Points will be given for the appeal, creativity, originality, craftsmanship, and ease of play. It must be original, using copyright free materials. The creative game must be student created but electronics may be used in its execution. The contents of the box should include directions and game materials. The box should be limited to the size of a Xerox Paper Box. Contents may not be larger than the box itself with the lid on top. When preparing your game if box needs to be cut down, you should cut down the box so the lid will fit and all the contents will fit inside. – Please try to use a Xerox Paper box.
