implementing the application of student performance data as a significant variable in the teacher evaluation process.
2012-2013: Use of Student Assessment Data

For the 2012-2013 school year, all teachers will earn points for the Student Achievement EPC element of the teacher evaluation system based on the following Roster Verification Decision-Tree:

Uncommon Teacher Scenarios

It should be noted that there are several atypical teacher scenarios that might need to be addressed as they relate to the Student Performance Element of the teacher evaluation system. In addition, there are likely to be unpredicted unique scenarios that will need to be addressed. When they occur, they will be brought forth to the Teacher Evaluation Advisory Committee to be addressed as that committee will need to continue meeting on an ongoing basis.

Special Processes as Applicable to a Teacher's Needs

As may be applicable to need, a process may be used to promote prompt professional conversations regarding instructional assistance with teachers. If performance concerns exist the following steps shall be taken:

1. The evaluator shall hold a professional conversation with the teacher to identify specific areas of concern coupled with suggested actions to be taken to assist the teacher with improvement of professional practice. Monitoring will be ongoing. An Instructional Assistance Conference (IAC)
Form MAY be used at this time. This process and related form does not replace the formal written plan of improvement (PDP) and is not disciplinary in nature. It is intended to facilitate professional conversations between the teacher and administrator.

2. If the problem persists, the evaluator will conduct a focused observation in the area of concern using the approved observation instrument. Monitoring will be on-going.

3. If after the focused observation a teacher is still found to be performing below the effective level in an EPC, the evaluator shall meet with the teacher to discuss the concerns and develop a plan.

If applicable, a formal Professional Development Plan (PDP) to address ratings of Unsatisfactory (required) or Needs Improvement (Optional) is developed and implemented at this time.

Classroom Teacher Observation Processes

The observation process is the primary method for collecting evidence related to teacher practices that will be used as a source of data for the summative evaluation process and provides a rich source of feedback to teachers regarding their instructional practice and professional growth. It is expected that this process will initiate conversations between the evaluator and teacher that identifies strengths and potential needs or areas of growth. It is not the summative evaluation. There are three types of observation processes:

- **Formal** (45 minutes or longer with feedback and required pre-/post-conferences)
- **Informal** (10 to 30 minutes in length with feedback and OPTIONAL pre-/post-conferences)
- **Walkthrough** (3-5 minutes in length with feedback)

The formal observation consists of an observation for a full class period (45 minutes or more) as deemed appropriate for various levels (early childhood, primary, intermediate, middle and secondary school). The formal observation includes a pre-conference and post-conference with the teacher. These conferences provide a rich opportunity for teachers to reflect upon their practice, engage in a collaborative decision making process and help evaluators clarify expectations. Both the planning conference and the reflection conference should be scheduled at the same time that the observation is scheduled and should be conducted in a timely manner (1-5 days preceding and following the observation). The planning or pre-conference provides an opportunity for the teacher and the evaluator to talk about the lesson prior to the formal announced observation. During this time, the teacher and observer use the Pre-/Post-Conference Guide as a means to discuss the lesson, engage in collaborative decision making, clarify expectations and identify areas where specific feedback will be provided. The post-conference provides an opportunity for the teacher and the evaluator to reflect about the lesson, clarify expectations and plan forward using the Pre-/Post-Conference Guide for reflection and feedback.

The informal observation can be announced or unannounced and may or may not include an observation of the full class period (10 to 30 minutes is suggested). Typically, there is no planning or reflection conference. An informal announced observation may be scheduled prior to the observation while an unannounced informal observation is not scheduled. These observations are useful for providing additional feedback to teachers, acknowledging professional growth and collecting additional evidence to further guide the overall annual performance evaluation process. While a pre-/post-conference is not required, it is required that evaluators provide timely and actionable feedback to teachers regarding these observations.
As in the informal observation, walkthroughs can be announced or unannounced. Walkthroughs generally consist of very brief classroom observations of 3 - 5 minutes in length in which the evaluator gathers evidence regarding classroom instructional practices and behaviors on a regular basis. Timely and actionable feedback to teachers is also strongly recommended. Walkthroughs provide opportunities for providing individual feedback as well as identifying trend and pattern data over time. As is the case with formal and informal observations, if observable performance deficiencies are noted, the evaluator must provide the teacher with specific related feedback. Walkthroughs also are used to identify professional needs for individuals and groups of teachers and provide a means to gauge the implementation of professional learning against individual professional learning plans and school improvement plans.

All observation processes may give attention to two types of behavioral evidence, teacher evidence and student evidence. Teacher evidence is based on thin slices of behavior that are notable teaching moves that can be observed in a classroom. Teacher evidence is specific observable behaviors in which teachers engage when using particular instructional strategies. Student evidence is specific observable behaviors in which students engage in response to the teacher’s use of particular instructional strategies. The feedback process related to the use of the observation instruments may include information concerning questions for teacher reflection. There is no expectation that the questions be answered formally. The reflection questions are intended to stimulate self-reflection and conversation pertaining to teacher practices in relation to the EPC or descriptor. The frequency of formal observations, informal observations and walkthroughs that is expected in the district for Category I, Category II and teachers on a PDP is delineated below.

**Observation Implementation Practices and Observation Instruments**

The Polk County Observation Instruments are a comprehensive data collection and management system that report real-time data from classroom walkthroughs, informal observations, and formal observations. Using efficient electronic tools and research-based content resources, the Polk County Observation Instruments enable administrators to focus on instructional leadership while maintaining compliance with state and district requirements as well as aligning to Race to the Top’s requirements related to classroom observation, monitoring, professional development, and reporting. Feedback will be provided
to teachers following classroom observations to ensure a transparent and effective ongoing communication process.

The approved observation instrument must be used for administrative classroom walkthroughs, informal, and formal observations. Observable EPCs (Educator Accomplished Practices) for each of the four domains are listed to guide the observer. Using the rubrics, the administrator rates observed practices pertaining to each descriptor as highly effective, effective, needs improvement/developing, or unsatisfactory. Space for feedback allows the administrator to articulate the rationale for the rating and/or to provide comments related to the observation. Teachers receive an electronic copy of the observation instrument in order to expedite timely feedback and to enable a reflective process pertaining to their performance status. The observation data gathered electronically, throughout the school year, provides the primary source of information to be applied when rating the teacher on the observable elements of an EPC.

**Calculation of Observable EPC Ratings**

An Improvement Model for 2012-2013 teacher evaluations will consist of three weighted observation processes: Walkthroughs, Informal and Formal. When calculating a final rating for each EPC, completed Walkthrough Observations will account for 25%, completed Informal Observations will account for 25%, and completed Formal Observations will account for 50%. Further, weighting will be established for all observations which place less emphasis on observations conducted nearer the beginning of the school year and progresses with greater weight given to those conducted nearer the final rating. Weighting for Walkthrough Observations will reflect specific time periods progressing from 3% in the first time period, 5% in the second time period, 7% in the third time period, and 10% in the last time period. Similar progressive weighting will be established where multiple Informal or Formal Observations are completed. The formula will generate final EPC ratings of Highly Effective, Effective, Needs Improvement/Developing, or Unsatisfactory.

**Observable Essential Performance Criteria and Observation Instruments**

Only the approved observation instrument, as described on previous page, will be used during the various observation processes in relation to the performance ratings applied to the fifteen observable EPCs identified below:

**Teacher Self-Evaluation Process**

The district teacher evaluation process includes a self-evaluation element that is calculated into the teacher’s Overall Annual Performance Evaluation Rating at the close of the evaluation cycle. It determines 1.7% (3 of 169 points possible) of that rating. The self-evaluation must be completed no later than the teacher’s first **45 days** of student contact. The teacher will analyze the rubrics for the 23 EPCs (evidence-based practices as derived from contemporary research) applied in the teacher evaluation system. The teacher reflects on the congruence of his/her practices with the rubric statements and rates him/herself accordingly. This will result in a raw score value ranging from 0-69. The raw score value is converted to a rating points value in accordance with the table below.

**EPC Evidence-Based Rubrics Self-Evaluation Table**

<table>
<thead>
<tr>
<th>Raw Points = 0 - 17</th>
<th>Raw Points = 18 - 33</th>
<th>Raw Points = 34 - 56</th>
<th>Raw Points = 57 - 69</th>
</tr>
</thead>
<tbody>
<tr>
<td>Evaluation Points = 0</td>
<td>Evaluation Points = 1</td>
<td>Evaluation Points = 2</td>
<td>Evaluation Points = 3</td>
</tr>
</tbody>
</table>

Points determined through the self-evaluation and reflection process are added to points derived from **Student Achievement**, **Administrator Ratings** and **Situational Context** variables to determine the teacher’s Overall Annual Performance Evaluation Rating.

The self-evaluation process also enables a reflective identification of professional learning needs in relation to the evidence-based practices that can be used as a part of the TARGET (IPDP) planning process. Self-evaluation also enhances the conversations the teacher and administrator will have related to professional learning and its relationship to enhanced teacher performance.

**Requirements for Consistency in Evaluator Rating Processes**

In order to ensure consistency among school evaluators pertaining to rating processes applied to the evidence-based practices derived from contemporary research it is essential that the uniform set of rubrics be used to determine those ratings. These practices are organized in a framework that provides a common language to ensure a focused effort to improve learning, for both students and the adults in our school system. The framework includes 4 Domains, 23 EPCs and multiple descriptors within each EPC. This framework also provides information pertaining to the relationship of the EPCs to the Florida Educator Accomplished Practices and the Marzano Evaluation Model. The framework includes the identification of possible data sources that may be used as evidence for potential ratings as well. The evaluator must use the set of rubrics delineated in the framework when determining the presence and quality of teacher practices consistent with contemporary research in order to assign a fair and equitable rating for each of the 23 EPCs. In essence, ratings for the EPCs must be based on credible
data examined through observations, conversations, other possible sources of evidence, and a variety of other means that occur throughout the entire school year. There is no expectation or requirement that a portfolio be developed and submitted to the administrator.

The Importance of Feedback to Improving Performance
There is significant evidence that effective feedback is a critical element of any process designed to improve performance. It is essential that school administrators apply the mechanisms, with fidelity, for providing meaningful feedback and support for professional learning that are built into the district’s teacher evaluation system processes. The system is designed to enhance the focus on student learning and to increase the conversations among staff related to teacher practices that will lead to that enhanced learning. That design will not be effective toward achieving the goal of student learning growth unless school administrators and teachers engage in the processes with commitment and quality. Professional conversation and reciprocal feedback will ultimately determine the success of our students. System processes must be implemented as designed. In order to enhance the feedback and communication process and in accordance with the requirements of the Student Success Act 2011, the administrator must discuss the teacher’s overall annual performance evaluation with the teacher in a face-to-face conference. In addition, it is the responsibility of the administrator to provide both developmental and evaluative feedback to the teacher throughout the year based on varied interactions and observations as described in earlier sections of this system. Likewise, it is the responsibility of the teacher to seek developmental and evaluative feedback from the administrator as may be appropriate.

Mechanisms for Parental Input
Prior to completing the rating on the 23 EPCs as delineated in the related framework and rubrics, the administrator may use information from parent interactions related but not limited to the following:

- Parental phone calls
- Letters, notes, e-mail, etc.
- Face to face conferences
- Information gathered as a part of parental input focus meetings
- Survey data gathered by the teacher
- Survey data gathered by the school
- Data gathered using a District Parent Feedback Form (development is pending)
- Other formal and informal interactions with parents

The administrator and teacher will discuss and agree upon the possible sources of parental input as an element of the Performance Planning session as may be appropriate. The use of any parental information for the purpose of teacher evaluation processes must be communicated in writing and provided to the teacher within 45 days of the receipt of the information in accordance with Florida Statute and the district teacher Collective Bargaining Agreement.

Alignment and Support of District and School Improvement Plans
To fulfill our mission, we envision that students in the Polk County Public Schools will effectively:

- Read, write, compute, speak, listen, and use complex thinking skills to solve problems;
- Be self-directed in creating personal purpose and vision, setting priorities, choosing ethical action, and creating their own knowledge;
- Cooperate and collaborate with others in working with and leading groups; interact positively in diverse settings; recognize the value and contributions of all individuals; and make positive contributions to their communities;
- Understand and use social, organizational, and technological systems; design, monitor, improve and correct performance within a system; and create viable products

Importance is placed on administrators and teachers collaboratively monitoring progress toward meeting Polk County School District’s high expectations for continued growth in the academic performance of all students and setting professional growth objectives for teachers related to their assigned students’ achievement data, school improvement plan goals/objectives, and identified individualized and differentiated teacher needs. A significant emphasis is placed on the implementation of high probability instructional strategies that provide all students the opportunity to experience academic performance growth, encourage staff efficacy and collegiality, and encourage parents to support the learning processes that target these outcomes.

Student performance growth is dependent upon the implementation of a professional development system focused on improving student learning experiences, effective use of high probability student engagement strategies, requires careful planning, a collaborative effort by teachers and administrators, and the targeted integration of professional learning through activities that are relevant to the identified needs of Polk County’s students and teachers. Therefore, it is imperative that the design, continued development, and implementation of a professional learning system meet the diverse needs of Polk County’s students and teachers. From this perspective, focused and collaborative feedback loops between teachers and administrators are crucial. Individualized for each teacher and focused on improving student learning experiences and student engagement practices, this on-going professional dialogue occurs throughout the school year and is designed to create a differentiated teacher professional growth plan with the objective of improving professional practices and student achievement.

Therefore, the staff of the Professional Development Department (PD), in collaboration with the district Professional Development Coordinating Council (PDCC), and the Professional Development Advisory Board (PDAB), has developed a targeted system of professional learning for that integrates all appropriate sub-systems and correlates directly to the improvement of student academic growth. The sub-systems integrated within Polk County’s professional learning system are:
- **The District Mission and Strategic Plan Goals**
- **Strategic Plan Strategies and Action Plan/Benchmarks**
- **The School Improvement Planning Process (SIP)**
- **Leadership for Educational Achievement and Development (LEAD)**
- **District Master In-Service Plan (MIP)**
- **Teacher and Administrator Evaluation Systems**

Each of these elements are interrelated and focused on improving student academic performance and growth.

These desired student outcomes and practices will be fostered and nurtured in schools and classrooms with an environment in which:
• Adults assume instructional and ethical leadership to create efficient, effective environments perceived as safe, healthy, and equitable, where students are recognized as unique individuals capable of learning and independent thinking;
• Adults use varied and reliable teaching and evaluating procedures through relevant curricula;
• Adults enable students, families, and communities to work cooperatively to assume responsibility for the total educational experience;
• Adults engage in professional growth and training activities to effect continuous improvement in the system;

Students are guided in their total physical, mental, and emotional development through activities which are student-centered and which focus on positive expectations and encourage intrinsic motivation.

Continuous Professional Improvement

In accordance with Florida Statue 1012.34(2) (b), F.S., the Student Success Act of 2011, and Florida’s Educator Accomplished Practices, a teacher’s continuous professional improvement must be founded in contemporary educational research, affect measurable student learning growth, incorporate high probability instructional strategies, and be included as a component of the district’s Teacher Evaluation System. Therefore, a teacher’s Individual Professional Development Plan (TARGET) is an essential element of Polk County’s Teacher Evaluation System. Each teacher, in collaboration with the school principal and/or assistant principal must develop and maintain a TARGET (IPDP) plan. The teacher’s TARGET (IPDP) goals, although aspirational not evaluative in nature, must relate directly to student growth data for the students assigned to him or her, AYP sub-group performance, the School Improvement Plan, his or her self-evaluation, and/or his or her summary evaluation from the prior school year. A teacher’s professional growth goals must correlate to student learning needs identified during his or her evaluation of the preceding variables and be relevant to the growth data for the matched students assigned to the teacher. During the TARGET (IPDP) process, the teacher identifies critical deficits in student performance, analyzes student data related to those deficits, determines student learning needs, sets student performance goals, and selects measures for student learning specific to the identified student learning needs and goals.

As an element in Polk County’s continuous professional improvement process for teachers, teachers and administrators create an on-going professional dialogue through the use of common language, feedback loops, pre/post observation conferences, and data chats designed to create a differentiated professional growth plan; individualized for each teacher and focused on the improvement of student learning experiences and student engagement practices. Throughout the school year, Polk County’s teachers are provided specific and relevant feedback from administration focused on a teacher’s TARGET (IPDP) plan goals with the objective of improving professional practices. Working collaboratively, the teacher and administrator develop an evaluation component to determine the degree to which the teacher’s TARGET (IPDP) goals were achieved, design a focus for the teacher’s professional learning for the year aligned to his or her TARGET (IPDP) plan goals, and select high probability classroom strategies for implementation correlated to the teacher’s TARGET (IPDP) plan goals and supported by contemporary educational research. Throughout the process, the administrator and teacher also determine the degree to which the teacher’s implementation of the high probability strategies are impacting student performance and adjust the teacher’s professional learning goals accordingly.
At the conclusion of the school year, the teacher and administrator reflect upon the teacher’s implementation of the high probability strategies gleaned from his or her professional learning experiences and the impact his or her professional improvement had on the learning, engagement, and achievement of his or her assigned students. An essential component of a teacher’s continuous improvement of professional practices is feedback. Processes include:

- Teachers and administration collaboratively developing short and long term professional goals related to individual continuous improvement of practices and the implementation of high probability strategies to increase student performance.
- Data from formal and informal observations will be compiled and used in conferences with teachers once each semester to give specific feedback on their instructional practices and offer possible learning resources to enhance professional practices. Learning resources for individual continuous improvement may include but are not limited to:
  - Observations of best practices
  - PD 360
  - Professional Learning Communities at school site
  - Department chairs, team leaders, peer mentors to support learning
  - District-based professional development
- On-going TARGET (IPDP) conversations with administrators focused on individual continuous improvement of professional practices.
- An on-going professional dialogue between teachers and administrators through the use of common language, feedback loops, pre/post observation conferences, and data chats that supports a professional growth experience individualized for each teacher.

Use of Contemporary Research – Evidence-Based Practices

The contemporary research base for the development of the Evidence-Based Practices Rubrics applied in the district’s teacher evaluation system has been derived from the following publications:

As additional contemporary research related to teaching practices and enhanced student learning is published, the teaching practices and related rubrics will be analyzed, evaluated and adjusted to be consistent with the most current educational research available. This process will be applied at a minimum of every three years as a part of an ongoing evaluation of system processes in terms of their application, impact on teacher practices and impact on student learning.

Evaluation Rating Criteria Variables

The four rating labels applied to all system components to which a rating label is applied are congruent with the labels delineated in the Student Success Act 2011. They are:

- Highly Effective
- Effective
- Needs Improvement/Developing*
- Unsatisfactory

*Developing is applicable only to teachers in their first three years in the district General definitions of the four rating labels are provided in the Glossary. Specific meanings are derived from the evidence-based practices rubrics and are delineated in Appendix D.

The rubric(s) and weighting scales/scoring systems used to define and assign an employee’s final evaluation rating are described in several places in this manual. An abridged description is provided below.

The final Overall Annual Performance Evaluation Rating is assigned by a certified evaluator who verifies the data gathered through varied electronic processes. The appropriate certified evaluator must meet with the teacher in a conference to share the results of the overall evaluation. A more detailed description of this process is provided within several sections of this manual.

The table used by evaluators from which the final Overall Annual Performance Evaluation Rating is determined is located on the Overall Annual Performance Evaluation Rating form located in Appendix E.
Multiple Evaluations for First Year Teachers (New to the Profession or District)

Evaluation procedures for teachers in their first year in the profession or district are described in several sections of this manual. The section entitled, “Significant Evaluation Process –Category I Teachers...” (Pages 18 – 19) provides a detailed sequence of steps applied when evaluating these teachers. The number of classroom observations is delineated in the table on page 23. The types of student performance data that are reviewed at the interim performance review and throughout the school year may include but are not limited to the following:

- Progress monitoring data derived from district processes
- Student work
- Teacher-made student assessment data

Observation processes and student data reviews are conducted by the principal or assistant principal. Ongoing, timely, and actionable feedback is provided throughout the school year for all teachers as described in several sections of this manual and is summarized and focused upon on page 16.

There is no modification in the rating process pertaining to the Self-Evaluation and Evaluator Rating activities related to the evidence-based practices. Modification of the Overall Annual Performance Evaluation Rating process for teachers new to the district is delineated on the table on page 16.

Support for District and School Improvement Plans

The district’s teacher evaluation system focuses on enhancing effective instruction and student learning. It is one of the major components of the district’s Professional Development System (PDS) that integrates the Teacher Evaluation System with other organizational sub-systems such as the District Strategic Plan, Differentiated Accountability Plan, School Improvement Plans and the Administrative Evaluation System. Results from the teacher evaluation process will be applied to inform district and school improvement planning initiatives as well as serving a tool to determine the impact on related strategy implementation and goal achievement. In addition data derived the application of teacher evaluation system processes will be used when establishing professional development goals and strategies as a part of district and school improvement plans. In essence, the district’s teacher evaluation system provides for the integration of TARGET Planning, student performance measurement and the documented application of teacher evidence-based practices to support district and school improvement plans.

The district is currently working on the technological interfaces necessary through the redesign of the Local Instructional Improvement System (LIIS) to ensure that quality data is available. This is essential to promote timely and informed decision-making as those decisions relate to district and school improvement plans. A significant “investment” has been made to provide the linkages necessary to use for improving student learning that is derived from the teacher evaluation system.

Teaching Fields Requiring Special Procedures

The process used by the district to identify teaching fields for which there may be a need to determine specialized evaluation and criteria includes a review of the field or position attributes, by the Teacher Evaluation Advisory Committee, pertaining to, but not limited to, the following variables:

- Unique instructional setting
• Job functions as described in the district job description for the position (field)
• Standards and quality of expected practice derived from contemporary research pertaining to the teaching field
• Status of direct or indirect linkage to student learning
• Availability of stable, reliable, valid data related to the teaching field
• Job role in relation to the Florida Educator Accomplished Practices
• Potential student achievement data sources that can be applied to the teaching field

There are several teaching fields or positions that have been identified that require specialized evaluation processes and criteria. The manner in which they will be addressed will be noted in Appendix F for related EPCs, rating scales and documents.

Annual Review of the Teacher Evaluation System

The district’s Teacher Evaluation System will be reviewed annually by the Teacher Evaluation Advisory Committee (TEAC). Specified membership on the TEAC will be described in Article 15 of the district’s Teacher Collective Bargaining Agreement. Generally speaking, membership includes representatives from all significant shareholder groups and consists of an equal number of teacher and administrative staff (school-based and district level). The Union will be represented as a part of the teacher staff group on the committee. Elements examined by the TEAC will be determined by data availability over time and will include but are not limited to the following:

• Evaluation reports related to the quality of implementation of system components
• Evaluation reports related to the impact of system processes on teacher practices
• Evaluation reports related to the impact on student achievement (learning)
• The impact of varied tables related to rigor, equity and validity based on the use of data for the purposes of evaluating performance
• Changes in related Florida statutes and School Board Policy
• Priority district instructional initiatives
• Additional contemporary research pertaining to high yield teaching strategies

The TEAC members will meet a minimum of two times annually and make recommendations to the Superintendent or as determined through collective bargaining processes and will make recommendations for system changes by July 1 of each year starting with July 1, 2012. Certain adjustments in system processes that pertain to student performance measures applicable to teacher evaluation may need to be made during the initial year of implementation due to unknown factors related to the stability and reliability of student achievement data. TEAC may make related recommendations pertaining to system processes if that occurs. Any changes in system processes during any year will be submitted to the FDOE for review and approval.

Peer Review Option

At this time, the district Teacher Evaluation System does not include the application of a peer review process as a formal element of the system that include the application of that process as one of the metrics in the teacher evaluation process. The TEAC may review the peer review option during year
two of system implementation and make related recommendations as may be appropriate. Formal and informal peer support processes are established in the district particularly as they related to Category I classroom teachers.

**Evaluation by the Supervisor**

The evaluator in Polk has been determined to be the school principal and/or the school assistant principal. That specific determination is delineated in Article 15 of the Teacher Collective Bargaining Agreement. An observer in relation to the performance evaluation who may contribute information pertaining to the evaluation of a teacher may also be the principal/immediate supervisor or an assistant principal designated by the principal. In rare and usual circumstances should the principal be unable to perform the role of the evaluator, the Superintendent will designate a certified administrative evaluator who meets the criteria to perform the evaluations. All personnel that perform the evaluation and/or observation function must be trained and certified pertaining to the skills and knowledge base to perform that function. It is noted here also that the performance evaluation criteria for principals and assistant principals include language related to their quality of implementation of the teacher evaluation system processes.

**Input into Evaluation by Trained Personnel other than the Supervisor**

Other than as described in the section above pertaining to the *Evaluation by the Supervisor* process, typically, no other personnel will have direct input into the evaluation of a classroom teacher. It is possible that input could be provided by district level staff pertaining to the evaluation procedure as it would be related to a formal Professional Development Plan process or other disciplinary process pertaining to teachers on Continuing or Professional Services contract status as outlined in the Teacher Collective Bargaining Agreement or delineated in Florida Statute.

District or school support staff that work with a teacher concerning professional development and learning may provide feedback as it pertains to deliberate practice to the teacher in a supportive or developmental role. That feedback from school or district support staff may not be provided as a part of the performance evaluation of the teacher. Only the evaluating administrator may provide evaluative feedback to the teacher.

(1) EVALUATION SYSTEM APPROVAL AND REPORTING.—

(a) For the purpose of increasing student learning growth by improving the quality of instructional, administrative, and supervisory services in the public schools of the state, the district school superintendent shall establish procedures for evaluating the performance of duties and responsibilities of all instructional, administrative, and supervisory personnel employed by the school district. The district school superintendent shall annually report the evaluation results of instructional personnel and school administrators to the Department of Education in addition to the information required under subsection (5).

(b) The department must approve each school district’s instructional personnel and school administrator evaluation systems. The department shall monitor each district’s implementation of its instructional personnel and school administrator evaluation systems for compliance with the requirements of this section.

(c) By December 1, 2012, the Commissioner of Education shall report to the Governor, the President of the Senate, and the Speaker of the House of Representatives the approval and implementation status of each school district’s instructional personnel and school administrator evaluation systems. The report shall include performance evaluation results for the prior school year for instructional personnel and school administrators using the four levels of performance specified in paragraph (2)(e). The performance evaluation results for instructional personnel shall be disaggregated by classroom teachers, as defined in s. 1012.01(2)(a), excluding substitute teachers, and all other instructional personnel, as defined in s. 1012.01(2)(b)–
(d). The commissioner shall continue to report, by December 1 each year thereafter, each school district’s performance evaluation results and the status of any evaluation system revisions requested by a school district pursuant to subsection (6).

(2) EVALUATION SYSTEM REQUIREMENTS. — The evaluation systems for instructional personnel and school administrators must:

(a) Be designed to support effective instruction and student learning growth, and performance evaluation results must be used when developing district and school level improvement plans.

(b) Provide appropriate instruments, procedures, and criteria for continuous quality improvement of the professional skills of instructional personnel and school administrators, and performance evaluation results must be used when identifying professional development.

(c) Include a mechanism to examine performance data from multiple sources, including opportunities for parents to provide input into employee performance evaluations when appropriate.

(d) Identify those teaching fields for which special evaluation procedures and criteria are necessary.

(e) Differentiate among four levels of performance as follows:

1. Highly effective.
2. Effective.
3. Needs improvement or, for instructional personnel in the first 3 years of employment who need improvement, developing.
4. Unsatisfactory.

The Commissioner of Education shall consult with experts, instructional personnel, school administrators, and education stakeholders in developing the criteria for the performance levels.

(f) Provide for training programs that are based upon guidelines provided by the department to ensure that all individuals with evaluation responsibilities understand the proper use of the evaluation criteria and procedures.

(g) Include a process for monitoring and evaluating the effective and consistent use of the evaluation criteria by employees with evaluation responsibilities.

(h) Include a process for monitoring and evaluating the effectiveness of the system itself in improving instruction and student learning. In addition, each district school board may establish a peer assistance process. This process may be a part of the regular evaluation system or used to assist employees placed on performance probation, newly hired classroom teachers, or employees who request assistance.

(3) EVALUATION PROCEDURES AND CRITERIA. — Instructional personnel and school administrator performance evaluations must be based upon the performance of students assigned to their classrooms or schools, as provided in this section. Pursuant to this section, a school district’s performance evaluation is not limited to basing unsatisfactory performance of instructional personnel and school administrators solely upon student performance, but may include other criteria approved to evaluate instructional personnel and school administrators’ performance, or any combination of student performance and other approved criteria. Evaluation procedures and criteria must comply with, but are not limited to, the following:

(a) A performance evaluation must be conducted for each employee at least once a year, except that a classroom teacher, as defined in s. 1012.01(2)(a), excluding substitute teachers, who is newly hired by the district school board must be observed and evaluated at least twice in the first year of teaching in the school district. The performance evaluation must be based upon sound educational principles and contemporary research in effective educational practices. The evaluation criteria must include:

1. Performance of students. At least 50 percent of a performance evaluation must be based upon data and indicators of student learning growth assessed annually by statewide assessments or, for subjects and grade levels not measured by statewide assessments, by school district assessments as provided in s. 1008.22(8). Each school district must use the formula adopted pursuant to paragraph (7)(a) for measuring student learning growth in all courses associated with statewide assessments and must select an equally appropriate formula for measuring student learning growth for all other grades and subjects, except as otherwise provided in subsection (7)

   a. For classroom teachers, as defined in s. 1012.01(2) (a), excluding substitute teachers, the student learning growth portion of the evaluation must include growth data for students assigned to the teacher over the course of at least 3 years. If less than 3 years of data are available, the years for which data are available must be used and the percentage of the evaluation based upon student learning growth may be reduced to not less than 40 percent.
b. For instructional personnel who are not classroom teachers, the student learning growth portion of the evaluation must include growth data on statewide assessments for students assigned to the instructional personnel over the course of at least 3 years, or may include a combination of student learning growth data and other measureable student outcomes that are specific to the assigned position, provided that the student learning growth data accounts for not less than 30 percent of the evaluation. If less than 3 years of student growth data are available, the years for which data are available must be used and the percentage of the evaluation based upon student learning growth may be reduced to not less than 20 percent.

c. For school administrators, the student learning growth portion of the evaluation must include growth data for students assigned to the school over the course of at least 3 years. If less than 3 years of data are available, the years for which data are available must be used and the percentage of the evaluation based upon student learning growth may be reduced to not less than 40 percent.

2. Instructional practice. Evaluation criteria used when annually observing classroom teachers, as defined in s. 1012.01(2) (a), excluding substitute teachers, must include indicators based upon each of the Florida Educator Accomplished Practices adopted by the State Board of Education. For instructional personnel who are not classroom teachers, evaluation criteria must be based upon indicators of the Florida Educator Accomplished Practices and may include specific job expectations related to student support.

3. Instructional leadership. For school administrators, evaluation criteria must include indicators based upon each of the leadership standards adopted by the State Board of Education under s. 1012.986, including performance measures related to the effectiveness of classroom teachers. In the school, the administrator’s appropriate use of evaluation criteria and procedures, recruitment and retention of effective and highly effective classroom teachers, improvement in the percentage of instructional personnel evaluated at the highly effective or effective level, and other leadership practices that result in student learning growth. The system may include a means to give parents and instructional personnel an opportunity to provide input into the administrator’s performance evaluation.

4. Professional and job responsibilities. For instructional personnel and school administrators, other professional and job responsibilities must be included as adopted by the State Board of Education. The district school board may identify additional professional and job responsibilities.

   (b) All personnel must be fully informed of the criteria and procedures associated with the evaluation process before the evaluation takes place.

   (c) The individual responsible for supervising the employee must evaluate and assess the employee’s performance. The evaluation system may provide for the evaluator to consider input from other personnel trained under paragraph (2) (f). The evaluator must submit a written report of the evaluation to the district school superintendent for the purpose of reviewing the employee’s contract. The evaluator must submit the written report to the employee no later than 10 days after the evaluation takes place. The evaluator must discuss the written evaluation report with the employee. The employee shall have the right to initiate a written response to the evaluation, and the response shall become a permanent attachment to his or her personnel file.

   (d) The evaluator may amend an evaluation based upon assessment data from the current school year if the data becomes available within 90 days after the close of the school year. The evaluator must then comply with the procedures set forth in paragraph (c).

(4) NOTIFICATION OF UNSATISFACTORY PERFORMANCE.—If an employee who holds a professional service contract as provided in s. 1012.33 is not performing his or her duties in a satisfactory manner, the evaluator shall notify the employee in writing of such determination. The notice must describe such unsatisfactory performance and include notice of the following procedural requirements:

   (a) Upon delivery of a notice of unsatisfactory performance, the evaluator must confer with the employee who holds a professional service contract, make recommendations with respect to specific areas of unsatisfactory performance, and provide assistance in helping to correct deficiencies within a prescribed period of time.

   (b)1. The employee who holds a professional service contract shall be placed on performance probation and governed by the provisions of this section for 90 calendar days following the receipt of the notice of unsatisfactory performance to demonstrate corrective action. School holidays and school vacation periods are not counted when calculating the 90-calendar day period. During the 90 calendar days, the employee who holds a professional service contract must be evaluated periodically and apprised of progress achieved and must be provided assistance and in-service training opportunities to help correct the noted performance deficiencies. At any time during the 90 calendar days, the employee who holds a professional service contract may request a transfer to another appropriate position with a different supervising administrator; however, if a transfer is granted pursuant to ss. 1012.27(1) and 1012.28(6), it does not extend the period for correcting performance deficiencies.

2. Within 14 days after the close of the 90 calendar days, the evaluator must evaluate whether the performance deficiencies have been corrected and forward a recommendation to the district school superintendent. Within 14 days after receiving the evaluator’s recommendation, the district school superintendent must notify the employee who holds a professional service
contract in writing whether the performance deficiencies have been satisfactorily corrected and whether the district school superintendent will recommend that the district school board continue or terminate his or her employment contract. If the employee wishes to contest the district school superintendent’s recommendation, the employee must, within 15 days after receipt of the district school superintendent’s recommendation, submit a written request for a hearing. The hearing shall be conducted at the district school board’s election in accordance with one of the following procedures:

a. A direct hearing conducted by the district school board within 60 days after receipt of the written appeal. The hearing shall be conducted in accordance with the provisions of ss. 120.569 and 120.57. A majority vote of the membership of the district school board shall be required to sustain the district school superintendent’s recommendation. The determination of the district school board shall be final as to the sufficiency or insufficiency of the grounds for termination of employment; or

b. A hearing conducted by an administrative law judge assigned by the Division of Administrative Hearings of the Department of Management Services. The hearing shall be conducted within 60 days after receipt of the written appeal in accordance with chapter 120. The recommendation of the administrative law judge shall be made to the district school board. A majority vote of the membership of the district school board shall be required to sustain or change the administrative law judge’s recommendation. The determination of the district school board shall be final as to the sufficiency or insufficiency of the grounds for termination of employment.

(5) ADDITIONAL NOTIFICATIONS.—The district school superintendent shall annually notify the department of any instructional personnel or school administrators who receive two consecutive unsatisfactory evaluations. The district school superintendent shall also notify the department of any instructional personnel or school administrators who are given written notice by the district of intent to terminate or not renew their employment. The department shall conduct an investigation to determine whether action shall be taken against the certificate holder pursuant to s. 1012.795.

(6) ANNUAL REVIEW OF AND REVISIONS TO THE SCHOOL DISTRICT EVALUATION SYSTEMS.—The district school board shall establish a procedure for annually reviewing instructional personnel and school administrator evaluation assessment systems to determine compliance with this section. All substantial revisions to an approved system must be reviewed and approved by the district school board before being used to evaluate assess instructional personnel or school administrators. Upon request by a school district, the department shall provide assistance in developing, improving, or reviewing an evaluation system.

(7) MEASUREMENT OF STUDENT LEARNING GROWTH.—

(a) By June 1, 2011, the Commissioner of Education shall approve a formula to measure individual student learning growth on the Florida Comprehensive Assessment Test (FCAT) administered under s.1008.22 (3) (c) 1. The formula must take into consideration each student’s prior academic performance. The formula must not set different expectations for student learning growth based upon a student’s gender, race, ethnicity, or socioeconomic status. In the development of the formula, the commissioner shall consider other factors such as a student’s attendance record, disability status, or status as an English language learner. The commissioner shall select additional formulas as appropriate for the remainder of the statewide assessments included under s. 1008.22 and continue to select formulas as new assessments are implemented in the state system. After the commissioner approves the formula to measure individual student learning growth on the FCAT and as additional formulas are selected by the commissioner for new assessments implemented in the state system, the State Board of Education shall adopt these formulas by rule.

(b) Beginning in the 2011-2012 school year, each school district shall measure student learning growth using the formula approved by the commissioner under paragraph (a) for courses associated with the FCAT. Each school district shall implement the additional student learning growth measures selected by the commissioner under paragraph (a) for the remainder of the statewide assessments included under s. 1008.22 as they become available. Beginning in the 2014-2015 school year, for grades and subjects not assessed by statewide assessments but otherwise assessed as required under s. 1008.22(8), each school district shall measure student learning growth using an equally appropriate formula. The department shall provide models for measuring student learning growth which school districts may adopt.

(c) For a course that is not measured by a statewide assessment, a school district may request, through the evaluation system approval process, to use a student achievement measure rather than a student learning growth measure if achievement is demonstrated to be a more appropriate measure of classroom teacher performance. A school district may also request to use a combination of student learning growth and achievement, if appropriate.

(d) If the student learning growth in a course is not measured by a statewide assessment but is measured by a school district assessment, a school district may request, through the evaluation system approval process, that the performance evaluation for the classroom teacher assigned to that course include the learning growth of his or her students on FCAT Reading or FCAT Mathematics. The request must clearly explain the rationale supporting the request. However, the classroom teacher’s performance evaluation must give greater weight to student learning growth on the district assessment.
(e) For classroom teachers of courses for which the district has not implemented appropriate assessments under s. 1008.22(8) or for which the school district has not adopted an equally appropriate measure of student learning growth under paragraphs (b)-(d), student learning growth must be measured by the growth in learning of the classroom teacher’s students on statewide assessments, or, for courses in which enrolled students do not take the statewide assessments, measurable learning targets must be established based upon the goals of the school improvement plan and approved by the school principal. A district school superintendent may assign to instructional personnel in an instructional team the student learning growth of the instructional team’s students on statewide assessments. This paragraph expires July 1, 2015.

(8) RULEMAKING.—The State Board of Education shall adopt rules pursuant to ss. 120.53(1) and 120.54 which, establish uniform procedures for the submission, review, and approval of district evaluation systems and reporting requirements procedures for the annual evaluation of instructional personnel and school administrators; specific, discrete standards for each performance level required under subsection (2) to ensure clear and sufficient differentiation in the performance levels and to provide consistency in meaning across school districts; the measurement of student learning growth and associated implementation procedures required under subsection (7); a process to permit instructional personnel to review the class roster for accuracy and to correct any mistakes relating to the identity of students for whom the individual is responsible; and a process for monitoring school district implementation of evaluation systems in accordance with this section. Specifically, the rules shall establish a student learning growth standard that if not met will result in the employee receiving an unsatisfactory performance evaluation rating. In like manner, the rules shall establish a student learning growth standard that must be met in order for an employee to receive a highly effective rating and a student learning growth standard that must be met in order for an employee to receive an effective rating.

Section 3. Subsection (8) of section 1008.22, Florida Statutes, is amended to read:

1008.22 Student assessment program for public schools.— (8) LOCAL

ASSESSMENTS.—

(a) Measurement of the learning gains of students in all subjects and grade levels other than subjects and grade levels required for the state student achievement testing program is the responsibility of the school districts.

(b) Beginning with the 2014-2015 school year, each school district shall administer for each course offered in the district a student assessment that measures mastery of the content, as described in the state-adopted course description, at the necessary level of rigor for the course. Such assessments may include:

1. Statewide assessments.

2. Other standardized assessments, including nationally recognized standardized assessments.

3. Industry certification examinations.

4. District-developed or district-selected end-of-course assessments.

(c) The Commissioner of Education shall identify methods to assist and support districts in the development and acquisition of assessments required under this subsection. Methods may include developing item banks, facilitating the sharing of developed tests among school districts, acquiring assessments from state and national curriculum-area organizations, and providing technical assistance in best professional practices of test development based upon state-adopted curriculum standards, administration, and security.

Section 4. Paragraphs (c) and (e) of subsection (1) of section 1012.22, Florida Statutes, are amended to read: 1012.22 Public school personnel; powers and duties of the district school board.—The district school board shall:

(1) Designate positions to be filled, prescribe qualifications for those positions, and provide for the appointment, compensation, promotion, suspension, and dismissal of employees as follows, subject to the requirements of this chapter:

(c) Compensation and salary schedules.—

1. Definitions.—As used in this paragraph:

a. “Adjustment” means an addition to the base salary schedule that is not a bonus and becomes part of the employee’s permanent base salary and shall be considered compensation under s. 121.021(22).

b. “Grandfathered salary schedule” means the salary schedule or schedules adopted by a district school board before July 1, 2014, pursuant to subparagraph 4.

c. “Instructional personnel” means instructional personnel as defined in s. 1012.01(2) (a)-(d), excluding substitute teachers.

d. “Performance salary schedule” means the salary schedule or schedules adopted by a district school board pursuant to subparagraph 5.
2. Cost-of-living adjustment.—A district school board may provide a cost-of-living salary adjustment if the adjustment:
   a. Does not discriminate among comparable classes of employees based upon the salary schedule under which they are compensated.
   b. Does not exceed 50 percent of the annual adjustment provided to instructional personnel rated as effective.

3. Advanced degrees.—A district school board may not use advanced degrees in setting a salary schedule for instructional personnel or school administrators hired on or after July 1, 2011, unless the advanced degree is held in the individual’s area of certification and is only a salary supplement.

4. Grandfathered salary schedule.—
   a. The district school board shall adopt a salary schedule or salary schedules to be used as the basis for paying all school employees hired before July 1, 2014. Instructional personnel on annual contract as of July 1, 2014, shall be placed on the performance salary schedule adopted under subparagraph (c).

5. Instructional personnel on continuing contract or professional service contract may opt into the performance salary schedule if the employee relinquishes such contract and agrees to be employed on an annual contract under s. 1012.335. Such an employee shall be placed on the performance salary schedule and may not return to continuing contract or professional service contract status. Any employee who opts into the performance salary schedule may not return to the grandfathered salary schedule.

   b. In determining the grandfathered salary schedule for instructional personnel, a district school board must base a portion of each employee’s compensation upon performance demonstrated under s. 1012.34 and shall provide differentiated pay for both instructional personnel and school administrators based upon district-determined factors, including, but not limited to, additional responsibilities, school demographics, critical shortage areas, and level of job performance difficulties.

5. Performance salary schedule.—By July 1, 2014, the district school board shall adopt a performance salary schedule that provides annual salary adjustments for instructional personnel and school administrators based upon performance determined under s. 1012.34. Employees hired on or after July 1, 2014, or employees who choose to move from the grandfathered salary schedule to the performance salary schedule shall be compensated pursuant to the performance salary schedule once they have received the appropriate performance evaluation for this purpose. However, a classroom teacher whose performance evaluation utilizes student learning growth measures established under s. 1012.34(7) (e) shall remain under the grandfathered salary schedule until his or her teaching assignment changes to a subject for which there is an assessment or the school district establishes equally appropriate measures of student learning growth as defined under s. 1012.34 and rules of the State Board of Education.

   a. Base salary.—The base salary shall be established as follows:
      (I) The base salary for instructional personnel or school administrators who opt into the performance salary schedule shall be the salary paid in the prior year, including adjustments only.
      (II) Beginning July 1, 2014, instructional personnel or school administrators new to the district, returning to the district after a break in service without an authorized leave of absence, or appointed for the first time to a position in the district in the capacity of instructional personnel or school administrator shall be placed on the performance salary schedule.

   b. Salary adjustments.—Salary adjustments for highly effective or effective performance shall be established as follows:
      (I) The annual salary adjustment under the performance salary schedule for an employee rated as highly effective must be greater than the highest annual salary adjustment available to an employee of the same classification through any other salary schedule adopted by the district.
      (II) The annual salary adjustment under the performance salary schedule for an employee rated as effective must be equal to at least 50 percent and no more than 75 percent of the annual adjustment provided for a highly effective employee of the same classification.
      (III) The performance salary schedule shall not provide an annual salary adjustment for an employee who receives a rating other than highly effective or effective for the year.

   c. Salary supplements.—In addition to the salary adjustments, each district school board shall provide for salary supplements for activities that must include, but are not limited to:
(I) Assignment to a Title I eligible school.

(II) Assignment to a school in the bottom two categories of the school improvement system under s. 1008.33 such that the supplement remains in force for at least 1 year following improved performance in that school.

(III) Certification and teaching in critical teacher shortage areas. Statewide critical teacher shortage areas shall be identified by the State Board of Education under s. 1012.07. However, the district school board may identify other areas of critical shortage within the school district for purposes of this sub-sub-subparagraph and may remove areas identified by the state board which do not apply within the school district.

(IV) Assignment of additional academic responsibilities.

If budget constraints in any given year limit a district school board’s ability to fully fund all adopted salary schedules, the performance salary schedule shall not be reduced on the basis of total cost or the value of individual awards in a manner that is proportionally greater than reductions to any other salary schedules adopted by the district.

(e) Transfer and promotion.—The district school board shall act on recommendations of the district school superintendent regarding transfer and promotion of any employee. The district school superintendent’s primary consideration in recommending an individual for a promotion must be the individual’s demonstrated effectiveness under s. 1012.34.

Section 5. Section 1012.335, Florida Statutes, is created to read:

1012.335 Contracts with instructional personnel hired on or after July 1, 2011.— (1) DEFINITIONS.—As used in this section, the term:

(a) “Annual contract” means an employment contract for a period of no longer than 1 school year which the district school board may choose to award or not award without cause.

(b) “Instructional personnel” means instructional personnel as defined in s. 1012.01(2)(a)-(d), excluding substitute teachers.

(c) “Probationary contract” means an employment contract for a period of 1 school year awarded to instructional personnel upon initial employment in a school district. Probationary contract employees may be dismissed without cause or may resign without breach of contract. A district school board may not award a probationary contract more than once to the same employee unless the employee was rehired after a break in service for which an authorized leave of absence was not granted. A probationary contract shall be awarded regardless of previous employment in another school district or state.

(2) EMPLOYMENT.—

(a) Beginning July 1, 2011, each individual newly hired as instructional personnel by the district school board shall be awarded a probationary contract. Upon successful completion of the probationary contract, the district school board may award an annual contract pursuant to paragraph (c).

(b) Beginning July 1, 2011, an annual contract may be awarded pursuant to paragraph (c) for instructional personnel who have successfully completed a probationary contract with the district school board and have received one or more annual contracts from the district school board.

(c) An annual contract may be awarded only if the employee:

1. Holds an active professional certificate or temporary certificate issued pursuant to s. 1012.56 and rules of the State Board of Education.
2. Has been recommended by the district school superintendent for the annual contract based upon the individual’s evaluation under s. 1012.34 and approved by the district school board.
3. Has not received two consecutive annual performance evaluation ratings of unsatisfactory, two annual performance evaluation ratings of unsatisfactory within a 3-year period, or three consecutive annual performance evaluation ratings of needs improvement or a combination of needs improvement and unsatisfactory under s. 1012.34.

(3) VIOLATION OF ANNUAL CONTRACT.—Instructional personnel who accept a written offer from the district school board and who leave their positions without prior release from the district school board are subject to the jurisdiction of the Education Practices Commission.

(4) SUSPENSION OR DISMISSAL OF INSTRUCTIONAL PERSONNEL ON ANNUAL CONTRACT.—Any instructional personnel with an annual contract may be suspended or dismissed at any time during the term of the contract for just cause as provided in subsection (5). The district school board shall notify the employee in writing whenever charges are made and may suspend such person without pay. However, if the charges are not sustained, the employee shall be immediately reinstated and his or her back pay shall be paid. If the employee wishes to contest the charges, he or she must, within 15 days after receipt of the written notice, submit a written request for a hearing to the district school board. A direct hearing shall be conducted by the district school board or a subcommittee thereof within 60 days after receipt of the written appeal. The hearing shall be conducted in accordance with ss. 120.569 and 120.57. A majority
vote of the membership of the district school board shall be required to sustain the district school superintendent’s recommendation. The district school board’s determination is final as to the sufficiency or insufficiency of the grounds for suspension without pay or dismissal. Any such decision adverse to the employee may be appealed by the employee pursuant to s. 120.68.

(5) JUST CAUSE.—The State Board of Education shall adopt rules pursuant to ss. 120.536(1) and 120.54 to define the term “just cause.” Just cause includes, but is not limited to:

(a) Immorality.
(b) Misconduct in office. (c) Incompetency.
(d) Gross insubordination. (e) Willful neglect of duty.
(f) Being convicted or found guilty of, or entering a plea of guilty to, regardless of adjudication of guilt, any crime involving moral turpitude.

(6) LIMITATION.—An individual newly hired as instructional personnel by a school district in this state under this section is ineligible for any contract issued under s. 1012.33.

Section 6. Paragraph (b) of subsection (16) of section 1002.33, Florida Statutes, is amended to read:

1002.33 Charter schools.—

(16) EXEMPTION FROM STATUTES.—

(b) Additionally, a charter school shall be in compliance with the following statutes:

1. Section 286.011, relating to public meetings and records, public inspection, and criminal and civil penalties.
2. Chapter 119, relating to public records.
3. Section 1003.03, relating to the maximum class size, except that the calculation for compliance pursuant to s. 1003.03 shall be the average at the school level.
4. Section 1012.22(1)(c), relating to compensation and salary schedules.
5. Section 1012.33(5), relating to workforce reductions.
6. Section 1012.335, relating to contracts with instructional personnel hired on or after July 1, 2011.

Section 7. Paragraph (h) of subsection (2) of section 1003.621, Florida Statutes, is amended to read:

1003.621 Academically high-performing school districts.—It is the intent of the Legislature to recognize and reward school districts that demonstrate the ability to consistently maintain or improve their high-performing status. The purpose of this section is to provide high-performing school districts with flexibility in meeting the specific requirements in statute and rules of the State Board of Education.

(4) The State Board of Education shall adopt rules pursuant to ss. 120.536(1) and 120.54, Florida Statutes, to establish the procedures for applying for the exemptions and the criteria for renewing the exemptions. Section 20. If any provision of this act or its application to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

Section 21. Except as otherwise expressly provided in this act and except for this section, which shall take effect upon this act becoming a law, this act shall take effect July 1, 2011.

Appendix D - Evidence-Based Practices Rubrics and Situational Context Factors

POLK COUNTY SCHOOLS TEACHER EVALUATION SYSTEM

This document identifies and describes the evidence-based teaching practices and situational context factors that make up one of the three primary elements of the district’s teacher evaluation system. Classroom teachers are rated by a certified evaluator on 23 Essential Performance Criteria (EPC) clustered under four Domains. These EPCs focus on evidence-based teaching practices and behaviors linked to the Florida Educator Accomplished Practices (FEAPs). Each of the 23 EPCs has a related Rating Rubric. Rating points for each EPC are earned when an evaluator applies the related rubric rating description to a teacher’s professional practices based upon evidence collected throughout the year. Points earned from the EPC ratings are combined with the teacher’s situational context points accounting for 48% of a teacher’s Overall Annual Performance Evaluation Rating.

Evidence-Based Practices Rubrics are used in the district’s teacher evaluation system in the following manner:

✔ Annual Teacher Self-Evaluation
✔ Overall Annual Performance Evaluation by Administrator
✔ Professional Learning Processes (Florida Educator Accomplished Practices- 2010 and Marzano Evaluation 41 Strategies and 19 Indicators)
✔ Assurance of Due Process
| Florida Educator Accomplished Practices: Foundational Principle 2 - The effective educator demonstrates deep and comprehensive knowledge of the subject taught & Instructional Design and Lesson Planning | Possible evidence may include sources such as: Use of appropriate researched-based best practices (i.e. CRISS, Kagan, LFS, etc.), lesson plans, administrative conversations with the teacher, implementation of professional development, observations, compliance of content standards and curriculum maps... |

Significant and varied evidence exists that the teacher has established standards for managing student behavior.

Behavioral expectations and problem-solving strategies are clearly defined; monitoring of student behavior is consistent and preventative. Classroom interactions are characterized by on-task student behavior. Responses to student misbehaviors are appropriate and subtle. Positive behavior is pervasively encouraged and reinforced.

Adequate evidence exists that the teacher has established standards for managing student behavior.

Behavioral expectations and problem-solving strategies are defined; monitoring of student behavior is consistent and classroom interactions are characterized by on-task student behavior. Responses to student misbehaviors are appropriate. Positive behavior is encouraged and reinforced.

Partial evidence exists that the teacher has established standards for managing student behavior.

Behavioral expectations and problem-solving strategies are defined; monitoring of student behavior is inconsistent and/or the classroom environment is characterized by off-task student behavior. Responses to student misbehaviors may at times be inappropriate, but improvements in responses are being made. Positive behavior is seldom encouraged or reinforced.

Instructional Assistance Form and Guidelines

Instructional Assistance Conference Guidelines

1. The Instructional Assistance Conference is a professional conversation between the teacher and the principal to identify specific areas of concern coupled with suggested action to be taken to assist the teacher in helping students achieve learning gains.

2. The conference should produce collaborative ideas for suggested actions to assist the teacher.

3. This type of collaborative professional activity is meant to be used with teachers who may need assistance in targeted areas.

4. Monitoring is informal; however, an initial meeting and exit meeting are required.

5. Once strategies are defined, the teacher is provided support personnel who are available to assist in the successful completion of the strategies. One action step will be to name persons designated to assist the teacher as needed with items noted on the Instructional Assistance Conference Form.

Professional Development Plan (PDP) and Cross-Walk

**Category II** teachers who receive a rating of *Unsatisfactory* on the *Overall* Annual Teacher Performance Evaluation Rating Form must be placed on a Professional Development Plan (PDP). This process is optional for teachers receiving an overall rating of Needs Improvement. When applied, the PDP must be prepared in a collaborative conference between the teacher and designated administrator within 10 days of the noted deficiency. The PDP is designed to provide up to 90 days of assistance; helping the teacher to correct deficiencies within the prescribed period of time and in accordance with the Student Success Act (see Appendix A). However, a Professional Development Plan (PDP) may be implemented at any time, when a **Category II teacher** continues to demonstrate unsatisfactory performance related to the specific Essential Performance Criteria.

Professional Development Addendum

2012 - 2013
Student Services Evaluation System

Changes

Why?

Student Success Act 2011 (Student Services personnel are classified “designated non-classroom teachers”)

What is mostly the same:

- Still has Category I and II
- IPP
- Self Evaluation
- End of year Evaluation (Overall Annual Performance Evaluation Rating)
- PEC process
- PDP

What is different:

- Possible focused observations/walkthroughs as needed
- Clarify changes to Category I (out of district personnel) and Category II
- Student Services Overall Annual Performance Evaluation Rating (SSOAPER), EPC guide (added sources of evidence)
- Rubric is 4 point scale instead of 5 (Highly Effective, Effective, Needs Improvement/Developing, Unsatisfactory)
- Performance pay is legislatively mandated for the 2014-2015 school year.
- Cumulative FCAT using a student growth model will eventually be used to determine Performance Pay
- Points will be earned for each EPC, the goal, and student learning gains.
  - EPC’s as rated by your supervisor will total 70% of your evaluation
o Your goal will count as 10%, but they will also be considered in your EPC’s
o **Reading learning gains based on FCAT** for 2011-12 for the district will count for 20% (*School wide for Counselors/district wide for School Psychologists and School Social Workers*). This information will be provided by the district.

THESE QUESTIONS ARE USED BY THE ADMINISTRATOR TO GATHER DATA RELATED TO EACH OF THE ESSENTIAL PERFORMANCE CRITERIA. POSSIBLE SOURCES OF INFORMATION ARE PROVIDED WITH EACH EPC WHICH MAY BE USED TO DEMONSTRATE PERFORMANCE LEVELS. THESE SOURCES ARE NOT INTENDED TO BE ALL INCLUSIVE AND ARE INTENDED TO FACILITATE COMMUNICATION BETWEEN SSP AND SUPERVISOR.

1. PLANNING FOR LEARNING:

What strategies have you used to effectively manage time?

Are assessments completed within the 60 day timeline and are unavoidable delays documented?

Give an example of how have you developed goals for a student using the problem solving model?

Sources of evidence may include: observation, 60 day timeline report, case summary form, schedules in Outlook Calendar, timelines for submitting psychological reports, PST forms, timely submission of accountability paperwork, etc.

2. INSTRUCTIONAL STRATEGIES:

What strategies do you use to adjust for a student’s cultural background, developmental level, and learning style? Please provide specific examples.

EPC Rating Rubrics
Behaviorally anchored statements that operationally define the rating labels of Highly Effective, Effective, Needs Improvement/Developing, and Unsatisfactory as applied to describe performance related to the Essential Performance Criteria.

Highly Effective – a rating that indicates that there is significant and varied evidence of teacher performance at the highest level of quality and consistency of practice; demonstrated practice is exemplary in relation to the rubric description for an EPC as documented through observation and other appropriate data gathering methods.

Effective – a rating that indicates that there is adequate evidence of teacher performance at a high level of quality and consistency of practice; demonstrated practice is excellent in relation to the rubric description for an EPC as documented through observation and other appropriate data gathering methods.

Needs Improvement/Developing – a rating that indicates that there is partial evidence of teacher performance at a high level of quality and consistency of practice; demonstrated practice is lower than the meeting the expectation but is developing in relation to the rubric description for an EPC as evidenced through observation and other appropriate data gathering methods.

Unsatisfactory - a rating that indicates that there is little or no evidence of teacher performance at a high level of quality and consistency of practice; demonstrated practice is significantly lower than or non-existent toward meeting the expectation in relation to the rubric description for an EPC as evidenced through observation and other appropriate data gathering methods.

Evaluation
See Performance Evaluation

Evaluative Feedback
Feedback given by an administrator to a teacher during the summative evaluation conference as part of the annual performance rating.
Feedback Loops
A process that allows for continuous dialogue and collaboration between teachers and administrators that build sustainable, professional learning communities (reciprocal feedback).

Florida Educator Accomplished Practices (FEAPs)
Florida’s core standards for effective educators. These standards form the foundation for the state’s teacher preparation programs, educator certification requirements, and school district instructional personnel appraisal systems.

Focused Observation
An observation by an administrator while conducting classroom walkthroughs and other observations. It is used to gather specific information about a teacher’s use of evidence-based practices for specific essential performance criteria. Data from this observation is analyzed and rated in order to examine the essential performance criteria at a more detailed level and for identifying a teacher’s professional learning needs. It is one of two primary sources of information applied when rating a teacher on each essential performance criteria.

Formal Observation
Consists of an observation for a full class period (45 minutes or more) as deemed appropriate for various levels. This observation includes a planning conference (pre-observation conference) and a reflection conference (post-observation conference) with the teacher. The planning and reflection conferences should be scheduled 1-5 days preceding and following the observation.

Granular Level
Technically, a very detailed level.

High Probability Instructional Strategies
Research-based strategies that have been identified in contemporary research as having a higher probability of raising student learning when they are used at the appropriate level of implementation and within the appropriate instructional context.

Highly Effective – see EPC Rating Rubrics

Informal Observation
An observation that can be announced or unannounced and may or may not include an observation of the full class period (10 to 30 minutes). Typically, there is no planning or reflection conference.

Instructional Assistance Conference/Form
A process used to promote prompt professional conversations regarding instructional assistance with teachers. This process and form does not replace the formal written plan of improvement required in Section 15.7 and is not disciplinary in nature. It is intended to facilitate professional conversations between the teacher and administrator.

Interim Performance Evaluation
A mid-year conference/conversation that takes place between a teacher and an administrator designed to focus on an analysis of the status of strategy implementation and student performance data between the initial planning session and summary review. A teacher’s progress towards TARGET plans and ARROW documentation is also discussed at this time.

Learning Target
State determined or district determined goal for measurement of student progress.
M

Marzano Evaluation Model

N

Needs Improvement/Developing – see EPC Rating Rubrics
Non-FCAT Subject/Grade Level Teachers
Teachers who teach a grade level or subject area that is not included as part of the Florida Comprehensive Assessment Test.

O

Observation Instrument – Appendix E
A comprehensive observation tool used by an administrator while conducting classroom walkthroughs, informal observations, and formal observations. The instrument is used to gather information about a teacher’s use of evidence-based practices for essential performance criteria across all four domains.

On-going Professional Dialogue
Focused and collaborative conversations that occur throughout the year between a teacher and an administrator on improving student learning experiences and student engagement practices. The dialogue is designed to create a differentiated teacher professional growth plan with the objective of improving professional practices and student achievement.

Organizational Context
The climate and environment in which an individual works.

Overall Annual Performance Evaluation Rating (OAPER)
Derived from the combination of values from points awarded to teachers individually based on student achievement data from the students matched to the teacher, ratings (Points) awarded to teachers individually based on demonstrated performance tied to rubrics and combined with points earned related to the teacher’s situational context pertaining to the impact of specified student demographics, and ratings (Points) awarded to teachers individually based on self-evaluation. An annual contract will not be awarded if a teacher receives two consecutive annual performance evaluation ratings of unsatisfactory under s. 1012.34, two annual performance evaluation ratings of unsatisfactory within a 3-year period under s. 1012.34, or three consecutive annual performance evaluation ratings of needs improvement or a combination of needs improvement and unsatisfactory under s. 1012.34.

Q

Quality Assurance
The systematic monitoring and evaluation of the various aspects of teacher observation to maximize the probability that minimum standards of quality are attained by the evaluator.
Race to the Top (RTTT)
A federal grant program that will reward states for raising student achievement and promoting reform. Money will be granted to districts that participate over a four-year span and can only be used within the scope of the federal guidelines.

School Improvement Plan (SIP)
A formal plan delineating improvement strategies based upon a school’s identified student subgroup needs. The plan is approved by the school board, submitted to the state department of education, and is public record.

Self-Evaluation
A part of the teacher evaluation where the teacher reflects individually on his/her practices as delineated in the rubric descriptions and then rates him or herself accordingly for each essential performance criteria.
The points earned from this self-evaluation make up 1.7% of a teacher’s Overall Annual Performance Evaluation Rating.

Situational Context
The conditions that exist in the teaching environment that are unique to the individual teacher’s assigned students. (See Student Demographic Impact Factors)

Student Demographic Impact Factors
Adequate yearly progress variables identified as significant factors impacting a teacher’s situational context. These factors are unique to each teacher. These factors include the percentage of students on free or reduced lunch, the percentage of students with exceptionalities, and the percentage of students whose primary language is other than English.

Student Learning Gain (SLG)
A student demonstrates learning gains by maintaining a score of 3 or higher on the FCAT 2.0 and EOCs, or at level 4 or higher on the FAA; by increasing their score by 1 or more achievement levels; or, for students that maintain FCAT 2.0 score at level 1 or 2, by demonstrating more than one year’s growth on the FCAT 2.0 vertical scale. Students remaining at level 1, 2, or 3 on the FAA can demonstrate gains by scoring 5 points higher than in the previous year. Students remaining at level 1 or 2 after taking an EOC can demonstrate gains by increasing their common scale score.

Student Performance Data Source
FCAT and other state assessment data credited to teachers based on the students the teacher is teaching.

Summative Evaluation
The end of the evaluation cycle, which includes an administrator/teacher conference related to the teacher's Overall Annual Performance Evaluation Rating.

Teacher Evaluation Planning Session
Conference between teacher and administrator designed to focus on evaluation processes related to categories one and two. Discussion may include, but is not limited to, the following:
 a. Procedures and timeline
 b. Essential performance criteria c. Collegial planning
 d. Areas of continuous professional improvement

Teacher Evaluation System
Enhancing Student Achievement through Teacher Evaluation and Learning is a collaborative system between teachers and administrators focused on improving the quality of professional practices resulting in increased student learning.
Teachers’ Action Research Goals and Educational Timeline (TARGET)
Defines aspirational learning goals in a plan specific to the teacher and learning gains for students at the school. This timeline requires gathering and disaggregating student data for broad and specific patterns of need for students directly or indirectly assigned to the teacher. It involves the teacher in determining the learning objectives that will help students become successful based upon disaggregated data. Also, it entails the development of student outcome goals that provide the teacher with ongoing targets for instructional strategies to implement at the school. Finally, this timeline provides opportunities to demonstrate that professional learning strategies have helped students become successful based upon disaggregated data.

Timely and Actionable Feedback
Prompt and specific behavioral feedback an administrator provides to a teacher including the data collected during an observation and clarifying performance expectations supporting the teacher’s forward planning and continuous improvement of professional practices.

Trend Data
The past performance of a particular individual or group as measured over some period of time.

U
Unsatisfactory – See EPC Rating Rubrics

V

Value-Added Model
Process developed by the Department of Education to measure student learning growth.

W

Walkthrough Observation
An observation that can be announced or unannounced and generally consists of very brief classroom observations of 3-5 minutes in length in which the observer gathers evidence regarding classroom instructional practices and behaviors on a regular basis.

Documentation of Collective Bargaining

EVIDENCE OF COLLECTIVE BARGAINING

May 26, 2011

Please be advised that the Polk County School District and the Polk Education Association have been actively engaged in collective bargaining negotiations and/or teacher evaluation system development consistent with the precepts contained in SB 736 and the Race to the top grant in order to revise the teacher system for the 2011-2012 school year. It remains our intent to continue good faith negotiations in accordance with Chapter 447. We will continue to work diligently to design a new teacher evaluation system that combines the Race to the Top requirements with those required in the recently amended section 1012.34, Florida Statutes, and Rules 6B-4.010 and 6A.5.065, FAC.

The checklist and the activities of negotiations included with this letter will chronicle what we have accomplished, the process that we are using, the challenges that we now or will soon confront and the work yet to be developed and negotiated. It is also our intent that this document will assist DOE in ensuring that we have met the requirements in each area for the RTTT grant and SB 736, while also satisfying requirements for State Board Rule. Through the district and union’s ongoing bargaining process, there will be ongoing negotiation and refinement in the submitted documents and processes which are reflected in those documents.

Upon completion of the bargaining process, it is the intent of the bargaining parties to have fully addressed and complied with the law and the mandates of the Race to the Top grant while maintaining a focus on the needs of the district with regard to time, capacity, flexibility, and fairness. For this reason, the parties agree to maintain ongoing, regular meetings to complete bargaining and then to continue meeting in order to address any substantive revisions required following the Department of Education’s review and to monitor the ongoing implementation of the new system.
