

2000 Polk County Middle School E-Team Tournament

Introduce yourself. Welcome the participants and give the significance of this particular competition—the six teams with the highest scores will compete in the final round. Trophies will be awarded for “Best in Grade Level.” Additionally, each team member and head coach of the six finalist teams will receive a trophy. A school trophy will also be awarded to these six schools. All trophies have been donated by the Polk Economic Education Council. We would like to thank the Council for its support which includes not only the trophies, but also the ribbons, T-shirts and lunch.

Have the judges and scorekeepers introduce themselves.

Have the team coaches come forward to introduce themselves and the team members.

Conduct a button check.

Begin the 5-point question round for 6th grade.

ECON 1. Machinery used to produce goods is classified as which factor of production?

Answer: capital

ECON 2. Which one or ones of the following four are examples of complementary goods for a bicycle?

- *1. helmet
- *2. light
- *3. horn
- *4. reflector

MATH 3. Mindy read the following advertisement in the newspaper: The sound track for the movie *Pocahontas* is selling for \$8.95. The price does not include a \$2.00 mail-in rebate that is available. Excluding the cost of postage, what will be the total cost to Mindy of this sound track supposing she must pay 6% sales tax and she then takes advantage of the \$2.00 mail-in rebate?

Answer: \$7.49

(Note: $\$8.95 \times 1.06 = \9.487 ; $\$9.49 - \$2.00 = \$7.49$)

ECON 4. Fill in the blank. The desire to earn a _____ affects all phases of business activity.

Answer: profit

ENG 5. Complete the following sentence using between or among.

We decided to divide the cost of the trip _____ the three of us.

Answer: among

For the next three questions, answer *increase* or *decrease* to describe the likely effect of the variable described in the given situation.

ECON 6. the price of eggs if the supply is cut in half

Answer: increase

ECON 7. the price of tomatoes after a bumper crop

Answer: decrease

ECON 8. the number of lap top computers people will be willing to buy if the price is reduced by 25%

Answer: increase

The next question concerns the following situation: A piece of cheese is dropped on the floor. A mouse sniffs the air and starts moving toward the cheese.

SCI 9. Fill in respectively the two blanks. In scientific terms the cheese in this situation is described as the _____, while the mouse's movement toward the cheese is known as the _____.

Answer: stimulus, response

ECON 10. Fill in the blank. According to your glossary, _____ is the basic economic condition arising because resources are limited and human wants are not.

Answer: scarcity

End of 5-point question round for 6th grade.

Have the judges turn over their question sets. Announce the two-minute break during which coaches may make substitutions and discuss with their teams.

Time 2 minutes.

Conduct a button check after the break. Announce cumulative scores.

Begin the 10-point question round for 6th grade.

ECON 11. Letter scramble. Unscramble the following letters to form a two-word economic term from your glossary. Identify the term.

First word: C, I, I, D, E, T, F

Second word: I, N, N, E, G, D, P, S

Answer: deficit spending

MATH 12. Jerome Smith, an automobile dealer, purchased an auto from the company he represented. The purchase price was \$28,200. He received a 25% dealer discount on the purchase price. What was the net cost of the car to Mr. Jones?

Answer: \$21,150

ECON 13. Which one or ones of the following three statements will likely be true if the price of a particular product increases?

- *1. Suppliers of this product will increase the quantity they produce.
- *2. Potential suppliers of this product will be attracted into the market.
- *3. Total output will increase.

ENG 14. Match each of the four authors to his or her work.

<u>Authors</u>	<u>Works</u>
A. Beverly Cleary	1. <i>Mrs. Frisby and the Rats of NIMH</i>
B. Katherine Paterson	2. <i>Stuart Little</i>
C. E.B. White	3. <i>Bridge to Terabithia</i>
D. Robert C. O'Brien	4. <i>Dear Mr. Henshaw</i>

Answer: A-4, B-3, C-2, D-1

MATH 15. Sally has started collecting paper currency. She has 2 Franklins, 3 Hamiltons, 4 Jacksons, and 8 Lincolns. What is the current value of her collection?

Answer: \$350 (Note: 2 x \$100 + 3 x \$10 + 4 x \$20 + 8 x \$5)

SCI 16. Coal, iron, and oil are examples of what type of resource?

Answer: natural (accept: land or non-renewable)

ECON 17. I will give you every other letter of a term from your glossary. Identify the term.

__ R __ D __ C __ I __ I __ Y

Answer: productivity

ECON 18. I will give you all the vowels in reverse order of a term from your glossary. Identify the term.

E U __ E __ E __

Answer: revenue

MATH 19. Find the average in inches of the following four measurements: 18 inches, 1-and-one-fourth yards, 27 inches, and 2-and-one-half feet.

Answer: 30 [Note: (18 + 45 + 27 + 30) ÷ 4; 120 ÷ 4 = 30]

SCI 20. Fill in the blank.

A natural dye that is used to identify acids and bases is known as a or an _____.

Answer: indicator

End of 10-point question round for 6th grade.

Have the judges turn over their question sets. Announce the two-minute break during which coaches may make substitutions and discuss with their teams.

Time 2 minutes.

Conduct a button check after the break.

Announce cumulative scores.

Begin the 15-point question round for 6th grade.

ECON 21. Which one of the following four is determined by the amount that consumers have and are willing to spend?

1. how to produce
- *2. for whom to produce
3. when to produce
4. how much to produce

ECON 22. Fill in the blank with the missing 12-letter term from your glossary of economic terms.

_____ is the use of an alternative source to replace a scarce resource.

Answer: substitution

SCI 23. What word is synonymous with Celsius?

Answer: centigrade

ENG 24. Identify respectively each of the nouns in the following sentence as a common or a proper noun:

Allen Jones, a teacher at Central Middle School, studies the business news in the Lakeland Ledger very carefully but never invests in stocks or consults a stockbroker.

Answer: Allen Jones – proper teacher – common
Central Middle School – proper news – common
Lakeland Ledger – proper stocks – common
stockbroker – common

For the next four questions tell which one of the three acronyms—FTC, FICA, or FDIC--is associated with the situation described.

ECON 25. A bank patron is concerned with the protection offered to his savings account.

Answer: FDIC

ECON 26. A businessman thinks his competitor is acting unfairly.

Answer: FTC

ECON 27. A recent retiree is seeking advice on her social security payments.

Answer: FICA

ECON 28. A recent widow is concerned about her survivor's benefits.

Answer: FICA

ECON 29. Identify the meanings for each of these three acronyms.

Answer: Federal Insurance Contributions Act; Federal Trade Commission;
Federal Deposit Insurance Corporation

MATH 30. There are 38 rows with 2 dozen seats each in a certain theater. An additional 24 people are allowed to stand during a performance. What is the total number of people who can attend a performance?

Answer: 936 (Note: $38 \times 2 \times 12 + 24 = 936$)

End of the 15-point round for the 6th grade.

It is time for the 30-point team question entitled "Checkers."

For this team question you will be given Handout 6-1-1. Do not distribute the handouts until you are instructed to do so.

This team question is worth a total of 30 points. Each question is worth 3 points.

You will be given 4 minutes to complete the handouts. You are to identify as your team answer sheet one handout by writing your team number in the upper left-hand corner. This is the one handout to be collected and scored.

Distribute the handouts face down. (Pause.) Turn the handouts over and begin.

Time 4 minutes.

STOP! Hold your team answer sheet in the air. (Collect.)

Handout 6-1-1
Team # _____

CHECKERS

Identify the following from the descriptions. Use the color clues to assist. Write your answers on the squares beneath the descriptions.

Native American who aided the British during the War of 1812 against the westward movement of white settlers	first color in the visible spectrum; has the longest wavelength	member of a family who is considered a disgrace	heroine of a children's story who was amazed at how large her grandmother's teeth were	a celestial object so massive that nothing can escape its gravitation; discovery is credited to Stephen Hawking
1.	2.	3.	4.	5.
another name for the People's Republic of China	the illegal buying and selling of goods above the price fixed by the government	connected to the Mediterranean Sea by the Suez Canal	location in North Dakota of Mt. Rushmore	novel by Stephen Crane concerning a soldier in the U.S. Civil War
6.	7.	8.	9.	10.

Read answers—beginning in the upper left-hand corner, moving left to right:(3 points each)

- | | |
|---------------------------|---------------------------------|
| 1. Black Hawk | 6. Red China |
| 2. red | 7. Black market |
| 3. black sheep | 8. Red Sea |
| 4. Little Red Riding Hood | 9. Black Hills |
| 5. black hole | 10. <i>Red Badge of Courage</i> |

Announce scores from team questions. Ask if any team has a question concerning the scoring.

Have the judges turn over their question sets. Announce the two-minute break during which the 7th grade team is seated. Collect handouts and put out fresh paper and pencils if needed.)

Time 2 minutes.

Conduct a button check after the break. Announce cumulative scores.

Begin the 5-point question round for 7th grade.

GEOG 1. As president of an import-export company, Steve Johnson traveled often. In order to complete a major business deal, Steve flew to the following cities for meetings: Nairobi, Khartoum, Addis Ababa, and Cairo. Identify respectively the four countries in which Steve held his meetings.

Answer: Kenya, Sudan, Ethiopia, Egypt

ECON 2. Which one of the following four comprises the majority of business organizations in the United States?

- 1. corporation
- * 2. proprietorship
- 3. cooperative
- 4. partnership

ECON 3. Fill in the blank. An economy where the answers to basic economic questions are given by the _____ is known as a command economy.

Answer: government

MATH 4. A mathematics book is lying open on a desk. The product of the page numbers showing is 930. What are the two page numbers?

Answer: 30 and 31 (either order)

ECON 5. What type of tax are you paying when you pay a tax on goods or services consumed?

Answer: sales (tax) [accept: indirect (tax)]

- ECON** 6. Fill in the blank. One unit of ownership in a corporation is known as a certificate of _____.
- Answer: stock
- SCI** 7. Arrange the following five measurements in descending order: centimeter, kilometer, meter, micrometer, millimeter.
- Answer: kilometer, meter, centimeter, millimeter, micrometer
- ECON** 8. Fill in the blank with the missing eight-letter word. When an hourly wage earner is asked to work more than his regularly scheduled hours during the week, usually 40 hours a week, the worker gets what is called _____ pay.
- Answer: overtime
- ENG** 9. Identify the words in the following sentence which should be capitalized:
- Lieutenant Colonel Jones came to speak at the Memorial Day ceremony.
- Answer: Lieutenant, Colonel, Jones, Memorial, Day
- ECON** 10. Letter scramble. Unscramble the following letters to form a two-word economics term from your glossary. Identify the term.
- First word: T, E, E, I, F, N, B
Second word: I, I, C, E, R, N, L, P, P
- Answer: benefit principle

End of 5-point question round for 7th grade.

Have the judges turn over their question sets. Announce the two-minute break during which coaches may make substitutions and discuss with their teams.

Time 2 minutes.

Conduct a button check after the break.

Announce cumulative scores.

Begin the 10-point question round for 7th grade.

- MATH** 11. Which of the following two stores has the best buy for the same brand of cheese?
Dave's Supermarket sells a 6-ounce package of cheese for \$1.33. Gourmet Deli sells the same cheese in a 14-ounce package for \$2.56.
- Answer: Gourmet Deli (accept: "the second one")
(Note: Dave's is \$.22/ounce, and Deli's is \$.18/ounce.)
- ECON** 12. Spell the eight-letter economic terms that describes most public utilities.
- Answer: m-o-n-o-p-o-l-y

ECON 13. Which one or ones of the following four actions will likely occur if owning tropical fish suddenly becomes much more popular?

- *1. The price of tropical fish will increase.
- *2. The quantity demand for tropical fish will increase.
- *3. The quantity of tropical fish sold will increase.
- *4. The consumer cost of tropical fish will increase.

SS 14. Identify the one state in America with the following four characteristics.

- 1. It is the largest New England state in land mass.
- 2. It is the only state with a one-syllable pronunciation.
- 3. It is the only state bordered by a single state.

Answer: Maine

ECON 15. Fill in the blank. Goods purchased from other countries are called _____.

Answer: imports

ECON 16. An excise tax is often imposed on which one of the following four?

- 1. a loaf of bread
- 2. prescription medicine
- 3. real estate
- *4. fur coats

ENG 17. Identify the independent clause in the following sentence:

The Trojans were winning the war until Achilles returned to battle.

Answer: The Trojans were winning the war

GEOG 18. Which one or ones of the following four rivers are located on the continent of Europe?

- 1. Ganges
- *2. Tagus
- *3. Thames
- 4. Orinoco

ECON 19. Choose from the words elastic or inelastic to describe the type of demand for the product in the following situation: The quantity demanded for this product varies greatly depending upon the price of the product.

Answer: elastic

ECON 20. I will give you every other letter of a two-word term from your glossary of economic terms. Identify the term.

First word: _ O _ P _ T _ T _ V _

Second word: _ A _ K _ T

Answer: competitive market

End of 10-point question round for 7th grade.

Have the judges turn over their question sets. Announce the two-minute break during which coaches may make substitutions and discuss with their teams.

Time 2 minutes.

Conduct a button check after the break. Announce cumulative scores.

Begin the 15-point question round for 7th grade.

ECON 21. Which one of the following four would not be considered a marketing activity?

- *1. mining ore
2. selling books door-to-door
3. advertising on the internet
4. an actor being interviewed on a talk show about his recent movie

ECON 22. Which one of the following three does a franchise allow a firm to do?

1. obtain an equilibrium price
2. practice price competition
- *3. be the only seller in a specific area

GEOG 23. Identify respectively the number of degrees for each of the following four:

1. degrees in a circle
2. degrees north latitude of the Tropic of Cancer
3. degrees of latitude at the Equator
4. degrees of south latitude at the South Pole

Answer: 1. 360, 2. 23.5, 3. 0, 4. 90

ECON 24. Which one of the following four would likely be caused by a technological breakthrough that results in a reduction in the cost of producing a good?

- *1. an increase in supply
2. a decrease in supply
3. an increase in the quantity demand
4. a decrease in the quantity demand

ECON 25. Fill in the blank. _____ policy recommends that the Federal Reserve control the money supply to manage economic growth.

Answer: monetary

ENG 26. Spell the five-letter word used to describe the meter in the following lines by Emily Dickinson:

I like to see it lap the miles,
And lick the valleys up...

Answer: i-a-m-b-i-c

ECON 27. Complete the following sentence using one of the four given choices:

When inflation is unexpected, ____ benefit at the expense of ____.

1. profits, revenues
- *2. debtors, creditors
3. revenues, profits
4. creditors, debtors

MATH 28. A total of 2,880 tiles, each measuring 3 inches by 3 inches, are needed to cover a 12-foot-by-15-foot floor. How many 9-inch-by-9-inch tiles are needed to cover the same floor?

Answer: 320

ECON 29. Which one or ones of the following four are considered barriers to world trade?

- *1. tariffs
- *2. embargoes
- *3. quotas
- *4. differences in language and culture

MS 30. What one word is common to the following four?

1. set of numbers to which 2, 3, 5, 7, 11 belong
2. interest rate charged by banks to their best customers
3. line of longitude running through Greenwich, England
3. a choice cut of beef

Answer: prime

End of the 15-point round for the 7th grade.

It is time for the 30-point team question entitled “Tic-Tac-Toe.”

For this team question you will be given Handout 7-1-1. Do not distribute the handouts until you are instructed to do so.

This team question is worth a total of 30 points. Each question is worth 3 points.

You will be given 4 minutes to complete the handouts. You are to identify as your team answer sheet one handout by writing your team number in the upper left-hand corner. This is the one handout to be collected and scored.

Distribute the handouts face down. (Pause.) Turn the handouts over and begin.

Time 4 minutes.

STOP! Hold your team answer sheet in the air. (Collect.)

Team # _____

Tic-Tac-Toe

Determine each term defined in the nine Tic-Tac-Toe squares, writing one letter per blank. The spelling of each term will contain the sequence of letters "t-i-c," "t-a-c," or "t-o-(e)." Unscramble the letters in the circles to form a term from your glossary of economic terms.

<p>1. sense of touch</p> <p>_____○_____</p>	<p>2. term in grammar used to refer to <u>the</u>, <u>a</u>, and <u>an</u></p> <p>_____○_____</p>	<p>3. the study of heredity</p> <p>_____○_____</p>
<p>4. arm of the Mediterranean Sea between Italy and the Balkan Peninsula</p> <p>_____○_____</p> <p>Sea</p>	<p>5. study of numbers and operations</p> <p>_____○_____</p>	<p>6. graph made using pictures</p> <p>_____○_____</p>
<p>7. ocean surrounding the North Pole</p> <p>_____○_____</p>	<p>8. one of the two main political parties in the United States</p> <p>_____○_____</p>	<p>9. a type of electricity</p> <p>_____○_____</p>

demand which is relatively unresponsive to changes in price

10. _____

Conduct a button check after the break. Announce cumulative scores.

Begin the 5-point question round for 8th grade.

ECON 1. Using the Rule of 72, determine how many years it will take to double an investment of \$500 left in a savings account paying a compound interest rate of 8%.

Answer: 9

ECON 2. Which one of the following four is the factor of production most probably lacking in a totalitarian state?

1. labor
- *2. entrepreneurship
3. land
4. capital
- 5.**

MATH 3. When a pair of fair dice is rolled, what is the probability of getting a sum greater than 12?

Answer: 0

The next two questions concern the demand curve.

ECON 4. Which one of the following three describes the slope of an ordinary demand curve?

1. down and to the left
2. up and to the right
- *3. down and to the right

ECON 5. Which one of the following four describes the change in the demand curve for chocolate if fewer people eat chocolate?

1. shift to the right
- *2. shift to the left
3. remain stable
4. disappear

SCI 6. Is the term rotation used to explain the Earth's relationship to the sun or to its axis?

Answer: axis

ECON 7. Which one of the following four describes the type of policy advocated by Adam Smith sometimes referred to as "hands off"?

1. eminent domain
2. censorship
3. free enterprise
- *4. laissez-faire

ECON 8. Compute the result of this three-step problem:

1. Add the number of consonants in the word mortgage to the number of factors of production.
2. Divide this sum by the number of syllables in the economic term meaning a legal suspension of trade especially of a particular commodity.
- *3. Subtract this quotient from the number of the functions of money as listed in your glossary of terms.

Answer: 0 [Note: (5 consonants + 4) ÷ 3 (embargo) = 3; 3 – 3 = 0]

ECON 9. Word scramble. Unscramble the following six words to form the definition of a term from your glossary of economic terms. Spell the term.

a, to, purpose, for, use, particular

Answer: a-l-l-o-c-a-t-e (Note: to use for a particular purpose)

SS 10. Name the oldest permanent settlement by Europeans in the United States.

Answer: St. Augustine, Florida

End of 5-point question round for 8th grade.

Have the judges turn over their question sets. Announce the two-minute break during which coaches may make substitutions and discuss with their teams.

Time 2 minutes.

Conduct a button check after the break. Announce cumulative scores.

Begin the 10-point question round for 8th grade.

ECON 11. Which one of the following four best describes a bull market?

1. a market with steady prices
- *2. a market with rapidly climbing prices
3. a market with slowly falling prices
4. a market with rapidly falling prices

MATH 12. Identify the number with each of the following four characteristics:

1. The number is odd.
2. The number has two digits.
3. The product of the number's digits is 20.
4. The ten's digit of the number is one less than its unit's digit.

Answer: 45

For the next five questions you are to answer *proprietorship, partnership, or corporation* to identify the type of business organization to which the given advantage best applies.

ECON 13. limited liability

Answer: corporation

ECON 14. profits are not shared

Answer: proprietorship

ECON 15. allows each owner to work in areas he or she knows best

Answer: partnership

ECON 16. continuity of existence

Answer: corporation

ECON 17. quick decisions can be made

Answer: proprietorship

SCI 18. Name the colors of radiation in the spectrum of visible light from the weakest to the strongest.

Answer: red, orange, yellow, green, blue, indigo, violet

ENG 19. Match each of the four idioms to its meaning. One numbered choice will not be used.

Idioms

- A. A bird in the hand is worth two in the bush.
- B. The proof is in the pudding.
- C. Little strokes fell great oaks.
- D. Rome wasn't built in a day.

Meanings

- 1. Breaking a task into manageable tasks will help get the job done.
- 2. Have patience.
- 3. Don't put off doing a task.
- 4. Be content with what you have.
- 5. Don't judge until you've tried.

Answer: A-4, B-5, C-1, D-2

ECON 20. Identify the type of inflation caused by increases in the cost of producing a product such as increases in the cost of materials or labor or increases in interest rates.

Answer: cost-push

End of 10-point question round for 8th grade.

Have the judges turn over their question sets. Announce the two-minute break during which coaches may make substitutions and discuss with their teams.

Time 2 minutes.

Conduct a button check after the break.

Announce cumulative scores.

Begin the 15-point question round for 8th grade.

ECON 21. Fill in respectively the three blanks using the words profit, retail and wholesale.

Mr Suarez sells his televisions to his customers at the ____ price. He, however, buys the televisions from a distributor at the ____ price. The difference between these two prices is his ____.

Answer: retail, wholesale, profit

ECON 22. Name the four types of unemployment.

Answer: seasonal, cyclical, structural, frictional (any order)

MATH 23. Compute the exact unit length of the longest line segment that can be drawn in the interior of a right rectangular prism with dimensions 3 units by 4 units by 2 units.

Answer: square root of 29

ECON 24. Which one of the following four has the least impact on the business cycle?

1. government spending and taxation
2. business investment
3. external factors
- * 4. educational factors

SS 25. Match each of the four colonial occupations to its modern nomenclature.

<u>Colonial Occupations</u>	<u>Modern Nomenclature</u>
A. limer	1. blacksmith
B. farrier	2. traveling salesman
C. tinker	3. painter or artist
D. cooper	4. barrel maker

Answer: A-3, B-1, C-2, D-4

ENG 26. Identify respectively each of the following three sentences as simple, compound, complex, or compound-complex.

1. Although the coach decided to pull the star player out of the game, we won by ten points.
2. The coach pulled the star player out of the game, but we won by ten points.
3. The coach pulled our star player, Bob “The Bull” Boswell, out of the game.

Answer: 1. complex, 2. compound, 3. simple

ECON 27. For each of the following four items, state respectively whether their value would be included in figuring Gross National Product.

1. computer chips used in a newly designed microwave oven
2. a newly developed commercial digital television set
3. a used automobile
4. a newly purchased tractor by a farmer

Answer: 1. no, 2. yes, 3. no, 4. yes

SCI 28. Which one of the following four ranges is that of audible sound?

1. 10 and 1,000 cycles per second
2. 20 and 2,000 cycles per second
- *3. 20 and 20,000 cycles per second
4. 20,000 and 40,000 cycles per second

ECON 29. Spell the word from your glossary that completes the following definition:

A _____ economy is one in which the standard of living is just equal to that needed to satisfy basic needs.

Answer: s-u-b-s-i-s-t-e-n-c-e

MATH 30. The sum of three numbers is 70, and the arithmetic mean of five other numbers is 18. Determine the average of these eight numbers.

Answer: 20

End of the 15-point round for the 8th grade.

It is time for the 30-point team question entitled "Outburst."

For this team question you will be given Handout 8-1-1. Do not distribute the handouts until you are instructed to do so.

This team question is worth a total of 30 points. Each question is worth 3 points.

You will be given 3 minutes to complete the handouts. You are to identify as your team answer sheet one handout by writing your team number in the upper left-hand corner. This is the one handout to be collected and scored.

Distribute the handouts face down. (Pause.) Turn the handouts over and begin.

Time 3 minutes.

STOP! Hold your team answer sheet in the air. (Collect.)

Read answers: (3 points each)

- | | |
|--|-----------------------------------|
| 1. Patrick Henry | 6. Martin Luther King, Jr. |
| 2. Henry Wadsworth Longfellow (accept: Paul Revere) | 7. Benjamin Franklin |

Team # _____

OUTBURST

Identify the historical figure who is attributed with the given quotation.

1. "Give me liberty or give me death."

1. _____

2. "One if by land, and two if by sea."

2. _____

3. "I only regret that I have but one life to lose for my country."

3. _____

4. "That's one small step for a man, one giant leap for mankind."

4. _____

6. "I have a dream."

6. _____

5. "I have not yet begun to fight."

5. _____

7. "The only thing certain is death and taxes."

7. _____

8. "Go west, young man."

8. _____

9. "Read my lips. No new taxes."

9. _____

10. "Ask not what your country can do for you; ask what you can do for your country."

10. _____

**OUTBURST
(THREE POINTS EACH)**

Identify the historical figure who is attributed with the given quotation.

1. "Give me liberty or give me death."

1. Patrick Henry

3. "I only regret that I have but one life to lose for my country."

3. Nathan Hale

2. "One if by land, and two if by sea."

2. Henry Wadsworth Longfellow
(accept: Paul Revere)

6. "I have a dream."

Martin Luther King, Jr. 6.

4. "That's one small step for a man, one giant leap for mankind."

4. Neil Armstrong

5. "I have not yet begun to fight."

5. John Paul Jones

7. "The only thing certain is death and taxes."

Benjamin Franklin 7.

8. "Go west, young man."

8. Horace Greeley

9. "Read my lips. No new taxes."

9. George Bush

10. "Ask not what your country can do for you; ask what you can do for your country."

10. John F. Kennedy
