

SQRQCQ

Survey, Question, Read, Question, Compute, Question
A Strategic Math Strategy

<p>SURVEY Scan to understand nature of problem (read the questions) Clarify unknown terms</p>	
<p>QUESTION What is the nature of the problem? Change to a question, draw a diagram, table or chart to help you visualize.</p>	
<p>READ Read carefully. Highlight, circle, etc. the passage, look for details and relationships</p>	
<p>QUESTION What are the givens? What are the unknowns? Check units you are working in, what processes do you need?</p>	
<p>COMPUTE Calculate in a systematic manner</p>	
<p>QUESTION Does the answer make sense? Did you double check the math? Is it reasonable?</p>
